CODEx BUILD AUTHORITY

Daily Editorial, 75-engine multilingual evidence, predictions and private client feeds

Operational date: 2 September 2026 · Asia/Singapore

Frozen research window: 1 Sep 2026 01:24:34 SGT inclusive → 2 Sep 2026 01:24:34 SGT exclusive

PRESERVE THE SYSTEM. CHANGE THE CONTENT.

This PDF is the one content-and-release authority for Codex. It preserves OTR's architecture, design, routes, ledger rules, learning boundaries, client access and historical records. It authorises only a current evidence-bound content rebuild. Any missing receipt produces HOLD—not invented completion.

1. Build decision

Build a new 2 September 2026 edition—but do not promote it blindly.

Codex must preserve every live route, component, tab, visual rule, historical record, ledger rule and client boundary. Update only the current release object: content, dates, evidence receipts, current prediction states, fresh predictions, issue art and private-feed outputs.

Editorial spine

OIL SHOCK RAISES THE PRICE OF MONEY.

Plain-English read: attacks on two outbound oil tankers lifted the energy risk premium. Oil rose. Inflation fear and heavy bond supply kept yields high. The dollar firmed, while long bonds, gold, broad shares and semiconductors weakened. This is a fragmented inflation shock—not a simple ‘fear trade’.

Layer	Authority	2 Sep reading
LIVE · weight 4	Source-timed market observations	USO +4.22%; TLT −0.70%; GLD −2.42%; UUP +0.25%; SPY −0.70%; QQQ −1.21%; SMH −2.17%. Snapshot only, not an entry lock.
EVENTS · weight 3	Verified reports in the frozen 24h window	Two Saudi-oil supertankers struck near Oman; global bond rout; Nepal rescue emergency; sixth day of attacks on Kyiv; Congo Ebola school reopening; Singapore–Thailand leaders’ retreat.
HISTORICAL · weight 2	Saved OTR/public history	Context only. Never use an old edition to prove a current fact.
LEARNING · weight 1	Founder-approved learning only	Graph Learning adds zero directional or probability uplift unless a verified comparable window exists.

Current release state: HOLD pending live reconciliation

The public Scores/README state is 52 HIT / 34 MISS / 86 resolved / 60.47%, but Founder Ledger and Learning Loop still display 52 / 31 / 83. The due cohort resolves to 2 HIT and 1 MISS. Codex must reconcile the owner surfaces, then append by compare-and-swap. No tab may silently overwrite another.

2. Live admin audit — 19/19 visible tabs read

The live owner admin at <https://new.ontherice.org/admin> was read tab by tab. The table below is the build instruction extracted from each tab; it is not permission to replace the admin's canonical text.

#	Admin tab	Current build instruction
1	README / TAB CANONICAL	Exact-three predictions, 75-engine authority, cross-tab consistency and owner-only control.
2	Resolve	Resolve due locked calls only from exact venue/time evidence; append outcomes; never rewrite entries.
3	Signal Score Investibles	Exactly 3 fresh unique calls; all 8 considerations; exact +20h resolution.
4	Daily Editorial Canonical	Regenerate the current issue from one shared pulse/event/input hash.
5	Format Canonical	Preserve live Sites v418 shell, hierarchy, spacing, borders, tab structure and mobile stacking.
6	Daily Publishes	Old cohorts are history; current C68 exact-three rule wins.
7	Permanent Memory	Append only; missing/capped/truncated historical records stay visible.
8	Historical Data	Do not fabricate missing Base44 parts 6/8 or repair history through current content.
9	Learning Loop	Outcome-based learning only; no hindsight rewrite or unapproved production weight change.
10	Graph Learning	48 investibles, 105 headline events, 67 verified windows; no causal claim from adjacency.
11	Founder Ledger	Owner-controlled verdict surface; currently stale versus README/public Scores.
12	Ledger Visual Rules	One authoritative ledger; current display says 52/34/86 and conflicts with Founder view.
13	Engine Registry	OTR-REGISTRY-75-V6; 75 active engines; every engine runs; target 5–10 verified signals; no filler.
14	Sources	245 native sources across 24 lanes; search 300+ configured/source domains; original title + translation/fidelity proof.
15	Automated Engine Run	00:00 SGT canonical cadence. Forced runs use real time, never backdating. The tab loaded correctly after its slow transition.
16	Clients	Two active private engines: GrowthGreatness and OTR. Rebuild after public release save, before public pointer promotion.
17	Blueprint	Regenerate 11 current issue scenes; keep Rais/Bryce identities; exactly one Lessons pencil-art scene.
18	Editorial Visuality	Keep graphite/navy/gold/warm-white system; contrast and overflow pass on mobile.
19	Home Popup	Every-visit guide; server-readable page beneath; keyboard/focus/mobile contract unchanged.

Canonical facts frozen from the live admin

- Registry: OTR-REGISTRY-75-V6; hash af6a82f5ef424ac2ab95d8a3099a9d8a05def0ae5d72362fe4c4745552db96ff; 75 unique active engine IDs.
- Source authority: 245 native sources, 24 language lanes, 14 mandatory lanes; non-English headline count must be at least the English count for every engine.
- Public surface: 11 Daily Editorial routes; 12 internal canonical sections map into those 11 tabs. Do not add or remove a route.
- Site surface: 135 public pages and a key 34-route capture inventory. Preserve all routes and behaviours.
- Clients: only GrowthGreatness and OTR are active. Do not revive an inactive or remembered client engine.
- Visual proof: 11 desktop + 11 mobile editorial captures; 22 final hashes after the content is final.

Blocking owner-state contradiction

README, the current public Scores page and Ledger Visual Rules agree on 52 HIT / 34 MISS / 86 resolved. Founder Ledger and Learning Loop show 52 / 31 / 83. Codex must surface one versioned canonical precondition. If the compare-and-swap expected state does not match, stop and ask the owner—do not merge totals.

3. Mandatory run manifest

Field	Required value / rule
Operational date	2 September 2026 · Asia/Singapore
Frozen research window	2026-09-01 01:24:34 SGT inclusive → 2026-09-02 01:24:34 SGT exclusive
Proposed release ID	OTR-DAILY-75-2026-09-02-HHMMSS-SGT; replace HHMMSS with the real lock time
Registry	OTR-REGISTRY-75-V6 · 75 unique active IDs · verify the live hash before execution
Per-engine minimum	At least 1 fresh English and 2 fresh native non-English headlines. Every engine must execute. If the minimum cannot be verified, the engine is HOLD—not omitted or filled.
Source universe	Search 300+ configured/source domains; each claim needs an opened article-level receipt. A configured source is not automatically a verified source.
Language fidelity	Native query; original headline; direct URL; original publication time/timezone; SGT conversion; human-readable translation; fidelity receipt.
Predictions	Resolve the due cohort first. Then release exactly 3 unique current calls with fresh prices, all 8 inputs and exact +20h timestamps.
Clients	Rebuild GrowthGreatness and OTR from the same release object; zero public writes from private client engines.
Visual proof	11 desktop + 11 mobile editorial snapshots; no clipping, broken links, stale dates or missing receipt fields.
Research pack status	75-ENGINE HEADLINE FLOOR COMPLETE; files=6/6; engines=75/75; headline rows=225 (75 EN + 150 native non-EN); direct/additional URLs=255; deduplicated searched host tokens=871. Final Codex run must open/revalidate every promoted row.

Non-negotiable evidence rule

The user's 300+ requirement applies to the searched source universe for the full 75-engine run. Do not claim 300 verified articles per engine. Do not count homepages as headline proof. Every published engine row needs its own opened, freshness-checked claim receipt.

Filler is a release failure

A missing engine headline, stale article, duplicated event, machine-translated headline without the original, unsupported timestamp or inaccessible source is a visible HOLD. It cannot be replaced by a generic Reuters story or by repeating the same event under another engine.

Coverage note: the packs meet the literal per-engine headline rule. Engine 62 uses two distinct native German headlines; this is valid under the live '2 non-English headlines' wording. If the owner intends two different non-English languages per engine, Engine 62 must remain HOLD. Separately, final publication still needs one canonical machine receipt proving that all 24 configured language lanes were queried, including lanes that produced no selected row.

4. Due prediction resolution — immutable evidence

The 1 September cohort was published at 02:44:40.325 SGT and was due exactly 20 hours later at 22:44:40.325 SGT (10:44:40.325 ET). Direction is judged only from the saved entry and compatible venue/time evidence.

Instrument	Locked call	Entry	10:44 ET evidence	Verdict	Math
United States Oil Fund (USO)	BULLISH	133.59	136.5401 · PSE · Nasdaq chart; Yahoo 1m agreed	HIT	+2.9501
iShares 20+ Year Treasury Bond ETF (TLT)	BEARISH	82.34	82.18 · Nasdaq-GM; Yahoo 1m agreed	HIT	−0.16
NVIDIA (NVDA)	BULLISH	218.105	218.015 · Nasdaq-GS; Yahoo 1m agreed	MISS	−0.09

State	HIT	MISS	Resolved	Accuracy	Unverifiable
Expected canonical prior (README/public/C77)	52	34	86	60.47%	10 excluded
Append due cohort	+2	+1	+3	—	+0
Expected post-resolution	54	35	89	60.67%	10 excluded
Conflicting stale owner tabs	52	31	83	62.65%	10 excluded

Compare-and-swap gate

Use 52/34/86 only as the expected prior state because it is the public/README/C77 state—not because this PDF can overrule the owner. If live canonical readback differs, stop. Reconcile the Founder Ledger view first, append the three verdict events once, then read back 54/35/89 before creating the next cohort.

Resolution source receipts

- Nasdaq USO chart: <https://api.nasdaq.com/api/quote/USO/chart?assetclass=etf>
- Nasdaq TLT chart: <https://api.nasdaq.com/api/quote/TLT/chart?assetclass=etf>
- Nasdaq NVDA chart: <https://api.nasdaq.com/api/quote/NVDA/chart?assetclass=stocks>
- Yahoo Query2 one-minute charts were used only as independent agreement checks. Store the exact returned interval rows and retrieval times in the release receipt.

5. Live market pulse — editorial observation, not entry lock

Snapshot taken around 2 September 2026 01:18 SGT. Codex must obtain fresh venue-compatible prices at the actual prediction lock.

Instrument	Snapshot	Read
USO	139.34 · +4.22%	Oil shock bid
WTI crude	about 89.55 · +4.42%	Supply-route risk premium
TLT	81.94 · −0.70%	Long-duration bonds weaker
U.S. 10Y / 30Y	4.798% / 5.27%	Global yield pressure
GLD / spot gold	398.52 · −2.42% / about 4,344.68 · −2.17%	Haven demand outweighed by yield/dollar pressure
UUP	28.19 · +0.25%	Dollar firmer
SPY / QQQ / IWM	−0.70% / −1.21% / −1.07%	Broad risk appetite weaker
SMH / NVDA	−2.17% / −1.11%	Semiconductor pressure
XLE	+0.94%	Energy sector relative strength
Bitcoin	about 77,510 · −1.35%	No clean crypto haven signal

Cross-asset read

- SOURCE-BACKED: two outbound Saudi-oil supertankers were struck near Oman; crews were safe; other projectiles were also reported by UKMTO.
- SOURCE-BACKED: oil rose while U.S., Japanese, German and UK government yields climbed in a global bond rout.
- SOURCE-BACKED MARKET REACTION: the dollar firmed; gold, long bonds, broad shares and semiconductors weakened.
- PLAUSIBLE, NOT PROVEN: tanker attacks raised the oil risk premium; higher energy pressure reinforced inflation fear; high yields then increased the cost of holding duration and non-yielding gold.
- SEPARATE EVENTS: Nepal's flood rescue, Kyiv's sixth day of attacks, Congo's Ebola school reopening and Singapore–Thailand diplomacy belong in the issue but not inside the same causal chain.

6. Daily Editorial — exact 11-tab content authority

Every public tab shows the date 2 September 2026 beneath its tab title. Use Secondary 3 English: the clear read first, then short source-backed evidence. Keep fact, inference, scenario and watch point visibly different.

01 · TODAY

Headline: Oil jumped after tanker attacks. High yields then squeezed bonds, gold and shares.

- **FACT:** Two supertankers carrying Saudi oil were hit while sailing out of the Strait of Hormuz near Oman. Both crews were reported safe.
- **FACT:** Oil and energy shares rose. Long bonds, gold, broad shares and semiconductors fell. The dollar strengthened.
- **OTR READ:** The market's fear was not only about supply. It was also about what expensive oil could do to inflation and interest rates.
- **WORLD:** Nepal's flood deaths passed 1,000 as rescuers worked to reach people near damaged hydropower tunnels. Keep this human story separate from the market chain.

02 · INVESTMENT SCORES

Resolve the old cohort first: USO bullish HIT; TLT bearish HIT; NVDA bullish MISS. After the owner-state compare-and-swap, the expected ledger is 54 HIT, 35 MISS, 89 resolved, 10 unverifiable excluded, 60.67% accuracy.

Then create exactly three new calls: USO bullish, TLT bearish and GLD bearish—only if fresh price locks and all eight receipts still support them at publish time. If one fails, use the deterministic backup queue in section 7.

03 · RISKS

- **Double squeeze:** expensive oil can raise costs while high yields make borrowing harder.
- **Fast reversal:** verified de-escalation or safe tanker transit could pull oil down quickly.
- **Crowded narrative:** if jobs or inflation data change the rate path, bonds and gold can reverse even while oil stays high.
- **Integrity risk:** the current ledger views disagree. Publication is blocked until one canonical state is read back.

04 · TOP 3

Rank	Theme	Why it matters
1	Hormuz tanker attacks	A direct hit on outbound crude transport can lift oil, freight, insurance and inflation risk.
2	Global bond rout	Higher yields raise the cost of money for governments, firms, homes and long-duration assets.
3	Human recovery under strain	Nepal's flood rescue, Kyiv's attacks and Congo's Ebola outbreak show infrastructure and public-health pressure beyond markets.

05 · LONG-TERM INVESTMENT

- **Research theme:** energy-route resilience—storage, alternative supply, shipping safety and grid flexibility.
- **Research theme:** disaster resilience—early warning, rescue equipment, stronger bridges, tunnels and hydropower planning.
- **Research theme:** cash-rich, low-debt operators that can withstand expensive refinancing.
- **Boundary:** these are research directions, not a claim that every company in the theme is investible.

06 · CONNECTIONS

- **SOURCE-BACKED:** tanker attacks → higher oil prices.
- **PLAUSIBLE:** higher oil → higher inflation expectations → yields stay high.
- **SOURCE-BACKED REACTION:** high yields + firmer dollar → pressure on TLT, GLD, QQQ, IWM and SMH.

- FORMING: separate Arabic, Portuguese and English reports describe the same oil-price reaction. Cross-language agreement strengthens event confidence; it does not prove the full asset chain.

07 · NEW INSIGHT

The safety split: oil and the dollar rose while gold and long bonds fell. Fear did not lift every haven. The cost of money was strong enough to overpower part of the usual safety trade.

- Confirm if oil and yields stay firm while GLD, TLT and market breadth stay weak.
- Reject if verified de-escalation lowers oil and yields while gold and long bonds recover.

08 · TOMORROW / NEXT

- Watch verified tanker movements, UKMTO notices and any confirmed change in Strait flows.
- Watch WTI/Brent follow-through, the U.S. 10Y and 30Y, and TLT.
- Watch the dollar and gold together. Gold recovery with falling yields would challenge the current read.
- Watch QQQ, IWM and SMH for breadth; one large technology stock cannot prove a broad recovery.
- Watch Nepal rescue totals, Kyiv damage, Congo health measures and the Singapore-Thailand leaders' retreat.

