02

Executive 60-Second Market Read

No same-run, independently cross-checked live-market pulse existed at the frozen cutoff, so no 5 September editorial market theme is authorized.

market_theme_id	OTR-RESEARCH-20260905-000100-SGT-R1:NO-THEME
theme	NO 5 SEPTEMBER EDITION THEME AUTHORIZED
confidence	DETERMINISTIC_FAIL_CLOSED
observation_time_sgt	2026-09-05T00:12:32+08:00
known	The 4 September release remains live and its Ethereum prediction remains pending.
interpretation	Evidence completeness—not a forced narrative—is the controlling result.
opposition	Post-cutoff crypto prices and prior-release snapshots cannot cure the missing same-run pulse.
invalidation	A new run with a fresh cutoff and two-source market receipts would supersede this finding.

03

Route and Current-Issue Consumer Manifest

04

Owner-Admin Tab Audit

Independent coordinator read of all owner-admin tabs

#	Tab	Chars	Read hash	Current finding / resolution
1	README / TAB CANONICAL	3913	adead8d5c58337c892771bbbbc04c38d1977a73c6948c17d272f5f1d6db75d4a	Current rule requires all 19 tabs to agree before publication; declares 56 HIT / 35 MISS / 91 resolved / 0 pending.
2	Resolve	3231	4bb629bea4f67b6696d6e6bccd916ac1db9dffc85e7153aee29b68f282e00a6f	Resolution workflow read in full; no authority to settle an outcome before its exact due clock.
3	Signal Score Investibles	4654	4c1741c0a3de075e6edf446af87f5b196161a2184c4eba84f90a7d9c729281b7	Displays 52 HIT / 31 MISS / 83 resolved / 62.65%, conflicting with the README and live integrity ledger.
4	The Daily Editorial Canonical	4685883	042bb810c3fc9b5e118095ddddbf4d1d1ce02058486bc0b78b32378393686ae7c	Large append/history surface read and hashed; visible header retains an older 17 August / 73-engine state and cannot override the current 75-engine contract.
5	Format Canonical	3773	0399405e9c7f477821a880f7ca42d4963fa81acff9426aea71727d06d161cf2e	Lists 11 editorial snapshots and an older Investment Scores route model; current live route topology requires 12 including Predictions Revisited.
6	Daily Publishes	8328	916fc616ead55e7c0c43194953a437e39aa8d8fa3e646547380fd59140a26dfc	Publication ledger read in full; current live pointer remains the 4 September release.
7	Permanent Memory	5900	d304461ce31aec6a9045010441f26f40d0b20c49edb8ee86bd41e69f432f21d8	Append-only memory rules read; historical material remains context-only for a new edition.
8	Historical Data	35573	7a2634a5c3c3da845e306d9c250d536d983de2c39e1a062e63a43778085d8ff9	Historical archive read and hashed; no historical row may fill a current evidence gap.
9	Learning Loop	10396	e6bd0006f81d9fa6ebc30fb5bb0ae5c799aa5385231d406e906a71b209b7bee1	Learning history read and hashed; no promoted rule authorizes changing the 4/3/2/1 weights.
10	Graph Learning	36411	cff376e14d733b53f8a7f3d0d2f1eb494897972ef9553a6e3b878c0b4b3b8278	Graph history read and hashed; no prospective causal uplift is established for this failed run.
11	Founder Ledger	2500	88df7fd600835eb6302f103c5e9d2eb2c6e281b1d2a48dd9fef8d35980a3fb78	Displays 52 HIT / 31 MISS / 83 resolved / 0 open, conflicting with 56/35/91 and the live API pending count of one.
12	Ledger visual rules	1574	82a26220801c5f150f77c26cf51ce06d79eb74953aafa2ddded387fb076efb02	Declares 56 HIT / 35 MISS / 91 resolved, but does not reconcile the conflicting Founder Ledger figures.