09 · LEARNING

- Keep the older lesson that rate pressure can beat safe-haven demand.
- Append the new lesson: direct tanker damage can create a faster oil signal than a general war headline.
- A prediction verdict comes only from its locked instrument, exact time and compatible price—not from whether its story later sounded right.
- Never turn two related headlines into a causal fact without market and timing receipts.

10 · GLOSSARY / SIMPLE TERMS

Term	Plain meaning
Risk premium	Extra price added because supply may be disrupted.
Bond yield	The return a bond offers. When yields rise, old bond prices usually fall.
Duration	How sensitive a bond or asset is to changes in interest rates.
Market breadth	How many shares are joining a market move, not just the biggest names.
Source-timed	The fact and its timestamp come from an opened source, not from memory.
Canonical ledger	The one owner-approved record from which every score and counter is derived.

11 · SOURCES / PROOF

Publish the complete claim-to-source ledger: original headline, translation, direct URL, publication time/timezone, SGT conversion, retrieval time, fidelity receipt, event key, engine ID, source role, contradiction and invalidation. Keep all HOLD reasons visible. Prose appears before supporting evidence on every tab.

7. Exactly three new predictions — lock only at publication

Order of operations

First reconcile the ledger. Second append the due 2-HIT/1-MISS events. Third read back 54/35/89. Only then lock three fresh prices and create the new cohort. Publication time is the real lock time; resolve time is exactly +20 hours.

Priority	Instrument / direction	Why now	Invalidation at lock / during window
1	USO · BULLISH	Fresh tanker attacks; oil and USO strong; direct transport risk.	Verified de-escalation, clear safe transit and loss of the fresh entry; or pulse turns negative before lock.
2	TLT · BEARISH	10Y about 4.798%, 30Y about 5.27%; oil adds inflation pressure; long bonds weak.	Rapid flight to quality, falling long yields, or TLT trades above the fresh entry before release.
3	GLD · BEARISH	Dollar and yields firm; spot gold and GLD both weak despite geopolitical stress.	Gold reverses strongly while yields/dollar fall, or GLD is no longer below the fresh entry at lock.

Deterministic backup queue

If a primary card fails freshness, uniqueness, liquidity, venue compatibility or one of the eight consideration receipts at lock, test in this order: XLE bullish → UUP bullish → SMH bearish → IWM bearish. Stop after exactly three supported cards. Do not force a backup.

Eight mandatory considerations per card

#	Input	Required receipt
1	Live market pulse	Fresh instrument/venue/session observation · weight 4
2	Current events	Same-window verified event evidence · weight 3
3	Historical data	Compatible public history or zero weight · maximum 2
4	OTR historical data	Cited saved release or zero weight
5	OTR learning data	Founder-approved memory only · weight ceiling 1
6	OTR Graph Learning	Comparable verified window only; current graph does not justify uplift
7	OTR market-theme patterns	Cited compatible theme pattern or zero weight
8	Internet market-theme data	Current source-linked external evidence and contradiction check

Card fields that must be visible

Full instrument name; ticker; direction; evidence grade; plain-English why; what changes the view; entry price; venue; official trade time and timezone; price-receipt retrieval time; publication time in SGT; resolve time exactly +20h; eight input receipts; release ID; prediction ID; immutable state.

8. Private client feeds — same facts, different relevance

Both feeds inherit the same verified public release object. They may reorder relevance and propose private human actions. They may not change public facts, leak one client's learning into another, or write to public routes.

GrowthGreatness · /clients/growth-greatness

Mandate: find promising young AI startups that GrowthGreatness can genuinely verify and reach through public professional or business routes.

- Hard age gate: incorporated or founded after 1 March 2023. Store the exact date and the official evidence URL. An approximate year is HOLD.
- Require a current source-backed trigger from the same release window or a clearly dated official update.
- Require a public professional/business contact route. Never synthesize a personal address, phone number or identity.
- Suggested message must ask permission, name one verified trigger and explain one specific GrowthGreatness benefit.
- Rank: evidence quality, age confidence, commercial trigger, fit, reachability and freshness. Keep private learning private.

Private-feed item	Verified evidence	Permission-first next action	Gate
But Beautiful Co. / truloop	Official establishment date 2025-01-15; official site describes an AI social-gathering platform; MoneyToday 1 Sep 2026 reports pre-Series A funding and TIPS global R&D selection; public business route contact@butbeautiful.co.	Ask whether the team wants a private, no-obligation cross-market signal brief or introduction. Do not add it to a list, publish a profile or reuse the contact without opt-in.	PASS

GrowthGreatness HOLDS: Empirik, Visko, Oro and Blue Voice did not clear the exact post-1-Mar-2023 founding/incorporation-date gate and/or the official public-contact gate. Do not place them in the feed.

OTR · /clients/otr

Mandate: publish only organisations that can benefit from OTR private intelligence while creating a credible commercial or distribution benefit for OTR.

- Mutual-fit score must be at least 70/100, with separate reasoning for client value and OTR value.
- Require an official current trigger and at least one official email, telephone, WhatsApp or enquiry route. LinkedIn is a professional route, not inferred identity data.
- Current sectors: logistics, energy, finance, insurance, consumer and infrastructure organisations exposed to oil, freight, rate, cyber or regional supply risk.
- Human outreach names one verified trigger, one OTR use case and one two-way benefit, then asks permission for a short conversation.

Private-feed item	Fit	Official current trigger + public route	Specific two-way benefit	Gate
PLD Space	88	Official 1 Sep release: Series C extended to €288m; official press-contact page.	OTR gains primary launch/funding/supply-chain clarification; PLD gains a multilingual map of market interpretation with uncertainty and corrections visible.	PASS
Diraq	88	Equinix official 1 Sep release: planned 8-qubit silicon-spin deployment in Sydney; Diraq official Get in touch route.	OTR gains technical milestone access; Diraq gains careful multilingual context that separates this deployment from a utility-scale roadmap.	PASS
Ingka Group / IKEA	84	Official 1 Sep release: €1.2bn European affordability investment; press.office@ingka.com and official contact page.	OTR gains franchise-level pricing/sourcing nuance; IKEA gains a cross-language consumer-friction map that exposes regional communication gaps.	PASS
INDROTEK / InDro Robotics	84	Official 1 Sep release: qualified supplier in Canada's defence-drone marketplace; IR@INDROTEK.com and public phone in release.	OTR gains primary autonomy/procurement context; the company gains restrained international coverage that preserves 'qualification does not guarantee revenue'.	PASS

Client-feed publication gate

Use only verified candidates recorded in the research appendices. Any candidate without an exact GrowthGreatness age date, an official trigger, a public route or a ≥ 70 OTR mutual-fit explanation stays HOLD. Rebuild both authenticated feeds after the public release is saved and before the public pointer moves.

9. Architecture, design and route lock

No redesign is authorised

Do not change the page shell, navigation, route paths, tab order, palette, typography hierarchy, archive model, prediction state machine, ledger ownership, graph rules, account system, client access, home popup, historical records or learning boundaries.

Preserve	Required behaviour
Format Canonical v418	Same shell, content hierarchy, tabs, cards, spacing, borders and responsive stacking. Content length may change; layout contract may not.
Palette	Graphite background; navy panels; gold emphasis; warm-white reading text; readable support grey.
Daily Editorial	11 public tabs, 12 internal sections, all dated 2 September 2026, one shared same-run release object.
Editorial art	Regenerate 11 current scenes without changing the visual system. Exactly one Lessons scene uses the best pencil-art animation style.
Headline art	Exactly five source-bound images, same order on Today and Headlines, complete frame, no cropped captions.
Rais / Bryce	Use declared RAIS_ONLY, BRYCE_ONLY or RAIS_AND_BRYCE route casts; varied distance; one safe full-head Rais close-up.
Accessibility	Keyboard navigation, visible focus, dialog semantics, focus return, reduced motion, alt text and no colour-only status.
Mobile	390px and 375px views cannot clip headings, tabs, score fields, overlays, source links or client cards.
Home guide	Auto-opens every visit; Skip/Escape/Finish closes the current visit only; one popup system; server-readable content beneath.
History	Append outcomes/releases. Keep known gaps, capped/truncated records and missing Base44 parts visible.

10. Codex execution order

A later step cannot repair or excuse a missing earlier receipt.

Step	Action	Terminal proof
1	Freeze all 19 admin tabs, exact registry/source hashes, routes and current canonical states.	19/19 read receipt; no truncation
2	Reconcile the 52/34/86 versus 52/31/83 ledger conflict without rewriting history.	One owner-approved expected state
3	Append the due USO HIT, TLT HIT and NVDA MISS events once.	Readback 54/35/89 or stop
4	Run all 75 engines against the frozen 24h window and 300+ source universe.	75/75 engine receipts
5	Require ≥ 1 English + ≥ 2 native non-English headlines for every engine.	Language/fidelity parity or HOLD
6	Open, timestamp-check, claim-check, primary-check and event-deduplicate every candidate.	Every row VERIFIED/HOLD/DUPLICATE/REJECTED
7	Refresh the live cross-asset pulse.	Fresh pulse hash and session labels
8	Write 12 internal sections and map them to 11 public tabs.	11/11 fresh, readable, consistent
9	Lock exactly 3 predictions with real prices, all eight inputs and +20h times.	One immutable prediction cohort
10	Build GrowthGreatness and OTR private feeds from the same release.	Authenticated readback; no public client writes
11	Regenerate 11 editorial scenes + exactly 5 headline images.	Cast, crop, caption and provenance checks
12	Stage one canonical release and run content, evidence, ledger, route, engineering, accessibility and visual gates.	All terminal gates PASS
13	Promote the public pointer once; verify every route and append the immutable publication snapshot.	Terminal production readback

Fail-closed conditions

- Any engine missing, any engine below 1 English + 2 native non-English verified headlines, or fewer than 300 searched source-domain receipts.
- Stale pulse, unsupported cross-language claim, missing original title/time, invented translation, inaccessible URL or duplicate event presented as new.
- Ledger precondition mismatch, Founder Ledger mutation, retroactive prediction entry or duplicate outcome append.
- Fewer or more than exactly three supported calls; missing venue, entry, publication or exact +20h resolution time; fewer than 8/8 consideration receipts.
- Client release ID mismatch, unverified startup age/contact, missing OTR mutual-fit reasoning, or client engine writing to a public route.
- Stale date, route loss, visual/accessibility failure, cropped content, broken source link, ambiguous public pointer or failed production readback.

11. Final acceptance checklist

Gate	Pass condition
Admin	19/19 tabs read at build time; hashes frozen; zero unresolved contradiction
Engines	75/75 executed in canonical order; no engine omitted
Sources	300+ searched-domain receipts; every published claim has an opened direct source
Languages	Per engine ≥ 1 English + ≥ 2 native non-English; original title/time + translation/fidelity receipts
Evidence	Every claim opens to exact support; timestamps, names and numbers match; HOLDs visible
Editorial	12 internal sections; 11 public tabs; Secondary 3 English; same-run pulse/event hash; date 2 Sep 2026
Predictions	Due cohort resolved first; exactly 3 new unique calls; fresh prices; 8/8; exact +20h; immutable IDs
Ledger	Owner-approved state reconciled; expected post-resolution 54/35/89 only after readback
Clients	GrowthGreatness + OTR rebuilt; authenticated readback; same release ID; zero public client writes
Memory	Release, signals, sources, outcomes and approved learning appended; historical gaps remain disclosed
Visual	v418 preserved; 11 editorial + 5 headline images; 11 desktop + 11 mobile final hashes
Engineering	Typecheck, build, tests, routes, links, assets, metadata, robots/sitemap, mobile and accessibility PASS
Publication	One staged release; one pointer promotion; terminal production success; exact public readback

Status of this PDF's appended research material

Evidence pack files: 6/6. Engines: 75/75. Headline rows: 225 (75 EN + 150 native non-EN). Direct/additional URLs: 255. Deduplicated searched host tokens: 871. HOLD words: 19—these are preserved rejected/client candidates and caveats, not missing engine rows. This is a research-floor PASS, not permission to publish; the ledger conflict, admin-source match, 24-lane machine receipt, price locks and final route/visual gates remain.

FINAL CODEX COMMAND

Build the 2 September 2026 OTR edition from this authority and the live admin state.

Preserve every locked architecture, route, design rule, client boundary and historical record. Resolve and reconcile the ledger first. Run all 75 engines through the frozen 24-hour multilingual source process. Build all Daily Editorial and private-feed content from one canonical release object. Release exactly three fresh +20h predictions only after every receipt passes. If any gate fails, keep the draft on HOLD and report the exact missing receipt. Never invent completion.

Appendix A. Independent 75-engine research evidence

The following packs are reproduced as submitted by the six isolated research agents. They are evidence candidates, not automatically approved facts. Codex must parse each row, open every direct link, enforce the frozen time window, verify native fidelity, deduplicate events and preserve every HOLD.

Pack files	Engines	Headline rows	EN / native non-EN	URLs	Searched host tokens
6	75	225	75 / 150	255	871

75-engine native-headline evidence appendix

75 engines · 225 headline rows · 75 English + 150 native non-English · frozen window 1 Sep 01:24:34 SGT to 2 Sep 01:24:34 SGT.

Rejected and HOLD candidates remain visible for audit; they are not engine gaps.

The appendix begins after the core authority and source-universe overview. All URLs, publication times, translations, source roles, contradictions and invalidations are reproduced from the six independent evidence packs.

Appendix A1. Engines 01 13

Verbatim evidence-pack content from engines_01_13.md. Native headlines are preserved; all rows still require canonical readback before publication.

OTR Pavuron read-only evidence pack — Engines 01–13

Frozen run contract

- Research window: 2026-09-01 01:24:34 SGT inclusive → 2026-09-02 01:24:34 SGT exclusive (2026-08-31 17:24:34 UTC → 2026-09-01 17:24:34 UTC).
- Scope: OTR Engine Registry engines 01–13 only; 1 English and 2 native non-English headline slots per engine.
- Evidence rule: direct publisher pages only for a publishable row. Search-result snippets were used for discovery, never as the final factual evidence. Publisher text is treated as an untrusted claim until corroborated or explicitly caveated.
- Source rule: prefer local, official, specialist, and primary sources; no Reuters dependency. Multilingual versions of one event are deduplicated at the event layer.
- Status key: PASS = direct page, attributable claim, and exact in-window timestamp; PASS-Q = safe in-window qualification is possible but a publication-time field is incomplete; PASS-TZ-LOCALE = publisher-local timezone is unprinted but unambiguous from the local edition; HOLD = do not release the row without the missing proof.
- Authority: research-only. No site, database, ledger, release object, or admin state was mutated.

Live cross-engine pulse — evidence-led, not a prediction

1. Oil/rates are the dominant risk axis. The Guardian finance tape records Brent above \$92 and a global bond sell-off while The Block records Bitcoin holding near \$78,000 despite the same oil shock and higher Fed-hike odds. The meaningful cross-source signal is macro pressure with unusual Bitcoin resilience, not a crypto-native catalyst.
2. Singapore is building the adoption-and-governance layer around AI and digital finance. Worker adaptation policy, an AI workplace-safety launch, AMBR's agentic-AI repositioning, and the MAS stablecoin consultation all point to implementation, controls, and workforce readiness rather than undifferentiated AI hype.
3. Attention is being converted directly into transactions. Netflix fandom-to-commerce claims, TikTok's celebrity-IP beauty MOU, Alexa's proactive shopping alerts, GetGo's Malaysia feature, and Singapore retail promotions show platforms shortening the path from discovery to purchase.
4. Preventive infrastructure is emerging across sectors. Empirik's outage-prediction proposition, Newlight's marine retrofit, Intellifusion's processor patent, and Toray's membrane products share an efficiency/prevention theme. Their claimed performance still needs independent replication.
5. Fashion signals are bifurcated. Shein's weak debut is a capital-market warning for mass fast fashion, while Dunst's runway/wholesale expansion and KANGOL SPORT's footwear plan show selective investment in differentiated brand propositions.

Multilingual convergence raises an item's corroboration priority; it does not prove causality or make two translations of one event independent signals.

01 — Singapore News

Lang: EN

Original headline → faithful English: Marina Square mall to close in March 2027 for redevelopment — <https://www.channelnewsasia.com/singapore/marina-square-close-march-2027-redevelopment-6353296> → same

Publisher / evidence class: CNA; secondary/local

Original time → SGT: CNA article HTML JSON-LD: datePublished 1 Sep 2026 08:31:00 +08:00, dateModified 08:52:39 +08:00 → 08:31 SGT, updated 08:52:39 SGT

Factual claim and engine fit: Marina Square is to close 31 Mar 2027; redevelopment is targeted for 2031 with homes, hotel, offices and serviced apartments. Fit: material Singapore property/retail event.

Contradiction / invalidation: Redevelopment dates remain developer plans; revise if SingLand changes the closure or completion schedule. The timestamp proof is first-party structured metadata in the direct article, not a search snippet.

Gate: PASS

Lang: ZH

Original headline → faithful English: 气象署：9月首两周持续干旱 气温或超35摄氏度并有烟霾风险 — <https://www.zaobao.com.sg/news/singapore/story20260901-9609964> → “Meteorological Service: Dry conditions to persist in first half of September; temperatures may exceed 35°C with haze risk”

Publisher / evidence class: Lianhe Zaobao; secondary/local

Original time → SGT: 1 Sep 2026 19:45 SGT → 19:45 SGT

Factual claim and engine fit: Dry weather was forecast for the first fortnight, with possible highs above 35°C and haze risk. Fit: live public-weather and health signal.

Contradiction / invalidation: Forecast, not observation; invalidate or revise if MSS/NEA issues a later forecast or haze reading.

Gate: PASS

Lang: MS

Original headline → faithful English: Kes influenza naik, namun tiada petunjuk lebih teruk daripada biasa — <https://www.beritaharian.sg/singapura/kes-influenza-naik-namun-tiada-petunjuk-lebih-teruk-biasa> → “Influenza cases rise, but no indication they are more severe than usual”

Publisher / evidence class: Berita Harian; secondary/local

Original time → SGT: 1 Sep 2026 18:52 SGT → 18:52 SGT

Factual claim and engine fit: CDA data cited by the outlet showed influenza-positive samples rising from 24% to 36.6%, while severity did not appear higher and the rate remained below the Jan 2025 peak of 43.9%. Fit: current Singapore public-health signal.

Contradiction / invalidation: Surveillance percentages can be revised; “not more severe” must remain attributed to CDA and not generalized beyond the reported period.

Gate: PASS

02 — International News

Lang: EN

Original headline → faithful English: Russia kills at least 12 on sixth night of drone attacks on Kyiv — <https://www.theguardian.com/world/2026/sep/01/russia-kills-sixth-night-drone-attacks-ukraine-kyiv> → same

Publisher / evidence class: The Guardian; secondary/international

Original time → SGT: 1 Sep 05:58 EDT, updated 11:06 EDT → 1 Sep 17:58 SGT, updated 23:06 SGT

Factual claim and engine fit: The report said at least 12 people were killed in and around Kyiv during 28 waves of attacks. Fit: material geopolitical/security event.

Contradiction / invalidation: Casualty totals and attribution are provisional during conflict; update from Ukrainian authorities and independent monitors.

Gate: PASS

Lang: ES

Original headline → faithful English: Líderes de Rusia, China e India respaldan la soberanía de Irán y eluden la guerra de Ucrania en encuentro en Kirguistán — <https://elpais.com/internacional/2026-09-01/lideres-de-rusia-china-e-india-respaldan-la-soberania-de-iran-y-eluden-la-guerra-de-ucrania-en-encuentro-en-kirguistan.html> → “Leaders of Russia, China and India back Iran’s sovereignty and sidestep the Ukraine war at meeting in Kyrgyzstan”

Publisher / evidence class: El País; secondary/international

Original time → SGT: 1 Sep 12:38 CEST → 1 Sep 18:38 SGT

Factual claim and engine fit: The SCO communiqué backed Iran’s sovereignty and diplomacy while omitting Ukraine. Fit: alignment/diplomacy signal.

Contradiction / invalidation: “Sidestep” is the outlet’s interpretation; the defensible core is the communiqué’s included and omitted subjects.

Gate: PASS

Lang: AR

Original headline → faithful English: قصف حوثي على الحديدة والبحرية اليمنية تتصدى لزوارق انتحارية — <https://www.aljazeera.net/news/2026/9/1/%D8%A7%D9%84%D8%AD%D9%88%D8%AB%D9%8A%D9%88%D9%86-%D9%8A%D8%AC%D8%AF%D9%88%D9%86-%D8%A7%D8%B3%D8%AA%D9%87%D8%AF%D8%A7%D9%81-%D8%AC%D9%86%D9%88%D8%A8%D9%8A> → “Houthi shelling in Hodeidah and Yemeni navy confronts suicide boats”

Publisher / evidence class: Al Jazeera Arabic; secondary/regional

Original time → SGT: Published 1 Sep 2026 Makkah date; updated 1 Sep 19:55 AST → updated 2 Sep 00:55 SGT

Factual claim and engine fit: Government-aligned sources said three ballistic missiles were launched and coastal/naval forces intercepted four uncrewed attack boats; the report said the Houthis had not immediately commented. Fit: Red Sea/Yemen security signal.

Contradiction / invalidation: One-sided, conflict-time claims; invalidate or amend on Houthi, UN, maritime-monitoring, or independent confirmation.

Gate: PASS-Q — publication clock omitted, but a 1 Sep Makkah publication date can only map to 1 Sep 05:00–2 Sep 04:59 SGT; the exact update is in-window.

03 — Social Trends

Lang: EN

Original headline → faithful English: It's September. Time to put your knees away — <https://www.theguardian.com/commentisfree/2026/sep/01/its-september-time-to-put-your-knees-away> → same

Publisher / evidence class: The Guardian; secondary/opinion

Original time → SGT: 1 Sep 06:00 EDT, updated 12:45 EDT → 1 Sep 18:00 SGT, updated 2 Sep 00:45 SGT

Factual claim and engine fit: The columnist observed a May–August social-feed motif of holiday “brown-knee” selfies. Fit: qualitative social-image motif.

Contradiction / invalidation: Anecdotal commentary, not a quantified platform trend; do not express as prevalence without platform data.

Publisher / evidence class: Lianhe Zaobao; secondary/local

Original time → SGT: 1 Sep 21:33 SGT → same

Factual claim and engine fit: MAS opened consultation from 1 Sep to 16 Oct on Payment Services Act changes covering licensing, value stability, capital, redemption and disclosure. Fit: current Singapore digital-finance regulatory signal.

Contradiction / invalidation: Consultation text is a proposal, not enacted law; validate against the MAS paper and later legislative changes.

Gate: PASS

Lang: KO

Original headline → faithful English: 올해 외국인 코스피 순매수 단 두 달…9월도 ‘팔자’ 이어가나(종합) — <https://www.yna.co.kr/amp/view/AKR20260901113251008> → “Foreigners net-bought KOSPI in only two months this year—will selling continue in September? (Wrap)”

Publisher / evidence class: Yonhap; secondary/local

Original time → SGT: 1 Sep 16:33 KST → 1 Sep 15:33 SGT

Factual claim and engine fit: The report said foreign investors had net-sold roughly ₩169.6tn year-to-date and recorded net buying in only two months. Fit: Asian equity-flow/risk-appetite signal.

Contradiction / invalidation: The question in the headline is not a forecast; flows are time-sensitive and the reported aggregate must be refreshed.

Gate: PASS

13 — Fashion Trends Signals Engine

Lang: EN

Original headline → faithful English: Shein shares slide on fast-fashion retailer’s stock market debut — <https://www.theguardian.com/business/2026/sep/01/shein-shares-slide-fast-fashion-retailer-stock-market-debut-hong-kong> → same

Publisher / evidence class: The Guardian; secondary/markets
Original time → SGT: 1 Sep 08:11 BST, updated 14:49 BST → 1 Sep 15:11 SGT, updated 21:49 SGT
Factual claim and engine fit: Shein fell as much as 10% intraday and closed down 0.12%; the reported IPO valuation was about \$26bn versus \$100bn in 2022. Fit: capital/brand-health signal for fast fashion.
Contradiction / invalidation: Share action is not an aesthetic trend and can reverse; keep separate from consumer-demand claims.
Gate: PASS

Lang: JA
Original headline → faithful English: KANGOL SPORT、2027 年にフットウェアコレクション始動！都内でローンチイベント開催 — <https://news.mynavi.jp/article/20260901-4899756/> → “KANGOL SPORT to begin a footwear collection in 2027; launch event held in Tokyo”
Publisher / evidence class: Mynavi News; secondary, AI-generated from an AtPress release
Original time → SGT: 1 Sep 11:33 JST → 1 Sep 10:33 SGT
Factual claim and engine fit: KANGOL SPORT plans a 2027 casual/sport footwear collection for nationwide channels. Fit: forward category/brand-extension signal.
Contradiction / invalidation: The article discloses AI generation and the collection is planned, not yet sold; confirm from the brand at launch.
Gate: PASS

Lang: KO
Original headline → faithful English: 사내벤처로 시작해 런웨이로…던스트, 글로벌 브랜드 도약 나선다 — <https://www.mk.co.kr/news/business/12141294> → “From in-house venture to runway…Dunst pushes toward becoming a global brand”
Publisher / evidence class: Maeil Business Newspaper; secondary/local
Original time → SGT: 1 Sep 15:00 KST → 1 Sep 14:00 SGT
Factual claim and engine fit: Dunst staged its first runway after seven years using a see-now-buy-now model; the report described 1990s-inspired classics, neutrals, burgundy, plum, olive, butter yellow and pink, and said global wholesale grew 70% over four years. Fit: palette, silhouette, distribution and brand-expansion signal.
Contradiction / invalidation: One show and company growth figures do not establish marketwide adoption; wholesale growth needs company-account verification.
Gate: PASS

Event deduplication and release cautions

- The English and Malay GetGo headlines are one canonical event. The 39 language rows therefore represent 38 canonical event candidates.
- Opinion, sponsored releases, corporate press releases, and AI-generated-from-release articles remain visibly labelled; none should silently inherit the credibility of independent reporting.
- All price, casualty, weather, flow, offer and launch-availability fields require a final just-before-release refresh.
- No selected headline remains on HOLD. PASS-Q and PASS-TZ-LOCALE retain their visible qualifications and should be replaced if a stricter exact-publication-clock rule is imposed downstream.

Client-fit appendix

Client: GrowthGreatness
Candidate: Empirik
Exact founding-date gate: TechCrunch says Sequoia incubated the company in 2023 and it launched/spun out on 1 Sep 2026, but no exact official calendar founding date was found. Required searches: Empirik founded date 2023 company, site:empirik.ai founded, “Empirik, Inc.” founded.
Official public business/professional route: Official Empirik site — “Request a demo / Ask about your stack” — <https://empirik.ai/>
Specific mutual-fit trigger: It is a current AI startup with a professional inbound route and an enterprise product, but the client’s post-1-Mar-2023 exact-date rule cannot be proved.
Status: HOLD — exact founding date unavailable. Do not place in the private feed.

Client: OTR
Candidate: Empirik
Exact founding-date gate: Founding-date gate is not required for this OTR operational-fit screen.
Official public business/professional route: Official Empirik demo route — <https://empirik.ai/>
Specific mutual-fit trigger: OTR has a real automated editorial/release pipeline that could serve as a scoped pilot for pre-deployment change mapping, blast-radius checks and incident replay; Empirik receives a demanding agentic-publishing validation environment. Keep Empirik operational only—never an editorial source of truth.
Status: FIT TRIGGER — pursue only a reversible, non-production pilot with evidence logging.

Client: OTR
Candidate: Invigilo
Exact founding-date gate: Not required for this OTR mutual-fit screen.
Official public business/professional route: Official contact/demo form — <https://www.invigilo.ai/contact>; public route also lists sales@invigilo.sg
Specific mutual-fit trigger: OS+H Asia on 9–11 Sep provides a specific interview/demo trigger: OTR can produce source-linked Singapore AI-opportunity coverage; Invigilo receives accurately attributed exposure to enterprise/investor readers. Independently verify all detection-performance claims.
Status: FIT TRIGGER — event interview/demo, not endorsement.

Search-domain receipt

- Distinct domains searched or directly inspected: 120 (requirement: at least 55).
- Selected-row language distribution: English 13; Chinese 7; Malay 2; Spanish 1; Arabic 1; Korean 6; Japanese 8; Tamil 1. Total: 39 rows across 8 language lanes.
- Selected-row gate distribution: 39 releasable (PASS, PASS-Q, or PASS-TZ-LOCALE); 0 HOLD; 13/13 engines have a releasable 1-English + 2-native-non-English minimum.
- Deduplicated domains: 36kr.com, 8world.com, 9news.com, adweek.com, aigc-singapore.com, aisingapore.org, aljazeera.net, alvinology.com, apnews.com, apparelnews.co.kr, apple.com, bbc.com, beritaharian.sg, blog.google, bloter.net, break-smoke.jp, businessoffashion.com, capitaland.com, cathaypacific.com, cbiz.chosun.com, cda.gov.sg, channelnewsasia.com, china.com, cityu.edu.hk, cnyes.com, coindesk.com, coinpost.jp, cointelegraph.com, contentmarketinginstitute.com, csa.gov.sg, decadirect.org, decrypt.co, dw.com, elpais.com, emarketer.com, engadget.com, enterprise.gov.sg, epidemicsound.com, etnews.com, excite.co.jp, expressnews.com, fashionbiz.co.kr, fashionunited.com, fastcompany.com, finanzwire.com, fju.edu.tw, frankburger.co.kr, ft.com, fundsforngos.org, gartner.com, gasgoo.com, genbeta.com, getgo.sg, globenewswire.com, gov.mo, gov.sg, grow.google, heyorca.com, hku.hk, hkust.edu.hk, imda.gov.sg, inventions-hongkong.com, invigilo.ai, itmedia.co.jp, lemonde.fr, linkedin.com, marketingdirecto.com, markets.businessinsider.com, martech.org, mk.co.kr, mof.gov.sg, monoist.itmedia.co.jp, mothership.sg, mt.co.kr, mysanantonio.com, nate.com, nea.gov.sg, netinfluencer.com, news.mynavi.jp, news.yahoo.co.jp, newsis.com, newstap.co.kr, newstopkorea.com, nhk.or.jp, odaily.news, openai.com, osha-singapore.com, phys.org, pmo.gov.sg, prnewswire.com, prtnews.jp, ramd.am, recordchina.co.jp, revid.ai, royalcaribbean.com, sciencedaily.com, sciencenet.cn, scienceportal.jst.go.jp, singpromos.com, socialmediatoday.com, sqmagazine.co.uk, startupcorners.com, stdaily.com, straitstimes.com, tamilmurasu.com.sg, techcrunch.com, theblock.co, theguardian.com, theverge.com, tnnews.co.kr, tokchart.com, tyjrswj.gz.gov.cn, vibes.8world.com, vogue.com, wkyc.com, wwd.com, wwdjapan.com, yna.co.kr, zaobao.com.sg, zdnet.co.kr.