#	Tab	Chars	Read hash	Current finding / resolution
13	Engine Registry	452736	5af457913f9c0ab2848c4a460c2356f1183c82c373f4cb48f9a4846ef484e587	Current OTR-REGISTRY-75-V6 read in full: 75 active engines and a stated 5–10 target; the governing masterprompt imposes an absolute minimum of one PUBLISH_VERIFIED row per engine.
14	Sources	88929	b119862c436630d9d044eb35581d9fae4476671cf7d759aaa5ce08c7dd77f9a8	Current 334-source, 25-language-lane registry read in full; native non-English must be at least English per engine and overall.
15	Automated Engine Run	3913	adead8d5c58337c892771bbbbc04c38d1977a73c6948c17d272f5f1d6db75d4a	The selected tab rendered byte-identical README content, so the actual automation-run record was not independently auditable from this surface.
16	Clients	45342	5741acd611c58c8926fc7263a7eada66b11a3ee4c1c84206a3879ea97ca188b5	Visible copy says two active engines while live repository pointers identify three isolated clients; the displayed current issue/run references are stale.
17	Blueprint	1959	cda188dc73c4991c73b5c8b155c2667b9bc658d7483f6abefe33185ca87a84e9	Marked HOLD for a page-visual conflict and contains an eleven-versus-twelve Daily Editorial inconsistency.
18	Editorial Visuality	4223	2aeedb7841bf5b6761ae433668680ed04f44fde84f11483e9a158ca6b0ed7408	Read-only visual reference uses older labels and omits the current Predictions Revisited topology; it cannot override the active 12-route manifest.
19	Home Popup	2444	40f95eca3da74d9d5db7ab9e1fc4751c5ad09c3b020dcee7b26848b074b1aeee	Popup contract read; no new issue is authorized while Prompt A is false.

Material conflicts and deterministic resolutions

ID	Records	Resolution	Status
OTR-CONFLICT-01-20260905	Live 12-tab order conflicts with stale admin/staged tab names and routes.	UNRESOLVED: Use the verified live order in daily_editorial.live_order; Predictions is /predictions, not Scores or Everything.	UNRESOLVED
OTR-CONFLICT-02-20260905	Engine Registry source JSON is absent even though compiled assets and admin declare it canonical.	UNRESOLVED: Do not synthesize or silently recreate it during Prompt A; require a hash-valid source registry artifact before certification.	UNRESOLVED
OTR-CONFLICT-03-20260905	Current live release is a disclosed partial packet: 9 rows, 9 source attempts, 0 complete engines, all 75 below target.	UNRESOLVED: A new 5 September full run must satisfy the strict registry/output gate and publish every verified row.	UNRESOLVED
OTR-CONFLICT-04-20260905	Current non-English headline rows lack method/model translation and fidelity hashes.	UNRESOLVED: New non-English rows without both receipts remain HOLD_INCOMPLETE and cannot enter PUBLISH_VERIFIED.	UNRESOLVED
OTR-CONFLICT-05-20260905	Blueprint is explicitly HOLD_PAGE_VISUAL_CONFLICT and references the 3 September issue.	UNRESOLVED: Reconcile current Blueprint to the verified 12 routes before generating the 18 new issue-bound images.	UNRESOLVED
OTR-CONFLICT-06-20260905	Editorial Visuality reference uses legacy Scores/Investment Scores and substitutes Graph for Predictions Revisited.	UNRESOLVED: Treat it as protected visual reference only; live architecture governs route identity and tab order.	UNRESOLVED
OTR-CONFLICT-07-20260905	Clients admin says two active engines while current runtime packages prove three: Growth Greatness, OTR, and Fiqq.	UNRESOLVED: Build all three isolated packages; no client may receive another client's private learning.	UNRESOLVED
OTR-CONFLICT-08-20260905	Owner ledger snapshot says pending=0 while live system integrity and frozen ETH prediction require pending=1.	UNRESOLVED: Preserve the immutable ETH pending record; do not mutate owner ledger without owner authority. Reconcile public display and owner source before promotion.	UNRESOLVED

ID	Records	Resolution	Status
OTR-CONFLICT-09-20260905	STAGED_RELEASE_MANIFEST says STAGED_NOT_PROMOTED for the release the live API says PUBLISHED; no POST_RELEASE_MANIFEST exists.	UNRESOLVED: Require a coherent same-release post-promotion proof chain for the next release.	UNRESOLVED
OTR-CONFLICT-10-20260905	Staged route_count_expected is 254 while the frozen live sitemap has 256 routes.	UNRESOLVED: Prompt B must take a new pre-mutation route snapshot and prove the complete current surface rather than reuse 254.	UNRESOLVED
OTR-CONFLICT-11-20260905	Graph and Graph Learning headline_release_id omit the current atomic R1 suffix.	UNRESOLVED: Preserve history, append a new same-release lineage object, and verify all current consumers read one release identity.	UNRESOLVED
OTR-CONFLICT-12-20260905	Automated Engine Run and Daily Editorial Canonical panels retain 17 August, 73-engine, or old-route state beside the 75-engine live runtime.	UNRESOLVED: Classify old snapshots as historical; current forward contracts and live architecture govern, but the admin readback must be reconciled before publication proof.	UNRESOLVED
OTR-CONFLICT-20260905-LEDGER-COUNTS	README + Ledger visual rules + live API report 56 HIT / 35 MISS / 91 resolved; Signal Score + Founder Ledger report 52 HIT / 31 MISS / 83 resolved.	UNRESOLVED: reconcile the stale authority surfaces and re-read all 19 tabs.	UNRESOLVED
OTR-CONFLICT-20260905-AUTOMATION-TAB-BINDING	Automated Engine Run capture is byte-identical to README / TAB CANONICAL.	UNRESOLVED: expose the actual automation record; duplicated UI content cannot prove a run.	UNRESOLVED

06

Source Window and Research Method

research_cutoff_sgt	2026-09-05T00:01:00+08:00
source_window_start_sgt	2026-09-04T00:01:00+08:00
source_window_end_sgt	2026-09-05T00:01:00+08:00
publisher_time_rule	Direct original-publisher metadata timestamp with explicit timezone inside the frozen window; discovery times never qualify.
native_language_rule	English plus native-language discovery across all represented lanes; independent translation fidelity required for non-English publication.
verification_rule	Registry-host match, successful direct fetch, timestamp, scope, translation, and coordinator re-fetch must all pass.
root_event_rule	Retain every verified headline row; cluster shared events without counting copied or syndicated reporting as independent.

Search and verification audit

- Freeze the Singapore cutoff and 24-hour window before discovery.
- Attempt every locked registry source homepoint; classify those receipts as coverage-only.
- Run two deterministic discovery queries per active engine: English plus one native lane, distributed so all 25 lanes are represented and all 14 mandatory non-English lanes are included.
- Treat Bing News RSS only as discovery. Resolve and fetch the original publisher URL.
- Require direct-registry host, successful fetch, publisher metadata timestamp with explicit timezone, window inclusion, engine strong-anchor/required-group match, and a second-provider translation fidelity check for native evidence.
- Retain every distinct qualifying direct pointer once and preserve all duplicate query origins as exact-duplicate audit rows.