Appendix A2. Engines 14 25

Verbatim evidence-pack content from engines_14_25.md. Native headlines are preserved; all rows still require canonical readback before publication.

Pavuron research lane — OTR engines 14–25

Mode: read-only research; no admin, site, client-feed, ledger, prediction, or publication mutation performed.

Frozen SGT window: 2026-09-01 01:24:34 +08:00 inclusive → 2026-09-02 01:24:34 +08:00 exclusive.

Equivalent UTC window: 2026-08-31 17:24:34Z inclusive → 2026-09-01 17:24:34Z exclusive.

Gate: every selected row was opened as a direct source page and contains an exact clock time. Search-result snippets were discovery only. VDW = verified direct page + exact time + inside frozen window. VDW-TZI = same, but the page omitted its timezone and the publisher's local civil timezone was transparently inferred. VDW-PROV = event verified, but a fluid count/claim remains provisional.

Evidence label: Secondary means journalism, analysis, or a report based on an issuer/official statement; issuer claims are not promoted to independent fact.

Official/issuer pages used only as corroboration are named in the contradiction notes, not substituted for timestamp-qualified headline rows.

Lane-level pulse (candidate synthesis, not a release conclusion)

- Household cost pressure is globally coherent. Mumbai transport, fuel and milk increases; euro-area inflation at 3.3%; and Japan's 4,923 September food-price increases point in the same direction. This is a strong Price Hike × Culinary × Forex connection, but it is not one common causal series: India has local administered/retail changes, Europe has an aggregate CPI print, and Japan's list is company-announced repricing.
- Demand is bifurcating, not collapsing. Canadian prestige beauty remained up 6% in H1 while shoppers became more selective; a Korean limited-edition snack exhausted three months of planned inventory in one month; Spanish electrified-vehicle registrations rose 27%. At the same time, Shein's IPO traded as much as 10% below offer price. Read this as proof/value selectivity plus pockets of novelty and electrification demand—not a blanket consumer boom.
- Risk assets and funding are selective. The dollar strengthened as oil/yields revived inflation concern; USD/JPY stayed around 160. New infrastructure equity supply (SB Energy) is advancing despite a large loss and no operating data centres, while Shein's weak debut shows that public-market access does not equal enthusiastic price discovery.
- Medical innovation is real but early. GSK's mRNA flu candidate produced stronger immune responses in Phase II and moves to Phase III; Korea began its first approved advanced-regenerative-medicine treatment using autologous EBV-specific T cells. Neither is proof of population-level clinical benefit: the vaccine is unapproved and Phase II was immunogenicity-led; the Korean treatment cohort is 15 patients with outcomes still to accrue.
- Kyiv casualty reporting requires an unlocked toll and cautious legal language. Three languages corroborate the overnight strike and seven deaths at a rail depot, but totals differ by geography and update time; one Ukrainian headline also conflicts with its own body. Do not lock a final toll or apply “crime against humanity” absent a competent legal finding.

Engine 14 — Singapore Trending Activities

Lang: English

Original headline → faithful English: Satay by the Bay to close from Oct 1 — <https://www.straitstimes.com/singapore/satay-by-the-bay-to-close-from-oct-1-to-make-way-for-new-wetlands-attraction>

Publisher; original time → SGT: The Straits Times; 2026-09-01 17:09 SGT (updated 18:43 SGT) → same

Factual claim and engine fit: The 1,000-seat food centre is to close from Oct 1; the site is part of the coming Wetlands by the Bay, including a replacement dining block. Strong local leisure/dining-displacement signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Gardens by the Bay's announcement is the underlying issuer claim. Closure timing is current; the new attraction is staged for later years, so do not imply it opens immediately.

Lang: 中文

Original headline → faithful English: 9月上半月干燥天气持续 本地可能出现烟霾 — <https://www.8world.com/singapore/sept-first-half-weather-forecast-haze-3266411> → “Dry weather to persist in the first half of September; haze may occur locally”

Publisher; original time → SGT: 8world; 2026-09-01 17:51 SGT → same

Factual claim and engine fit: Forecast says drier conditions may create transboundary-haze risk, directly affecting outdoor activities and attendance.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: It is a conditional forecast, not an observed haze episode. Invalidate escalation if NEA readings/forecast later stay normal.

Lang: Bahasa Melayu

Original headline → faithful English: Satay by the Bay tutup mulai 1 Okt, buka laluan bagi tarikan Wetlands by the Bay yang baharu — <https://www.beritaharian.sg/singapura/satay-by-the-bay-tutup-mulai-1-okt-buka-laluan-bagi-tarikan-wetlands-by-the-bay-yang-baharu> → “Satay by the Bay closes from Oct 1, making way for the new Wetlands by the Bay attraction”

Publisher; original time → SGT: Berita Harian SG; 2026-09-01 19:11 SGT → same

Factual claim and engine fit: Confirms the closure, 1,000 seats, last operating day Sep 30, and future two-storey food block. Native Malay activity/venue signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Shares SPH reporting lineage with The Straits Times, so it is multilingual confirmation, not independent-source confirmation.

Engine 15 — Online Games, Crypto P2E & Game Consoles

Lang: English

Original headline → faithful English: ‘I feel like I’m grieving’: staff on devastating fallout of widespread layoffs at Xbox — <https://www.theguardian.com/games/2026/sep/01/xbox-layoffs-microsoft>

Publisher; original time → SGT: The Guardian; 2026-09-01 11:00 CEST (updated 14:45 CEST) → 17:00 SGT (updated 20:45 SGT)

Factual claim and engine fit: Employee accounts describe the product and human impact of Xbox/Microsoft cuts; the report says 1,600 immediate roles and 3,200 FY27 roles were affected/planned. Material console-platform signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Totals are reporting-derived and can change with implementation. Treat anonymous staff experiences as testimony, not a complete corporate headcount audit.

Lang: 日本語

Original headline → faithful English: 「鬼武者 Way of the Sword」，剣戟アクションを紹介する特別映像を公開。大塚明夫さんがナレーションを担当 —

<https://www.4gamer.net/games/865/G086595/20260901005/> → “Onimusha: Way of the Sword releases a special video introducing its sword-combat action, narrated by Akio Otsuka”

Publisher; original time → SGT: 4Gamer; 2026-09-01 11:33 JST → 10:33 SGT

Factual claim and engine fit: New promotional footage exposes combat design and launch-interest cues for a major console/PC title.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Promotional footage is publisher-controlled; it does not verify final gameplay quality, sales, or release performance.

Lang: Español

Original headline → faithful English: Konami anuncia un nuevo evento para esta semana: habrá novedades de Castlevania y Silent Hill —

<https://vandal.elespanol.com/noticia/2026244007/konami-anuncia-un-nuevo-evento-para-esta-seman-habra-novedades-de-castlevania-y-silent-hill/> → “Konami announces a new event for this week: there will be Castlevania and Silent Hill news”

Publisher; original time → SGT: Vandal; 2026-09-01 08:43 CEST (updated 08:44) → 14:43 SGT (updated 14:44)

Factual claim and engine fit: A scheduled Konami showcase creates near-term attention and announcement risk across two franchises.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: The event is forward-looking. Invalidate any title-specific inference until the broadcast actually confirms it.

Engine 16 — The Arts

Lang: English

Original headline → faithful English: ‘I’m not nervous, I’m ready’: Tschabalala Self on racist vandals and her bold striding woman for the Fourth Plinth —

<https://www.theguardian.com/artanddesign/2026/sep/01/tschabalala-self-fourth-plinth-racist-vandals-traffic>

Publisher; original time → SGT: The Guardian; 2026-09-01 00:00 EDT → 12:00 SGT

Factual claim and engine fit: Interview ties a major public-art commission to representation, public space and racist vandalism; strong art/cultural-friction signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Artist interpretation and reported vandalism context are not equivalent to audience consensus.

Lang: Español

Original headline → faithful English: Laia Abril, fotógrafa: “¿Por qué por ser mujer soy menos? Esa pregunta guía todo lo que hago” — <https://elpais.com/cultura/2026-09-01/laia-abril-fotografia-por-que-por-ser-mujer-soy-menos-esa-pregunta-guia-todo-lo-que-hago.html> → “Laia Abril, photographer: ‘Why am I less because I’m a woman? That question

guides everything I do”

Publisher; original time → SGT: El País; 2026-09-01 05:30 CEST → 11:30 SGT

Factual claim and engine fit: Artist interview foregrounds gender, documentary practice and institutional recognition; useful arts-theme signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Interview is a first-person creative position, not a quantitative measure of the art market.

Lang: 한국어

Original headline → faithful English: 9월 내내 미술로 물든다…오늘부터 ‘대한민국 미술축제’ — <https://www.seoul.co.kr/news/life/exhibition/2026/09/01/20260901500093> → “All September turns to art… ‘Korea Art Festival’ starts today”

Publisher; original time → SGT: Seoul Shinmun; 2026-09-01 11:03 KST (updated 11:06) → 10:03 SGT (updated 10:06)

Factual claim and engine fit: Festival links four biennales, two art fairs and 96 museums/galleries across Korea, signalling broad institutional programming and visitation.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Programme scale is not attendance or sales. Verify individual schedules before client recommendations.

Engine 17 — Price Hike Detector

Lang: English

Original headline → faithful English: Mumbai gets costlier from today: CNG, milk, auto-taxi fares all rise together — <https://timesofindia.indiatimes.com/city/mumbai/mumbai-gets-costlier-from-today-cng-milk-auto-taxi-fares-all-rise-together/articleshow/133668295.cms>

Publisher; original time → SGT: Times of India; 2026-09-01 10:07 IST → 12:37 SGT

Factual claim and engine fit: Reports CNG at ₹88/kg after a ₹2 rise, PNG +₹1/scm, auto minimum ₹26→₹27, taxi ₹31→₹33 and buffalo milk ₹93→₹102/litre. Direct multi-basket inflation signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Mixes separate suppliers/decisions; do not attribute all increases to one cause or assume national application.

Lang: Español

Original headline → faithful English: La inflación en la eurozona sube al 3,3%, máximo en tres años, y acerca la subida de tipos —

<https://www.lavanguardia.com/economia/20260901/11624476/inflacion-ipc-eurozona-agosto-tipos-bce.html> → “Eurozone inflation rises to 3.3%, a three-year high, bringing a rate increase closer”

Publisher; original time → SGT: La Vanguardia; 2026-09-01 11:31 CEST (updated 19:18) → 17:31 SGT (updated 2026-09-02 01:18 SGT)

Factual claim and engine fit: Aggregate price pressure and possible ECB response; macro confirmation for the detector. Both initial and update fall inside the window.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: “Brings a rate rise closer” is analysis, not an ECB decision. Invalidate policy inference if official guidance diverges.

Lang: العربية

Original headline → faithful English: رسوم جديدة على المصريين بالخارج؟ بيان يحسم حقيقة زيادة المعاملات القنصلية —

<https://www.alkhaleej.ae/2026-09-01/%D9%85%D9%86%D9%88%D8%B9%D8%A7%D8%AA/%D9%85%D8%AD%D8%B7%D8%A7%D8%AA/%D8%B1%D8%B3%D9%88%D9%85-%D8%AC%D8%AF%D9%8A%D8%AF%D8%A9-%D8%B9%D9%84%D9%89-%D8%A7%D9%84%D9%85%D8%B5%D8%B1%D9%8A%D9%8A%D9%86-%D8%A8%D8%A7%D9%84%D8%AE%D8%A7%D8%B1%D8%AC-%D8%A8%D9%8A%D8%A7%D9%86-%D9%8A%D8%AD%D8%B3%D9%85-%D8%AD%D9%82%D9%8A%D9%82%D8%A9-%D8%B2%D9%8A%D8%A7%D8%AF%D8%A9-%D8%A7%D9%84%D9%85%D8%B9%D8%A7%D9%85%D9%84%D8%A7%D8%AA-%D8%A7%D9%84%D9%82%D9%86%D8%B5%D9%84%D9%8A%D8%A9> → “New fees for Egyptians abroad? A statement settles the truth about higher consular transaction charges”

Publisher; original time → SGT: Al Khaleej; 2026-09-01 13:19 GST (updated 13:39) → 17:19 SGT (updated 17:39)

Factual claim and engine fit: Egyptian authorities deny a current blanket consular-fee increase; a \$15 entry-visa fee is described for Jan 1, 2027. Valuable false-positive/rumour filter.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: This invalidates the circulating broad current-fee claim; do not register it as a present price hike.

Engine 18 — Culinary Signals

Lang: English

Original headline → faithful English: NYC Baking Star Explores Her Afro-Caribbean Ancestry With New Restaurant — <https://ny.eater.com/news/413550/calabash-nyc-restaurant-camari-mick-opening-west-village-afro-caribbean-bakery-brasserie>

Publisher; original time → SGT: Eater NY; 2026-09-01 17:09 UTC → 2026-09-02 01:09 SGT

Factual claim and engine fit: Calabash is planned as a 30-seat West Village Afro-Caribbean bakery/brasserie with African coffee, Kenyan tea and cross-diaspora dishes. Emerging menu/concept signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Opening is planned for fall and the venue is described as a proof of concept; invalidate operational assumptions until it opens.

Lang: 日本語

Original headline → faithful English: 【今年最多】身近な食品・日用品が…9月1日の「値上げ」ニュースまとめ —

https://news.tv-asahi.co.jp/news_economy/articles/900198414.html → “[Most this year] Everyday foods and household goods… September 1 price-hike roundup”

Publisher; original time → SGT: TV Asahi; 2026-09-01 11:32 JST → 10:32 SGT

Factual claim and engine fit: 4,923 food items are scheduled for September price increases; prominent categories include seasonings, processed foods and dairy. Strong culinary cost/menu-margin signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Announced list prices are not identical to realised shelf prices; avoid summing category percentages into one inflation rate.

Lang: Italiano

Original headline → faithful English: Dimmi a che ora mangi e ti dirò di che Paese sei: la mappa europea della cena —

https://www.repubblica.it/il-gusto/2026/09/01/news/dimmi_a_che_ora_mangi_e_t_i_diro_di_che_paese_sei_la_mappa_europea_della_cena-425557620/ → “Tell me what time you eat and I’ll tell you which country you’re from: Europe’s dinner map”

Publisher; original time → SGT: la Repubblica; 2026-09-01 00:01 publisher-local, inferred CEST → 06:01 SGT

Factual claim and engine fit: A 31-market Ikea/YouGov study maps average dinner timing from Finland 17:17 to Spain 20:54 and notes dining moving away from the table. Behavioural culinary signal.

Label / status: Secondary; VDW-TZI

Contradiction, invalidation, or caution: Cross-country surveys and older national time-use studies are combined; do not infer every household follows the national average.

Engine 19 — Sports Signals

Lang: English

Original headline → faithful English: Barcelona breeze past Rayo but all eyes in Spain remain on Julián Álvarez — <https://www.theguardian.com/football/2026/sep/01/barcelona-la-liga-rayo-vallecano-atletico-julian-alvarez>

Publisher; original time → SGT: The Guardian; 2026-09-01 05:42 EDT → 17:42 SGT

Factual claim and engine fit: Barcelona beat Rayo 5–2, while transfer attention remained on Julián Álvarez; combines result and league-market signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Match result is fixed; transfer framing is fluid until clubs register a completed move.

Lang: 한국어

Original headline → faithful English: [[KBO 오늘의 경기 결과]9월1일(화)](https://www.newsis.com/view/NISX20260901_0003772196) → “[KBO today’s game results] Tuesday, September 1”

Publisher; original time → SGT: Newsis; 2026-09-01 22:07:17 KST → 21:07:17 SGT

Factual claim and engine fit: Results: LG 3–1 Doosan; Samsung 3–0 Lotte; KT 6–1 Hanwha; NC 7–2 KIA; SSG 4–0 Kiwoom. Direct league-results pulse.

Label / status: Secondary/results report; VDW

Contradiction, invalidation, or caution: Score row should be checked against KBO’s official ledger before any bet/performance model update.

Lang: 日本語

Original headline → faithful English: トットナム高井幸大がシントトロイデンへ期限付き移籍「結果を残せることを楽しみに」 — <https://www.nikkansports.com/m/soccer/world/news/amp/202609010001326.html> → “Tottenham’s Kōta Takai joins Sint-Truiden on loan: ‘I’m looking forward to producing results’”

Publisher; original time → SGT: Nikkan Sports; 2026-09-01 20:45 JST → 19:45 SGT

Factual claim and engine fit: Belgian club Sint-Truiden announced the 21-year-old defender’s loan from Tottenham, a concrete player-movement signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Loan duration/registration details should be checked against the club filing before roster automation.

Engine 20 — CrimsonWatch

Lang: English

Original headline → faithful English: Russia kills at least 12 on sixth night of drone attacks on Kyiv — <https://www.theguardian.com/world/2026/sep/01/russia-kills-sixth-night-drone-attacks-ukraine-kyiv>

Publisher; original time → SGT: The Guardian; first 2026-09-01 05:58 EDT, updated 11:06 EDT → first 17:58 SGT, updated 23:06 SGT

Factual claim and engine fit: Updated report says at least 12 killed in/around Kyiv, including seven at a rail depot, plus four reported elsewhere in Ukraine. Verified atrocity/civilian-harm event fit.

Label / status: Secondary; VDW-PROV

Contradiction, invalidation, or caution: Counts are official/reporter-sourced and still fluid. “War crime” or “crime against humanity” requires legal assessment; do not promote the engine name into a legal conclusion.

Lang: Українська

Original headline → faithful English: Зеленський: В ніч на 1 вересня Росія вбила 12 українців та іноземця — <https://www.pravda.com.ua/news/2026/09/01/8051279/> → “Zelenskyy: On the night of September 1, Russia killed 12 Ukrainians and a foreigner”

Publisher; original time → SGT: Ukrainska Pravda; 2026-09-01 09:46 EEST → 14:46 SGT

Factual claim and engine fit: Body attributes to Zelenskyy a total of 12 dead, including an Indian citizen, with seven killed at the Kyiv rail depot. Local-language official-claim channel.

Label / status: Secondary (official statement); VDW-PROV

Contradiction, invalidation, or caution: Internal inconsistency: headline wording implies 12 Ukrainians plus one foreigner, while body says 12 total including the foreigner. Use body total only as attributed and provisional.

Lang: Italiano

Original headline → faithful English: Raid russo contro deposito ferroviario a Kiev, 7 morti — https://www.ansa.it/sito/notizie/topnews/2026/09/01/raid-russo-contro-deposito-ferroviario-a-kiev-7-morti_8e818d5c-5d5f-4461-b727-69284c7a8a1d.html → “Russian raid on Kyiv railway depot, seven dead”

Publisher; original time → SGT: ANSA; 2026-09-01 08:10 publisher-local, inferred CEST → 14:10 SGT

Factual claim and engine fit: Earlier focused count reports seven deaths at the rail depot, corroborating the specific strike location.

Label / status: Secondary/wire; VDW-TZI / PROV

Contradiction, invalidation, or caution: Not a contradiction with later broader totals: this headline covers one site and an earlier update. Never sum reports without deduplicating victims/geography.

Engine 21 — Forex Signals

Lang: English

Original headline → faithful English: Dollar gains as oil, yield increases revive inflation fears — <https://www.reuters.com/world/asia-pacific/yen-hangs-near-160-amid-boj-rate->

hike-bets-dollar-wobbles-2026-09-01/
Publisher; original time → SGT: Reuters; 2026-09-01 01:24 UTC → 09:24 SGT
Factual claim and engine fit: Dollar index +0.16% to 99.57; EUR/USD down to 1.1599; USD/JPY around 160.08 as oil and yields lifted inflation concern. Core cross-asset FX pulse.
Label / status: Secondary/market report; VDW
Contradiction, invalidation, or caution: Intraday snapshot, not a close. Values can reverse; do not treat quoted levels as executable current prices after the timestamp.

Lang: 日本語
Original headline → faithful English: 外為：１ドル 160 円 04 銭前後と小幅なドル高・円安で推移 — <https://s.kabutan.jp/news/n202609011076/> → “FX: around ¥160.04 per dollar, with slight dollar strength and yen weakness”
Publisher; original time → SGT: Kabutan; 2026-09-01 19:01 JST → 18:01 SGT
Factual claim and engine fit: Japanese market tape independently aligns with the English USD/JPY direction and level later in the day.
Label / status: Secondary/data report; VDW
Contradiction, invalidation, or caution: Quote is a point-in-time indication; spreads/source venue are not stated in the headline.

Lang: العربية
Original headline → faithful English: أسعار العملات اليوم الثلاثاء 1-9-2026 .. ارتفاع اليورو والجنيه الاسترليني والريال السعودي — <https://www.bankygate.com/76610/%D8%A3%D8%B3%D8%B9%D8%A7%D8%B1-%D8%A7%D9%84%D8%B9%D9%85%D9%84%D8%A7%D8%AA-%D8%A7%D9%84%D9%8A%D9%88%D9%85-%D8%A7%D9%84%D8%AB%D9%84%D8%A7%D8%AB%D8%A7%D8%A1-1-9-2026--%D8%A7%D8%B1%D8%AA%D9%81%D8%A7%D8%B9-%D8%A7%D9%84%D9%8A%D9%88%D8%B1%D9%88-%D9%88%D8%A7%D9%84%D8%AC%D9%86%D9%8A%D9%87-%D8%A7%D9%84%D8%A7%D8%B3%D8%AA%D8%B1%D9%84%D9%8A%D9%86%D9%8A-%D9%88%D8%A7%D9%84%D8%B1%D9%8A%D8%A7%D9%84-%D8%A7%D9%84%D8%B3%D8%B9%D9%88%D8%AF%D9%8A> → “Currency prices today, Tuesday 1-9-2026: euro, pound sterling and Saudi riyal rise”
Publisher; original time → SGT: BankyGate; 2026-09-01 09:16 EEST → 14:16 SGT
Factual claim and engine fit: Egyptian bank retail tables show EUR, GBP and SAR gains versus EGP, adding a local-currency lens.
Label / status: Secondary/retail-rate report; VDW
Contradiction, invalidation, or caution: Not directly comparable to the DXY or USD/JPY pair. Bank buy/sell rates include spreads and local EGP dynamics.

Engine 22 — Wellness & Fitness

Lang: English
Original headline → faithful English: Ultrahuman Pulsomics Invites Smart Ring Owners To Sleep Study — <https://www.forbes.com/sites/andrewwilliams/2026/09/01/ultrahuman-pulsomics-invites-smart-ring-owners-to-sleep-study/>
Publisher; original time → SGT: Forbes; 2026-09-01 10:15 EDT → 22:15 SGT
Factual claim and engine fit: Ultrahuman opened opt-in research paths for Ring Air/Pro owners around sleep, VO2 max and glucose. Wearable/research-participation signal.
Label / status: Secondary; VDW
Contradiction, invalidation, or caution: Privacy and scientific-value claims come largely from the company; participation is not proof of validated clinical utility.

Lang: 한국어
Original headline → faithful English: “유산소·근력 한 번에” 20kg 감량 강소라, ‘다이어트 운동’ 도전… 뭘까? — https://health.chosun.com/site/data/html_dir/2026/09/01/2026090101025.html → “‘Cardio and strength at once’: Kang So-ra, down 20 kg, tries a ‘diet workout’—what is it?”
Publisher; original time → SGT: Health Chosun; 2026-09-01 10:05 KST → 09:05 SGT
Factual claim and engine fit: Explains bungee fitness and cites a 12-adult study estimating roughly 354–539 kcal/hour, with injury cautions. Fitness-trend signal.
Label / status: Secondary; VDW
Contradiction, invalidation, or caution: Celebrity weight change is anecdotal and the cited study is tiny. Do not claim bungee fitness caused the 20 kg loss or generalise calorie burn.

Lang: Italiano
Original headline → faithful English: Fano Fitness Festival: terza edizione tra sport e benessere diffusi — <https://it.blastingnews.com/sport/2026/09/fano-fitness-festival-terza-edizione-tra-sport-e-benessere-diffusi-004109589.html> → “Fano Fitness Festival: third edition spanning sport and widespread wellness”
Publisher; original time → SGT: Blasting News Italia; 2026-09-01 16:29 publisher-local, inferred CEST → 22:29 SGT
Factual claim and engine fit: Sep 4–6 festival offers training, yoga, mindfulness and nutrition with more than 100 local organisations. Participation/event signal.
Label / status: Secondary; VDW-TZI
Contradiction, invalidation, or caution: Programme/participant claims are pre-event; attendance and delivery remain unverified.

Engine 23 — Private to Public

Lang: English
Original headline → faithful English: SoftBank-backed SB Energy files for US IPO as AI turbocharges infrastructure demand — <https://www.reuters.com/business/energy/softbank-backed-sb-energy-moves-closer-public-markets-with-us-ipo-filing-2026-09-01/>
Publisher; original time → SGT: Reuters; 2026-09-01 10:09 UTC → 18:09 SGT
Factual claim and engine fit: Filing-derived report: H1 revenue +66.4%, net loss \$3.21bn, claimed \$439bn backlog, no operating data centres yet, proposed Nasdaq ticker SBE, and

a \$1.5bn Nvidia private placement. Clear private-to-public trigger.

Label / status: Secondary (filing-derived); VDW

Contradiction, invalidation, or caution: Backlog and buildout are issuer representations; absence of operating data centres and large loss are material invalidators of simplistic growth narratives. Offer size/timing can change.

Lang: Italiano

Original headline → faithful English: Shein delude all'Ipo di Hong Kong: raccolti 1,7 mld ma il titolo scivola — <https://www.soldionline.it/notizie/mercati-esteri/shein-delude-allipo-di-hong-kong-raccolti-17-mld-ma-il-titolo-scivola> → “Shein disappoints in its Hong Kong IPO: raises \$1.7bn but the stock slides”

Publisher; original time → SGT: SoldiOnline; 2026-09-01 09:51 publisher-local, inferred CEST → 15:51 SGT

Factual claim and engine fit: Shein raised about HK\$13.6bn/\$1.75bn; shares fell as much as 10% from the HK\$48.56 offer price; implied valuation about \$26.3bn. Live debut/pricing signal.

Label / status: Secondary; VDW-TZI

Contradiction, invalidation, or caution: Intraday low is not closing return. The article's “demand below expectations” language is interpretation; distinguish retail oversubscription from aftermarket price.

Lang: 한국어

Original headline → faithful English: 쉬인, 기업가치 4분의 1토막에도 IPO 강행한 속사정은 — https://mobile.newsis.com/view_amp.html?ar_id=NISX20260901_0003771229 → “Why Shein pushed ahead with its IPO despite its valuation falling to one quarter”

Publisher; original time → SGT: Newsis; 2026-09-01 12:01:20 KST → 11:01:20 SGT

Factual claim and engine fit: Reports that listing converted \$17.3bn of preference shares and removed a potential \$4.4bn year-end cash obligation; IPO proceeds were about \$1.7bn. Adds capital-structure motive to the debut.

Label / status: Secondary (WSJ/issuer-derived); VDW

Contradiction, invalidation, or caution: The cash-obligation explanation is analysis and not necessarily the only IPO motive. Payment estimates depend on security terms and offer price.

Engine 24 — Merchandise Demand

Lang: English

Original headline → faithful English: Luxury Beauty's New Challenge: Why Consumers Are Becoming More Selective —

<https://www.forbes.com/sites/laiafarrangraves/2026/09/01/luxury-beautys-new-challenge-why-consumers-are-becoming-more-selective/>

Publisher; original time → SGT: Forbes; 2026-09-01 08:00 EDT → 20:00 SGT

Factual claim and engine fit: Circana data cited: Canadian prestige beauty sales reached C\$2.2bn in H1, +6%; masstige facial skincare +22% through June. Shoppers prioritise efficacy/value—strong demand-composition signal.

Label / status: Secondary; VDW

Contradiction, invalidation, or caution: Brand interviews are interested views; tariff effects from Sep 8 are prospective. Growth does not mean all luxury brands/categories benefit.

Lang: 한국어

Original headline → faithful English: [“쌈장 찍어 먹었더니 대박”...2030 난리 난 과자 ‘폴절 대란’ [트렌드+]](<https://www.hankyung.com/article/202609016503g>) → “A hit when dipped in ssamjang’... snack sell-out craze among people in their 20s and 30s”

Publisher; original time → SGT: Hankyung; 2026-09-01 14:40 KST (updated 16:33) → 13:40 SGT (updated 15:33)

Factual claim and engine fit: Lotte Wellfood says 210,000 bags sold in about a month, consuming three months' planned inventory in 30 days; some stores sold 50+ per day. Strong sell-through/sold-out clue.

Label / status: Secondary (issuer-supplied sales); VDW

Contradiction, invalidation, or caution: Shipment-based “sold” figures are not audited consumer sell-through; scarcity was partly a limited initial production plan.

Lang: Español

Original headline → faithful English: Toyota, KIA y BYD lideran ‘con puño de hierro’ las ventas de coches electrificados (etiqueta ECO y Cero) en España —

https://www.hibridosyelectricos.com/coches/toyota-kia-byd-lideran-con-puno-hierro-ventas-coches-electrificados-etiqueta-eco-cero-en-espana_89046_102.html → “Toyota, Kia and BYD firmly lead sales of electrified cars (ECO and Zero labels) in Spain”

Publisher; original time → SGT: Híbridos y Eléctricos; 2026-09-01 16:30 publisher-local, inferred CEST → 22:30 SGT

Factual claim and engine fit: ANFAC-derived data: 18,967 plug-in/BEV registrations in August, +27%, 27.7% share; 185,340 YTD, +34.1%. Product-category demand signal.

Label / status: Secondary (industry-data-derived); VDW-TZI

Contradiction, invalidation, or caution: Registrations can be influenced by incentives, fleet channels and dealer activity; they are not pure household preference. Article's BEV/PHEV subcounts should be reconciled with the cited associations before modelling.

Engine 25 — Medical breakthroughs

Lang: English

Original headline → faithful English: GSK to advance mRNA flu vaccine to late-stage trial — <https://www.reuters.com/business/healthcare-pharmaceuticals/gsk-advance-mrna-flu-vaccine-late-stage-trial-2026-09-01/>

Publisher; original time → SGT: Reuters; 2026-09-01 06:15 UTC → 14:15 SGT

Factual claim and engine fit: GSK says its 971-adult Phase II candidate generated stronger immune responses than licensed standard/high-dose comparators and will enter Phase

III; it targets HA and NA. Valid clinical-development advance.

Label / status: Secondary (issuer/Phase-II-derived); VDW

Contradiction, invalidation, or caution: The official GSK page corroborates design/results, but the candidate is unapproved. Immunogenicity and tolerability are not Phase III efficacy or real-world protection.

Lang: 한국어

Original headline → faithful English: 바이젠셀 “첨단재생의료, 국내 첫 환자치료 개시” — https://mobile.newsis.com/view_amp.html?ar_id=NISX20260901_0003771022 → “ViGenCell: Korea’s first advanced regenerative-medicine patient treatment begins”

Publisher; original time → SGT: Newsis; 2026-09-01 10:38:44 KST → 09:38:44 SGT

Factual claim and engine fit: Korea begins its first approved advanced-regenerative treatment using autologous EBV-antigen-specific T cells for 15 high-relapse-risk EBV-positive extranodal NK/T-cell lymphoma patients in complete remission; prior Phase II reportedly met 2-year DFS endpoint.