Timestamped cross-asset market pulse

Symbol / venue	Session	Observed	First receipt	Second receipt	Known	Interpretation	Opposition
PRIOR-RELEASE BASKET	CONTEXT_ONLY_PRIOR_RELEASE	2026-09-04T13:20:42.784 +08:00	SPY +1.03%; QQQ +1.17%; TLT +0.13%; GLD +1.82%; USO +0.60% in the 4 September release snapshot.	No independent same-run recheck existed at the frozen 5 September cutoff.	The figures are preserved from the prior published release and are not a new 5 September pulse receipt.	Historical context only; it cannot authorize the new edition.	A reused prior snapshot would violate the same-run evidence boundary.
BTC-USD	POST_CUTOFF_NOT_ELIGIBLE	2026-09-05T00:12:32+08:00	79,458.00 USD; -1.88190%; intraday 78,723–81,993 (Codex finance feed).	Not captured from a second independent source.	Observed after the 00:01 SGT cutoff.	Supplemental monitoring only.	Post-cutoff and single-source, so excluded from edition authority.
ETH-USD	POST_CUTOFF_NOT_ELIGIBLE	2026-09-05T00:12:32+08:00	2,452.44 USD; -1.95495%; intraday 2,436.23–2,542.40 (Codex finance feed).	Not captured from a second independent source.	Observed after the 00:01 SGT cutoff.	Supplemental monitoring only; not an early resolution of the live call.	The frozen Ethereum call is not due until 09:20:42.784 SGT.

Acceptance Matrix

Content-authority acceptance matrix

Gate	Requirement	Observed	Status	Affected
A01_RUN_DATE	Every artifact carries the same 2026-09-05 SGT issue date and research run ID.	2026-09-05; OTR-RESEARCH-20260905-000100-SGT-R1	PASS	
A02_ENGINE_REGISTRY	Exactly 75 active engines appear once.	75 rows; 75 unique	PASS	
A03_SOURCE_REGISTRY	All 334 sources and 25 lanes are attempted under the live registry.	334 sources; 25 lanes; complete=false	FAIL	
A04_DIRECT_TIME	Every PUBLISH_VERIFIED row is independently source-time verified.	12/14 coordinator-verified	FAIL	crimsonwatch, extreme-weather-meteorology-and-natural-disasters

Gate	Requirement	Observed	Status	Affected
A05_ENGINE_MINIMUM	Every active engine has at least one PUBLISH_VERIFIED row.	minimum=0; zero=66	FAIL	singapore-news, social-trends, rising-crypto, sg-deals, product-releases, websites-breakout, new-inventions, emerging-brands, new-tools-ai-tools, ai-opportunities-sg, finance, fashion-trends-signals-engine, online-games-crypto-p2e-and-game-consoles, the-arts, culinary-signals, sports-signals, crimsonwatch, wellness-and-fitness, merchandise-demand, medical-breakthroughs, climate-and-environment, agriculture-and-food-supply, water-and-utilities, mining-and-critical-materials, manufacturing-and-automation, semiconductors-and-hardware, cybersecurity-and-digital-trust, telecom-and-connectivity, space-and-satellites, defence-and-security, transport-and-logistics, aviation-and-aerospace, maritime-and-shipping, real-estate-and-construction, healthcare-systems, biotech-and-pharma, banking-and-credit, insurance-and-risk, venture-and-startups, retail-and-e-commerce, travel-and-hospitality, media-and-entertainment, education-and-skills, labour-and-workplace, law-and-regulation, public-policy-and-government, demographics-and-society, professional-services, animal-kingdom, space, quantum-technologies-quantum-computing, nuclear-energy, autonomous-systems-robotics-and-drones, circular-economy-waste-management-and-recycling, fintech-and-digital-payments-cbdcs, smart-cities-and-urban-tech-iot, extreme-weather-meteorology-and-natural-disasters, geopolitics-and-international-relations-conflict-analysis, hydrogen-clean-fuels, genomics-personalized-medicine, esports, philanthropy-social-impact-ngos, religion-and-belief-systems, commodities, shadow-wire, money-wire
A06_NATIVE_PARITY_ENGINE	Native non-English count is at least English count for each engine.	7 failures	FAIL	international-news, singapore-trending-activities, price-hike-detector, forex-signals, private-to-public, energy-and-power, automotive-and-mobility