Label / status: Secondary (company/regulator-derived); VDW

Contradiction, invalidation, or caution: Cohort is 15 and new real-world outcomes do not yet exist. Prior Phase II detail is company-reported here; do not call it a cure or broad approval.

Lang: Español

Original headline → faithful English: GSK avanza hacia fase III con su vacuna de ARNm contra la gripe tras lograr respuestas inmunitarias superiores — <https://www.consalud.es/salud35/internacional/gsk-avanza-hacia-fase-iii-con-su-vacuna-de-arnm-contra-la-gripe-tras-lograr-respuestas-inmunitarias-superiores.html> → “GSK advances its mRNA flu vaccine to Phase III after achieving superior immune responses”

Publisher; original time → SGT: ConSalud/Salud35; 2026-09-01 13:38 publisher-local, inferred CEST → 19:38 SGT

Factual claim and engine fit: Spanish specialist-health report independently renders the Phase II/Phase III transition and dual HA/NA design, establishing multilingual salience.

Label / status: Secondary; VDW-TZI

Contradiction, invalidation, or caution: Same underlying GSK dataset as the English row, so this is multilingual confirmation, not independent clinical replication.

Cross-checks consulted but not used as timestamp-qualified headline rows

- GSK official release — <https://www.gsk.com/en-gb/media/press-releases/gsk-to-advance-mrna-seasonal-flu-vaccine-candidate-to-phase-iii-following-positive-phase-ii-data/> corroborates the 971-adult Flu-028 design, Phase II immune-response claim, September Phase III plan, and unapproved status; it exposes a date but no clock time.
- Novartis official release — <https://www.novartis.com/news/media-releases/novartis-remibrutinib-high-efficacy-oral-btk-inhibitor-significantly-reduces-relapse-rates-and-shows-favorable-safety-profile-phase-iii-rms-trials> was checked during medical discovery but excluded from selected rows because it has no clock time.
- ANFAC official August registrations release — <https://anfacs.com/agosto-suma-68-544-nuevos-turismos-con-un-crecimiento-del-118-de-las-ventas/> corroborates the Spanish vehicle-registration figures but displays a broken/absent clock-time token, so the timestamp-qualified specialist report is the selected row.
- The Straits Times/Berita Harian venue reports quote Gardens by the Bay; the local issuer's forward schedule remains subject to construction and operating changes.

Domain-search receipt

The following is the deduplicated auditable set of source hosts searched, opened, or directly checked in this lane, including domains that yielded no publishable row, robots/403 failures, date-only pages, and corroboration-only pages. Distinct hosts: 181. Selected headline hosts: 29. Selected rows: 36.

Exact discovery searches that produced no selected row or were rejected

- site:medical-tribune.co.jp/news/2026/09/01 新薬 臨床 試験 結果 — no timestamp-qualified current result surfaced.
- site:mixonline.jp/tabid55.html 2026/09/01 新薬 臨床 — robots blocked.
- site:answers.ten-navi.com/pharmanews 2026/09/01 新薬 臨床 — current result had date only, no clock time.
- site:yakuyomi.jp 2026 年 9 月 1 日 新薬 臨床 — no current qualifying result.
- site:eleconomista.es/motor/noticias/14011045/09/26 hibridos electricos matriculaciones agosto — direct page returned 403; replaced with a directly opened, timestamped Híbridos y Eléctricos report and checked against ANFAC.
- site:forbes.com/sites/laiafarrangraves/2026/09/01 luxury beauty consumers selective Canada — yielded the selected direct Forbes page after canonical/tollbit resolution.
- site:nhk.or.jp/sports-news 2026 年 9 月 1 日 スポーツ 試合 結果 — no qualifying selected row; Nikkan Sports supplied exact time.
- site:marca.com/futbol 2026/09/01 Barcelona Rayo 5-2 — robots blocked.
- site:beritaharian.sg/singapura "Satay by the Bay tutup mulai 1 Okt" — later exact search returned empty, but the previously discovered direct Berita Harian page was opened and verified word-for-word.

Handoff gate: all twelve engines have the non-negotiable 1 English + 2 native non-English structure. These are candidates for the canonical release object, not permission to publish. Preserve the cautions, provenance and timestamp fields during editorial synthesis.

Appendix A3. Engines 26 38

Verbatim evidence-pack content from engines_26_38.md. Native headlines are preserved; all rows still require canonical readback before publication.

Pavuron frozen-window research lane — Engines 26–38

Window (Asia/Singapore): 2026-09-01 01:24:34 SGT inclusive → 2026-09-02 01:24:34 SGT exclusive.

Run posture: read-only research; no OTR/admin/site mutation.

Selection gate: each engine has exactly one English row plus two distinct native non-English rows; every selected row has a direct article/advisory page and an exact publication clock. Where a publisher does not print a timezone token, the publisher-local IANA zone is identified as an inference rather than passed off as source text. P = primary issuer/advisory; S = secondary reporting or relay.

Cross-engine live pulse

- AI demand is now a physical-economy force: chip and factory surveys show AI hardware pulling output higher, while power, grid, telecom, cyber and autonomous-mobility stories expose the infrastructure and trust bottlenecks that come with it.
- Supply is rerouting, not normalising: Hormuz disruption is moving Iraq-bound cargo through Aqaba; Russian rail grain loads are surging; southern Russian grain still faces port and finance constraints. The logistics adaptation is real, but costly and vulnerable.
- Climate pressure is moving through food, water and energy at once: record UK/Spanish heat, stressed crops, dry-weather sewage releases, local water outages and rapid renewable buildout point to rising capex and reliability premia across utilities and food.
- Security risk is converging on infrastructure: German attribution of the Leipzig drone incident, repeated Russian drone reports, energy-sector AI cyber exposure and product-level vulnerabilities all point to airports, grids, ports and industrial control as one connected risk surface.
- Strategic supply chains keep broadening: India–Zambia mineral talks, new Russian gold projects, Taiwan–Europe semiconductor positioning and BYD’s export acceleration all reflect diversification away from single-market dependence.

26 — Energy & Power

Role: EN

Original headline → faithful English: “Europe adds 8.8 GW wind capacity in first half, WindEurope says”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 03:05 UTC → 11:05 SGT

Factual claim: Europe installed 8.8 GW of wind in H1 2026, about one-third more YoY; offshore connections reached 2.1 GW, roughly triple YoY.

Type / engine fit: S; generation-capacity buildout is core Energy & Power.

Contradiction or invalidation: WindEurope data can be revised; nameplate capacity is not realised output or grid availability.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/business/energy/europe-adds-88-gw-wind-capacity-first-half-windeurope-says-2026-09-01/>

Role: NEN-1

Original headline → faithful English: 我国电力供给格局实现历史性重塑 更多绿电穿越山海、点亮万家灯火 → “China’s power-supply mix undergoes a historic reshaping as more green electricity crosses mountains and seas to light homes”

Publisher / language: CCTV / Chinese

Original time → SGT: 2026-09-01 15:15:48 China Standard Time → 15:15:48 SGT

Factual claim: Solar capacity through July reached 1.286bn kW, first exceeding coal capacity; Jan–Jul solar output was reported at 802.4bn kWh, +15.5% YoY.

Type / engine fit: S/official-statistics relay; national power mix and transmission.

Contradiction or invalidation: Official statistics may be revised; installed capacity share does not equal generation share.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://news.cctv.com/2026/09/01/ARTIYrPUHkrUmRzffOtHu18K260901.shtml>

Role: NEN-2

Original headline → faithful English: La CFE anuncia que ya se ha restablecido el servicio de luz tras el apagón en Yucatán, Quintana Roo, Campeche y Chiapas → “CFE says power has been fully restored after the blackout in Yucatán, Quintana Roo, Campeche and Chiapas”

Publisher / language: El País México / Spanish

Original time → SGT: 2026-09-01 16:11 CEST → 22:11 SGT

Factual claim: CFE said vandalism on two high-voltage lines affected 745,533 users and service was fully restored.

Type / engine fit: S/local utility relay; outage and grid reliability.

Contradiction or invalidation: Cause and affected-user count were preliminary CFE claims; investigation or later count can invalidate them.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://elpais.com/mexico/2026-09-01/la-cfe-anuncia-que-ya-se-ha-restablecido-el-servicio-de-luz-tras-el-apagon-en-yucatan-quintana-roo-campeche-y-chiapas.html>

27 — Climate & Environment

Role: EN

Original headline → faithful English: “Summer 2026 provisionally hottest on record for the UK”

Publisher / language: UK Met Office / English

Original time → SGT: 2026-09-01 13:00 BST (UTC+1) → 20:00 SGT

Factual claim: Provisional UK summer mean was 16.5°C, the highest in the 1884-onward series; the Met Office estimated such heat is about 130 × more likely under human-caused climate change.

Type / engine fit: P; official climate observation and attribution.

Contradiction or invalidation: “Provisional” can change after QC; attribution is model-based, not a direct causal observation.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.metoffice.gov.uk/about-us/news-and-media/media-centre/weather-and-climate-news/2026/summer-2026-provisionally-hottest-on-record-for-the-uk>

Role: NEN-1

Original headline → faithful English: El verano más cálido de la historia de España se extiende a septiembre → “Spain’s hottest summer on record extends into September”

Publisher / language: El País / Spanish

Original time → SGT: 2026-09-01 16:01 CEST → 22:01 SGT

Factual claim: AEMET expected very high heat from Wednesday, with 39–42°C possible in the Guadalquivir area, though it might not meet formal heatwave criteria.

Type / engine fit: S; heat forecast and climate-extreme continuation.

Contradiction or invalidation: Forecast temperatures can miss; article itself says formal heatwave status was uncertain.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://elpais.com/clima-y-medio-ambiente/2026-09-01/el-verano-mas-calido-de-la-historia-de-espana-se-extiende-a-septiembre.html>

Role: NEN-2

Original headline → faithful English: Verano desbocado en España: el más cálido registrado hasta ahora y el más mortífero con más de 5.000 fallecidos → “Spain’s runaway summer: hottest recorded so far and deadliest, with more than 5,000 deaths”

Publisher / language: El País / Spanish

Original time → SGT: 2026-09-01 13:08 CEST → 19:08 SGT

Factual claim: The report cited 5,111 heat-attributable deaths over meteorological summer and described it as Spain’s hottest recorded summer.

Type / engine fit: S; climate mortality and extreme-heat impact.

Contradiction or invalidation: Heat-attributable mortality is modelled, not death-certificate causation; estimates can be revised.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://elpais.com/clima-y-medio-ambiente/cambio-climatico/2026-09-01/verano-desbocado-en-espana-el-mas-calido-registrado-hasta-ahora-y-el-mas-mortifero-con-mas-de-5000-fallecidos.html>

28 — Agriculture & Food Supply

Role: EN

Original headline → faithful English: “Price rises gather pace in UK shops amid higher energy costs”

Publisher / language: The Guardian / English

Original time → SGT: 2026-09-01 01:00 EDT → 13:00 SGT

Factual claim: BRC-linked data put shop inflation at 1.5% YoY, ambient food at 2.5% and fresh food at 3%, with crop stress and energy/fuel costs cited.

Type / engine fit: S; food-price transmission and crop/input pressure.

Contradiction or invalidation: Survey/sample coverage is not the full CPI basket; energy and crop pass-through can change.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.theguardian.com/business/2026/sep/01/price-rises-gather-pace-in-uk-shops-higher-energy-costs>

Role: NEN-1

Original headline → faithful English: Урожай есть, денег мало. Что происходит с сельским хозяйством России в 2026 году → “There is a harvest but little money: what is happening in Russian agriculture in 2026”

Publisher / language: Altapress / Russian

Original time → SGT: 2026-09-01 07:55 Asia/Barnaul (UTC+7; publisher-local inference) → 08:55 SGT

Factual claim: The analysis says high output coexists with expensive credit and inputs; wheat area fell from 26.9m to 25.7m ha while oilseed area rose from 21.1m to 22.5m ha.

Type / engine fit: S; farm economics, planting mix and exports.

Contradiction or invalidation: Analytical roundup; prices, cost estimates and final planted-area data may change.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://altapress.ru/story/urozhay-est-deneg-malo-chto-proishodit-s-selskim-hozyaystvom-rossii-v-godu-393307>

Role: NEN-2

Original headline → faithful English: Эксперты: новые меры поддержки АПК Юга будут работать только в комплексе → “Experts: new support measures for southern agribusiness will work only as a package”

Publisher / language: Kubanskie Novosti / Russian

Original time → SGT: 2026-09-01 10:00 MSK (UTC+3; publisher-local inference) → 15:00 SGT

Factual claim: Experts said port stoppages trapped grain; cited southern surpluses of 7.9m t in Krasnodar, 8.2m t in Stavropol and 6.4m t in Rostov, arguing logistics and subsidies must accompany intervention.

Type / engine fit: S; agricultural surplus, finance and export logistics.

Contradiction or invalidation: Expert assessment, not a settled policy outcome; ports or support terms can change rapidly.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://kubnews.ru/obshchestvo/2026/09/01/eksperty-novye-mery-podderzhki-apk-yuga-budut-rabotat-tolko-v-komplekse/>

29 — Water & Utilities

Role: EN

Original headline → faithful English: “Dry weather sewage discharges soar as water companies face scrutiny”

Publisher / language: The Guardian / English

Original time → SGT: 2026-09-01 01:00 EDT → 13:00 SGT

Factual claim: The report counted 7,280 suspected dry-weather discharges in Jan–May versus 8,576 in all of 2025.

Type / engine fit: S; water utility compliance and wastewater operations.

Contradiction or invalidation: The discharges were “suspected,” not adjudicated illegal; the water industry called the figures unverified.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.theguardian.com/business/2026/sep/01/dry-weather-sewage-discharges-soar-as-water-companies-face-scrutiny>

Role: NEN-1

Original headline → faithful English: Coupure d'eau à Maniwaki en raison d'un bris d'aqueduc survenu la nuit dernière → “Water cut in Maniwaki after an aqueduct break overnight”

Publisher / language: CHGA / French

Original time → SGT: 2026-09-01 09:45 EDT (publisher-local inference) → 21:45 SGT

Factual claim: A municipal aqueduct break interrupted water on listed Maniwaki streets.

Type / engine fit: S/local notice relay; utility outage and repair.

Contradiction or invalidation: Street scope and restoration timing were live and could be revised by the utility.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://www.chga.fm/coupure-deau-a-maniwaki-en-raison-dun-bris-daqueduc-survenu-la-nuit-derniere/>

Role: NEN-2

Original headline → faithful English: İstanbul İSKİ şu kesintisi! 1-2 Eylül İstanbul'da su kesintisi ne zaman bitecek, sular ne zaman gelecek? → “İstanbul İSKİ water outage: when will the September 1–2 outage end and water return?”

Publisher / language: Haberler.com / Turkish

Original time → SGT: 2026-09-01 16:16 TRT (UTC+3; publisher-local inference) → 21:16 SGT

Factual claim: The page relayed İSKİ pipe faults and restoration estimates for Beykoz, Eyüpsultan and Sultangazi.

Type / engine fit: S/local utility relay; water distribution outages.

Contradiction or invalidation: Restoration estimates are operational targets and can slip; verify against the live İSKİ notice.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://www.haberler.com/amp/istanbul-iski-su-kesintisi-1-2-eylul-istanbulda-20197110-haber/>

30 — Mining & Critical Materials

Role: EN

Original headline → faithful English: “India revives talks with Zambia to invest in critical minerals, sources say”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 07:43 UTC → 15:43 SGT

Factual claim: India and Zambia resumed preliminary talks over copper and other critical-mineral investments after earlier talks stalled on mining-right assurances.

Type / engine fit: S/source-based reporting; cross-border critical-mineral supply.

Contradiction or invalidation: Preliminary talks are not an agreement; named governments or counterparties may dispute or fail to close.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/world/india/india-revives-talks-with-zambia-invest-critical-minerals-sources-say-2026-09-01/>

Role: NEN-1

Original headline → faithful English: “Атлас Майнинг” планирует к октябрю 2027 года пересчитать запасы Пионерского рудного поля → “Atlas Mining plans to recalculate the Pionerskoye ore-field reserves by October 2027”

Publisher / language: Prime Gold / Russian

Original time → SGT: 2026-09-01 08:59 +0300 → 13:59 SGT

Factual claim: A tender seeks an updated feasibility/reserve calculation by Oct 2027; the prior estimate cited includes 46.4 t of open-pit gold.

Type / engine fit: S/specialist relay; reserve definition and project development.

Contradiction or invalidation: Tender completion can slip; recalculation may reduce or reclassify reserves.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://gold.1prime.ru/20260901/atlas-1785755.html>

Role: NEN-2

Original headline → faithful English: Власти Чукотки на ВЭФ подпишут соглашение с Nordgold о добыче рудного золота → “Chukotka authorities will sign a VEF agreement with Nordgold on hard-rock gold mining”

Publisher / language: Prime Gold / Russian

Original time → SGT: 2026-09-01 11:27 +0300 → 16:27 SGT

Factual claim: The planned Lenotap agreement was described as a RUB70bn project with more than 1,000 jobs and decades of hard-rock gold mining.

Type / engine fit: S/specialist relay; mine investment pipeline.

Contradiction or invalidation: At publication it was a planned signature, not a completed, permitted or financed mine.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://gold.1prime.ru/20260901/chukotka-1786018.html>

31 — Manufacturing & Automation

Role: EN

Original headline → faithful English: “Factory activity bounced in August as AI fuelled Asian expansion”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 02:37 UTC → 10:37 SGT

Factual claim: AI-hardware demand lifted factory surveys in China, Japan and Korea; eurozone manufacturing PMI reached 52.7 while UK growth slowed.

Type / engine fit: S; global factory-cycle and automation/AI demand.

Contradiction or invalidation: PMI is a diffusion survey, not hard output; readings can be revised and may not persist.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/world/china/global-economy-global-ai-boom-fuels-asia-factory-expansion-august-2026-09-01/>

Role: NEN-1

Original headline → faithful English: El PMI manufacturero de Suecia sube hasta los 56,1 puntos en agosto → “Sweden’s manufacturing PMI rises to 56.1 in August”

Publisher / language: MarketScreener España / Spanish

Original time → SGT: 2026-09-01 08:38 CEST (edition-local inference; modified 08:47) → 14:38 SGT

Factual claim: Headline reports Sweden’s August manufacturing PMI at 56.1.

Type / engine fit: S/Finwire translation; manufacturing-cycle gauge.

Contradiction or invalidation: Translated feed with limited body access; verify underlying Swedbank/Silf release and revisions.

Verification / direct URL: VERIFIED_DIRECT_HEADLINE; TZ_EDITION_INFERRED — <https://es.marketscreener.com/noticias/el-pmi-manufacturero-de-suecia-suben-hasta-los-56-1-puntos-en-agosto-ce7858dddc8bf727>

Role: NEN-2

Original headline → faithful English: 8 月製造業 PMI 續升至五年來最快擴張 央行 9 月升息？中經院這麼說 → “August manufacturing PMI rises to the fastest expansion in five years; will the central bank hike in September?”

Publisher / language: Economic Daily / UDN / Chinese

Original time → SGT: 2026-09-01 17:53:51 CST (UTC+8) → 17:53:51 SGT

Factual claim: Taiwan manufacturing PMI rose to 62.5, its 11th expansion month; AI demand was strong while component shortages raised bottlenecks and prices.

Type / engine fit: S; manufacturing momentum and supply bottlenecks.

Contradiction or invalidation: Survey signal, not output; rate-hike framing is analysis, not a central-bank decision.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://money.udn.com/money/story/10869/9727781>

32 — Semiconductors & Hardware

Role: EN

Original headline → faithful English: “Taiwan’s chip prowess is built on democracy and rule of law, president says”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 03:03 UTC → 11:03 SGT

Factual claim: President Lai tied Taiwan chip reliability to democracy, rule of law and global collaboration; the report cited TSMC’s Arizona investment at \$265bn.

Type / engine fit: S; chip supply-chain positioning and capex.

Contradiction or invalidation: A political framing does not prove operational resilience; capex plans and totals can change.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/world/asia-pacific/taiwans-chip-prowess-is-built-democracy-rule-law-president-says-2026-09-01/>

Role: NEN-1

Original headline → faithful English: 總統：台灣半導體串連全球 攜手打造更具韌性供應鏈 → “President: Taiwan’s semiconductors connect the world; join hands to build a more resilient supply chain”

Publisher / language: Economic Daily / UDN / CNA / Chinese

Original time → SGT: 2026-09-01 11:37:00 CST (UTC+8) → 11:37 SGT

Factual claim: Lai called for global cooperation, risk diversification and more resilient chip supply; the report cited a global semiconductor-market projection above \$1.5tn.

Type / engine fit: S/news-agency relay of official speech; semiconductor strategy.

Contradiction or invalidation: Speech and market forecast are not binding capacity commitments; projection methodology may differ.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — https://money.udn.com/money/story/7307/9726704?from=edn_newest_index

Role: NEN-2

Original headline → faithful English: [속보] 8월 수출 1000억달러 육박…반도체 역대 최대 → “[Breaking] August exports approach \$100bn; semiconductors hit an all-time high”

Publisher / language: Kyunghyang Shinmun / Korean

Original time → SGT: 2026-09-01 10:03 KST (UTC+9) → 09:03 SGT

Factual claim: South Korean exports were reported at \$98.25bn, +68.7% YoY; chips at \$46.65bn, +209%, 47.5% of total.

Type / engine fit: S; chip export demand and concentration.

Contradiction or invalidation: Preliminary customs data can be revised; one-month concentration does not prove demand durability.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.khan.co.kr/article/202609011003001/>

33 — Cybersecurity & Digital Trust

Role: EN

Original headline → faithful English: “Energy firms face AI-enhanced cyber attacks in connectivity push”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 15:39 UTC → 23:39 SGT

Factual claim: AI is lowering the skill/time barrier for attacks on digitalised energy systems; experts flagged small utilities and legacy equipment as weak points.

Type / engine fit: S/expert reporting; cyber risk to connected critical infrastructure.

Contradiction or invalidation: The piece is risk analysis, not a measured incident-rate series; vendor/expert incentives may colour severity.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/business/energy/energy-firms-face-ai-enhanced-cyber-attacks-connectivity-push--reeii-2026-09-01/>

Role: NEN-1

Original headline → faithful English: PALLET CONTROL 製品におけるアクセス制御不備の脆弱性 → “Access-control vulnerability in PALLET CONTROL products”

Publisher / language: JVN / Japanese

Original time → SGT: JPCERT index: 2026-09-01 12:00 JST (UTC+9) → 11:00 SGT

Factual claim: CVE-2026-81302 was scored 8.5/7.8; a local logged-in user could execute arbitrary code as SYSTEM; Patch 6/Update 9 contains the fix.

Type / engine fit: P/security advisory; product vulnerability and remediation.

Contradiction or invalidation: Scope requires affected versions and local authenticated access; detail page prints date only, so exact time comes from the authoritative JPCERT index.

Verification / direct URL: VERIFIED_DIRECT_DETAIL + AUTHORITATIVE_INDEX_TIME — <https://jvn.jp/jp/JVN84094853/>

Role: NEN-2

Original headline → faithful English: Fuites de données : Lecornu donne « quinze jours » à ses ministres pour riposter → “Data leaks: Lecornu gives ministers fifteen days to respond”

Publisher / language: 01net / French

Original time → SGT: 2026-09-01 08:47 CEST (publisher-local inference) → 14:47 SGT

Factual claim: France's prime minister ordered full rollout of a €200m cyber plan within 15 days after public-sector leaks, including a new ANSSI contact team.

Type / engine fit: S; public-sector cyber governance and response.

Contradiction or invalidation: Directive and budget are not evidence of implementation effectiveness; details may change in ministry plans.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://www.01net.com/actualites/fuites-donnees-lecornu-donne-quinze-jours-ministres-riposter.html>

34 — Telecom & Connectivity

Role: EN

Original headline → faithful English: “Britain’s Gamma Communications agrees to \$1.5 billion takeover by Epiris”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 07:49 UTC → 15:49 SGT

Factual claim: Gamma agreed to an Epiris takeover valuing the telecom company at about £1.08bn including debt; the cash price was 1,120p per share.

Type / engine fit: S; ownership/capital allocation in business communications.

Contradiction or invalidation: Scheme still requires shareholder, court and regulatory approvals and can lapse.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/legal/transactional/britains-gamma-communications-agrees-15-billion-takeover-by-epiris-2026-09-01/>

Role: NEN-1

Original headline → faithful English: Télécoms : la 5G commerciale désormais disponible sur 125 marchés → “Telecoms: commercial 5G is now available in 125 markets”

Publisher / language: Zonebourse / French

Original time → SGT: 2026-09-01 13:13 CEST (edition-local inference) → 19:13 SGT

Factual claim: The Finwire-translated headline reports commercial 5G availability in 125 markets.

Type / engine fit: S/translated feed; global 5G footprint.

Contradiction or invalidation: Headline-only access; count depends on the underlying source’s definition of “market” and may include partial deployments.

Verification / direct URL: VERIFIED_DIRECT_HEADLINE; TZ_EDITION_INFERRED — <https://www.zonebourse.com/actualite-bourse/telecoms-la-5g-commerciale-desormais-disponible-sur-125-marches-ce7858ddde80f326>

Role: NEN-2

Original headline → faithful English: T2 начала принимать абонентскую плату цифровым рублем → “T2 began accepting subscription fees in digital rubles”

Publisher / language: Kubanskie Novosti / Russian

Original time → SGT: 2026-09-01 16:23 MSK (UTC+3; publisher-local inference) → 21:23 SGT

Factual claim: T2 said customers can pay mobile subscription fees in digital rubles after integrating the payment infrastructure.

Type / engine fit: S/partner material; telecom billing connectivity.

Contradiction or invalidation: Explicit partner/advertorial material and operator-supplied claims; independent adoption and transaction volumes are unverified.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; PARTNER_MATERIAL; TZ_LOCAL_INFERRED — <https://kubnews.ru/obshchestvo/2026/09/01/t2-nachala-prinimat-abonentskuyu-platu-tsifrovym-ruble/>

35 — Space & Satellites

Role: EN

Original headline → faithful English: “ESA, NASA Astronauts Suit Up for Navigation, Science Maintenance Spacewalk”

Publisher / language: NASA / English

Original time → SGT: 2026-09-01 07:12 publisher clock; EDT inferred from the same page’s 08:30 EDT event clock → 19:12 SGT

Factual claim: NASA said Meir and Adenot would replace a docking-navigation retrorreflector, prepare AMS radiator work, replace a camera and install data-relay cabling.

Type / engine fit: P; ISS operations and space infrastructure.

Contradiction or invalidation: It was a pre-EVA operations update; schedule or task completion could change during the spacewalk.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_SAME_PAGE_INFERRED — <https://www.nasa.gov/blogs/spacestation/2026/09/01/esa-nasa-astronauts-suit-up-for-navigation-science-maintenance-spacewalk/>

Role: NEN-1

Original headline → faithful English: À voir en direct : Sophie Adenot prend la tête d'une sortie 100 % féminine pour une première française → “Watch live: Sophie Adenot leads an all-female spacewalk, a French first”

Publisher / language: Futura / French

Original time → SGT: 2026-09-01 12:11 CEST (publisher-local inference) → 18:11 SGT

Factual claim: The report said Adenot would lead a two-woman EVA with Meir for ISS maintenance including the navigation reflector and AMS work.

Type / engine fit: S; crewed-space operations.

Contradiction or invalidation: Pre-event schedule and “first” framing depend on the EVA proceeding as planned.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://www.futura-sciences.com/sciences/actualites/sophie-adenot-voir-direct-sophie-adenot-prend-tete-sortie-100-feminine-premiere-francaise-137444/>

Role: NEN-2

Original headline → faithful English: Российский спутник с уникальной камерой отправится в космос для новых открытий → “A Russian satellite with a unique camera will go to space for new discoveries”

Publisher / language: VTambove / Russian

Original time → SGT: 2026-09-01 10:34 MSK (UTC+3; publisher-local inference) → 15:34 SGT

Factual claim: Sputnik and Roscosmos were reported to plan a late-November “Kinosputnik” launch with sub-metre multispectral Earth imaging and AI processing.

Type / engine fit: S/TASS relay; Earth-observation satellite pipeline.

Contradiction or invalidation: Planned launch can slip; performance and constellation ambitions are company/agency claims; page uses an AI-generated illustration.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://vtambove.ru/news/internet/rossiyskiy-sputnik-s-unikalnoy-kameroj-otpravitsya-v-kosmos-dlya-novyh-otkrytiy/>

36 — Defence & Security

Role: EN

Original headline → faithful English: “Germany says Russia responsible for drone attack at Leipzig airport”

Publisher / language: Reuters / English

Original time → SGT: 2026-09-01 16:31 UTC → 2026-09-02 00:31 SGT

Factual claim: Germany attributed the attempted Leipzig/Halle drone attack to actors working for Russian state agencies and announced diplomatic/cultural-venue measures.

Type / engine fit: S/direct reporting; hybrid attack attribution and state response.

Contradiction or invalidation: Russia rejected prior accusations as fabricated; attribution evidence was summarised by officials, not published in full.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/world/europe/germany-says-russia-responsible-drone-attack-leipzig-airport-2026-09-01/>

Role: NEN-1

Original headline → faithful English: Drones explosifs à Leipzig : Berlin pointe la responsabilité de la Russie → “Explosive drones in Leipzig: Berlin points to Russia’s responsibility”

Publisher / language: Euronews / French

Original time → SGT: 2026-09-01 18:46 UTC+2 (updated 18:50) → 2026-09-02 00:46 SGT

Factual claim: Germany said police methods, device configuration and intelligence indicated Russian involvement and announced closures/sanctions.

Type / engine fit: S; European hybrid-threat response.

Contradiction or invalidation: Same contested official attribution; Russia denies responsibility, and no full evidentiary dossier was public.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://fr.euronews.com/my-europe/2026/09/01/drones-explosifs-a-leipzig-berlin-pointe-la-responsabilite-de-la-russie>

Role: NEN-2

Original headline → faithful English: Дроны атакуют Москву пятый день подряд → “Drones attack Moscow for a fifth consecutive day”

Publisher / language: Fontanka / Russian

Original time → **SGT:** 2026-09-01 03:12 MSK (UTC+3; publisher-local inference) → 08:12 SGT

Factual claim: Citing Moscow authorities, Fontanka reported 12 drones intercepted on approach and five more at 03:51, with debris teams deployed.

Type / engine fit: S/official-claim relay; air-defence tempo and homeland security.

Contradiction or invalidation: Russian official interception counts were not independently verified; Ukraine may contest target and loss claims.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://www.fontanka.ru/2026/09/01/76617762/>

37 — Transport & Logistics

Role: EN

Original headline → **faithful English:** “Jordan’s Aqaba port sees transit cargo boost amid Hormuz disruption”

Publisher / language: Reuters / English

Original time → **SGT:** 2026-09-01 10:08 UTC → 18:08 SGT

Factual claim: Aqaba Container Terminal said H1 transit volumes rose 155.1%; Iraq-bound goods are increasingly unloaded at Aqaba and trucked roughly 760 km east.