Gate	Requirement	Observed	Status	Affected
A07_NATIVE_PARITY_OVERALL	Native non-English count is at least English count overall.	4 native non-English; 8 English	FAIL	
A08_WEIGHTS	Evidence weights remain exactly 4/3/2/1.	before={"live_market_pulse":4,"current_events":3,"historical_evidence":2,"learning_evidence":1}; after={"live_market_pulse":4,"current_events":3,"historical_evidence":2,"learning_evidence":1}	PASS	
A09_ADMIN_AUDIT	Coordinator independently reads all 19 owner-admin tabs.	19 tabs	PASS	
A10_ROUTE_AUDIT	Current route manifest is captured at cutoff.	256 routes	PASS	
A11_CONTRACT_CONFLICTS	No unresolved current-contract conflict remains.	14 unresolved	FAIL	OTR-CONFLICT-01-20260905, OTR-CONFLICT-02-20260905, OTR-CONFLICT-03-20260905, OTR-CONFLICT-04-20260905, OTR-CONFLICT-05-20260905, OTR-CONFLICT-06-20260905, OTR-CONFLICT-07-20260905, OTR-CONFLICT-08-20260905, OTR-CONFLICT-09-20260905, OTR-CONFLICT-10-20260905, OTR-CONFLICT-11-20260905, OTR-CONFLICT-12-20260905, OTR-CONFLICT-20260905-LEDGER-COUNTS, OTR-CONFLICT-20260905-AUTOMATION-TAB-BINDING
A12_DUE_REVIEWS	Every review due by cutoff is surfaced.	0 omitted	PASS	
A13_CLIENTS	One isolated package exists per active client.	3/3	PASS	
A14_PUBLIC_GUIDE	Public guide handoff is current and privacy-safe.	BLOCKED_STALE_RELEASE_BINDING	FAIL	
A15_EDITORIAL_TABS	Exactly 12 issue-bound Daily Editorial tabs exist in live order.	12 tabs	PASS	
A16_IMAGE_SLOTS	Exactly 18 issue-bound image briefs exist.	18 slots	PASS

      "english_description": "Underlying inflation reached 3.6% as household consumption faces a flat outlook. Australian retail spending reached $28.87b
(AU$40.13b) in July, up 6.1% from a year earlier, but inflation left real retail growth modest as households remained cautious over discretionary purchases.
Annual growth strengthened from 4.7% in June, according to Australian Retail Council (ARC) analysis of Australian Bureau of Statistics Household Spending
Indicator data. The strongest increases came from cafes, restaurants and takeaway food services, which rose 8.2%, followed by other retailing at 7.9% and
clothing, footwear, and personal accessories at 6.6%. “Growth of 6.1% is broadly around what we have seen historically in nominal terms rather than an
exceptional result,” said Glenn Fahey, Chief Economist at ARC. Headline inflation stood at 3.5% and underlying inflation at 3.6%, limiting the increase in
spending once price rises are taken into account. “Once inflation is taken into account, real retail growth remains fairly modest,” Fahey said. ARC cited
forecasts from Deloitte Access Economics, which expects household consumption growth to remain flat over the next year. Fahey said retailers face pressure
from inflation across their supply chains as consumers focus on value and limit discretionary spending. The latest Deloitte Retail Report found that 34% of
consumers plan to restrict spending during the holiday season, whilst 32% intend to switch to cheaper options and 11% expect to delay purchases. By industry,
food retailing reached $11.29b (AU$15.7b) in July, up 5% from a year earlier. Household goods retailing rose 5.5% to $4.75b (AU$6.6b), whilst department
stores and large online retailers increased 4.4% to $1.22b (AU$1.7b). Cafes, restaurants and takeaway food services recorded $4.32b (AU$6b) in spending, up
8.2%. Spending increased across all states and territories. The Northern Territory recorded the strongest growth at 10.2%, followed by Western Australia at
8%. The Australian Capital Territory recorded the lowest growth at 5%, followed by New South Wales at 5.2%. (US$1 = AU$1.39)",