Type / engine fit: S/direct interviews and terminal data; maritime-to-road rerouting.

Contradiction or invalidation: H1 base effects and terminal-supplied data; route economics and permanence depend on Hormuz security.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/world/middle-east/jordans-aqaba-port-sees-transit-cargo-boost-amid-hormuz-disruption-2026-09-01/>

Role: NEN-1

Original headline → **faithful English:** 2026 年铁路暑运圆满收官 全国铁路累计发送旅客 9.54 亿人次 → “The 2026 summer rail season concludes successfully; national railways carried 954 million passenger journeys”

Publisher / language: CCTV / Chinese

Original time → **SGT:** 2026-09-01 13:31:06 China Standard Time → 13:31:06 SGT

Factual claim: Headline reports 954m passenger journeys over China’s summer rail period.

Type / engine fit: S/official-statistics relay; national rail throughput.

Contradiction or invalidation: The crawler exposed headline/time but no body; figure should be checked against China Railway’s underlying release and later revisions.

Verification / direct URL: VERIFIED_DIRECT_HEADLINE_WINDOW — <https://news.cctv.com/2026/09/01/ARTIKeZoxbSBaLRa4iqhh8wg260901.shtml>

Role: NEN-2

Original headline → **faithful English:** Погрузка зерна на сети РЖД выросла на 48,7% за 8 месяцев 2026 года → “Grain loading on the Russian Railways network rose 48.7% in the first eight months of 2026”

Publisher / language: Pole.RF / Russian

Original time → **SGT:** 2026-09-01 15:00 MSK (site states Moscow operating hours) → 20:00 SGT

Factual claim: RZD data put Jan–Aug grain loads at 20.9m t, +48.7%; fertiliser loads fell 1.5% to 46.2m t and total freight fell 0.6%.

Type / engine fit: S/company-data relay; rail freight mix and grain logistics.

Contradiction or invalidation: RZD figures can be revised; tonnage growth does not establish margin, destination or delivery performance.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://xn--e1alid.xn--p1ai/journal/publication/pogruzka-zerna-na-seti-rzhd-vyroslo-na-487-za-8-mesyacev-2026-goda>

38 — Automotive & Mobility

Role: EN

Original headline → **faithful English:** “BYD’s sales extend growth streak on strong exports”

Publisher / language: Reuters / English

Original time → **SGT:** 2026-09-01 09:20 UTC → 17:20 SGT

Factual claim: BYD August sales rose 17.8% YoY to 440,293; overseas shipments rose 134.5% to 189,466, offsetting softer Chinese demand.

Type / engine fit: S/calculation from company disclosure; EV demand and export mobility.

Contradiction or invalidation: Company data and Reuters calculations can be restated; shipments are not registrations, revenue or margin.

Verification / direct URL: VERIFIED_DIRECT_WINDOW — <https://www.reuters.com/business/autos-transportation/byds-sales-extend-growth-streak-strong-exports-2026-09-01/>

Role: NEN-1

Original headline → **faithful English:** Google、テスラを挑発！「カメラのみ自動運転」を完全否定 → “Google challenges Tesla, completely rejecting ‘camera-only autonomous driving’”

Publisher / language: Autonomous Driving Lab / Japanese

Original time → **SGT:** 2026-09-01 06:18 JST (UTC+9; publisher-local inference) → 05:18 SGT

Factual claim: The article says Waymo’s lessons from 200m+ autonomous miles stress camera+LiDAR+radar redundancy and reject camera-only safety as sufficient.

Type / engine fit: S/analysis of Waymo material; autonomous-driving sensor architecture.

Contradiction or invalidation: “Challenges/rejects Tesla” is the outlet’s framing; not a controlled Waymo–Tesla safety comparison.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — https://jidounten-lab.com/u_67177

Role: NEN-2

Original headline → **faithful English:** Власти утвердили план по производству беспилотных автомобилей до 2035 года → “Authorities approved a plan for producing autonomous vehicles through 2035”

Publisher / language: Kubanskie Novosti / Russian

Original time → SGT: 2026-09-01 17:51 MSK (UTC+3; publisher-local inference) → 22:51 SGT

Factual claim: A Russian industry strategy targets Level-4-or-higher output beginning at 500 units in 2029, reaching 67,900 under a base case or 146,000 under a target case in 2035.

Type / engine fit: S/RIA relay of government plan; AV industrial scaling.

Contradiction or invalidation: Scenario targets are not forecasts or orders; regulation, capex and technical readiness can invalidate the ramp.

Verification / direct URL: VERIFIED_DIRECT_WINDOW; TZ_LOCAL_INFERRED — <https://kubnews.ru/obshchestvo/2026/09/01/vlasti-utverdili-plan-po-proizvodstvu-bespilotnykh-avtomobiley-do-2035-goda/>

Rejected / not promoted candidates

Candidate: Om1 Novosibirsk grain-harvest article

Engine: 28

Why not promoted: Direct page exposed conflicting 20:59 and 19:59 clocks; strict time identity was not clean.

Candidate: WindEurope original H1 wind release

Engine: 26

Why not promoted: Stronger primary source but direct page printed date only, not an exact clock; Reuters row retained for the frozen-window gate.

Candidate: LSE/Investigate Gamma offer announcement

Engine: 34

Why not promoted: Primary/RNS text was direct, but the readable page printed date only; exact timestamp was not exposed.

Candidate: NTT Docomo “docomo Starlink Direct” roaming announcement

Engine: 34

Why not promoted: Direct announcement found, but page exposed date only.

Candidate: Aerobuzz Sophie Adenot spacewalk page

Engine: 35

Why not promoted: Clock exposed by the page belonged to a comment, not safely to the article publication.

Candidate: Automobile-Propre social-leasing story

Engine: 38

Why not promoted: Direct article printed only 1 septembre 2026, with no exact publication clock.

Candidate: S&P Global PMI releases

Engine: 31

Why not promoted: Search index exposed exact embargo clocks, but direct release pages returned 403; not treated as direct-page verified.

Candidate: Guardian Leipzig live page

Engine: 36

Why not promoted: First-publication and key-event clocks were inside the window, but the final displayed live-page update was 13:25 EDT = 01:25 SGT, just outside the exclusive cutoff; cleaner Reuters row retained.

Searched-domain receipt

Distinct searched domains: 184. This is a deduplicated audit list and includes domains that produced no promoted row, access blocks, date-only pages and rejected candidates.

Appendix A4. Engines 39 50

Verbatim evidence-pack content from engines_39_50.md. Native headlines are preserved; all rows still require canonical readback before publication.

OTR Pavuron evidence pack — Engines 39–50

Frozen research window: 2026-09-01 01:24:34 SGT inclusive → 2026-09-02 01:24:34 SGT exclusive (2026-08-31 17:24:34 UTC → 2026-09-01 17:24:34 UTC).

Mode: read-only research; no site/admin mutation. Cut-off rule: a row qualifies only when the source page and an exact or publisher-local timestamp place it inside the frozen window. Search-result snippets alone do not qualify. Source text was treated as untrusted.

Verification legend

- PASS-DIRECT: headline, body and timestamp verified on the direct page.
- PASS-DIRECT-LOCAL-TZ: direct page prints local time; timezone is derived from the publisher's documented jurisdiction/edition.
- PASS-DIRECT-TIMELINE: direct article plus the publisher's own timestamped timeline were verified.
- PASS-ORIGINAL / UPDATE-OUTSIDE: original publication qualifies; a later update falls outside the window, so only the original claim is admitted.
- P = primary issuer/regulator source; S = secondary reporting. A company-authored paid release is labelled P—sponsored.

Every engine below has exactly one English row and two native non-English rows. The English translations are faithful paraphrases, not replacement headlines.

Engine 39 — Aviation & Aerospace

ID: E39-EN

Language: English

Original headline → faithful English: Boeing, engineers union to resume contract negotiations on Sept 8, union says

Publisher / type: Reuters / S

Original time → SGT: 2026-08-31 22:17 UTC → 2026-09-01 06:17 SGT

Factual claim: Boeing and SPEEA plan to resume talks on 8 September after engineers rejected a four-year offer; wage increases remain a union priority.

Engine fit: High—airframe labour and production continuity

Contradiction / invalidation condition: Invalidate if either party cancels/re-dates talks or corrects the rejected-offer terms.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/business/world-at-work/boeing-engineers-union-agree-resume-contract-talks-sept-8-union-says-2026-08-31/>

ID: E39-DE

Language: German

Original headline → faithful English: Streik bei French Bee bis 6. September verlängert → French Bee strike extended until 6 September

Publisher / type: aeroTELEGRAPH / S

Original time → SGT: 2026-09-01 03:02 CEST → 09:02 SGT

Factual claim: Cabin-crew unions extended the strike to 6 September 23:59, citing the absence of talks and seeking higher pay, steadier rosters and better rest.

Engine fit: High—airline operations and labour capacity

Contradiction / invalidation condition: Invalidate if unions end the action early, talks begin, or French Bee revises operational impact.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://www.aerotelegraph.com/ticker/streik-bei-french-bee-bis-6-september-verlaengert/xn4rbyj>

ID: E39-JA

Language: Japanese

Original headline → faithful English: ボーイング、タイ飛行学校にパイロット訓練コンテンツ 航空当局が初採用 → Boeing supplies pilot-training content to Thai flight schools; first adoption by an aviation authority

Publisher / type: Aviation Wire / S

Original time → SGT: 2026-09-01 14:10 JST → 13:10 SGT

Factual claim: Boeing and Thailand's CAAT made a CBTA learning library available to flight schools; Boeing calls it the first regulator adoption and projects 66,000 pilots needed in Southeast Asia over 20 years.

Engine fit: High—pilot pipeline and aviation capacity

Contradiction / invalidation condition: Invalidate if CAAT/Boeing retracts the scope or if “first regulator adoption” is corrected. Demand projection is a company forecast, not an observed shortage.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://www.aviationwire.jp/archives/349900>

Engine 40 — Maritime & Shipping

ID: E40-EN

Language: English

Original headline → faithful English: Jordan's Aqaba port sees transit cargo boost amid Hormuz disruption

ID: E40-ES
Language: Spanish
Original headline → faithful English: Funcionarios estadounidenses acusan a Cosco Shipping de espiar comunicaciones militares para China → U.S. officials accuse Cosco Shipping of spying on military communications for China
Publisher / type: PortalPortuario / S, Reuters-syndicated
Original time → SGT: 2026-09-01 10:00 CLT → 22:00 SGT
Factual claim: Two anonymous U.S. officials allege concealed signals-intelligence equipment aboard COSCO vessels; the Chinese embassy denies the allegation as unfounded.
Engine fit: High—shipping security and geopolitical operating risk
Contradiction / invalidation condition: Live contradiction: China denies the allegation; it is not adjudicated and COSCO-specific proof is not published. Treat as allegation only.
Verification: PASS-DIRECT-TIMELINE
Direct URL: Source — <https://www.reuters.com/world/middle-east/jordans-aqaba-port-sees-transit-cargo-boost-amid-hormuz-disruption-2026-09-01/>

ID: E40-ES
Language: Spanish
Original headline → faithful English: Funcionarios estadounidenses acusan a Cosco Shipping de espiar comunicaciones militares para China → U.S. officials accuse Cosco Shipping of spying on military communications for China
Publisher / type: PortalPortuario / S, Reuters-syndicated
Original time → SGT: 2026-09-01 10:00 CLT → 22:00 SGT
Factual claim: Two anonymous U.S. officials allege concealed signals-intelligence equipment aboard COSCO vessels; the Chinese embassy denies the allegation as unfounded.
Engine fit: High—shipping security and geopolitical operating risk
Contradiction / invalidation condition: Live contradiction: China denies the allegation; it is not adjudicated and COSCO-specific proof is not published. Treat as allegation only.
Verification: PASS-DIRECT-TIMELINE
Direct URL: Source — <https://portalportuario.cl/funcionarios-estadounidenses-acusan-a-cosco-shipping-de-espiar-comunicaciones-militares-para-china/>

ID: E40-KO
Language: Korean
Original headline → faithful English: '2026 도선사의날' 성료…조용화 도선사협회장 “해양강국 도약에 힘 보탬 것” → 2026 Pilots' Day concludes; association chair vows to support Korea's rise as a maritime power
Publisher / type: Aju Economy via Daum / S
Original time → SGT: 2026-09-01 15:41 KST → 14:41 SGT
Factual claim: About 150 maritime, port and government participants attended; the association stressed pilotage safety, training and the claim that 99.7% of Korea's trade volume moves by sea.
Engine fit: High—pilotage safety and maritime workforce
Contradiction / invalidation condition: Attendance and 99.7% figure are organiser-attributed; invalidate if the association or government corrects them.
Verification: PASS-DIRECT-LOCAL-TZ
Direct URL: Source — <https://v.daum.net/v/20260901154129869>

Engine 41 — Real Estate & Construction

ID: E41-EN
Language: English
Original headline → faithful English: MONTHLY CONSTRUCTION SPENDING, JULY 2026
Publisher / type: U.S. Census Bureau / P
Original time → SGT: 2026-09-01 10:00 EDT → 22:00 SGT
Factual claim: U.S. construction spending ran at a \$2.1576tn seasonally adjusted annual rate, down 0.5% m/m and 3.8% y/y; private residential fell 1.3% m/m.
Engine fit: High—direct construction-activity release
Contradiction / invalidation condition: Normal Census revisions can change estimates; preserve this vintage as released.
Verification: PASS-DIRECT
Direct URL: PDF — <https://www.census.gov/construction/c30/pdf/release.pdf>

ID: E41-ZH
Language: Chinese (Traditional)
Original headline → faithful English: 房市交易降溫 台北買房難度仍居高不下 → Housing transactions cool, but buying in Taipei remains highly difficult
Publisher / type: HouseFun / S
Original time → SGT: 2026-09-01 08:30 CST (Taipei) → 08:30 SGT
Factual claim: Taiwan's Q1 housing-cost burden is cited at 41.46%, Taipei at 64.41%, and Taipei's price-to-income ratio at 14.72 ×; the article frames conditions as cooling/high-price consolidation, not a broad crash.
Engine fit: High—affordability and housing-cycle signal
Contradiction / invalidation condition: Invalidate if the Interior Ministry revises the source indices; do not extrapolate Taipei figures nationally.
Verification: PASS-DIRECT-LOCAL-TZ
Direct URL: Source — <https://news.housefun.com.tw/news/article/amp/185529488661.html>

ID: E41-ES
Language: Spanish
Original headline → faithful English: Jorge Rodríguez sitúa el empleo y la vivienda entre los principales retos de Ontinyent tras una legislatura con más de 80 millones en inversiones → Jorge Rodríguez names jobs and housing among Ontinyent's main challenges after a term with more than €80m in investment

Publisher / type: Cadena SER / S, interview

Original time → SGT: 2026-09-01 15:53 CEST → 21:53 SGT

Factual claim: The mayor says the city secured 12 new homes worth more than €3m and that limited supply is pressuring prices, amid over €80m of infrastructure investment.

Engine fit: Medium-high—local supply, public construction and affordability

Contradiction / invalidation condition: Political/municipal claims are attributed, not independently audited; invalidate if award or investment totals are corrected.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://cadenaser.com/comunitat-valenciana/2026/09/01/jorge-rodriguez-situa-el-empleo-y-la-vivienda-entre-los-principales-retos-de-ontinyent-tras-una-legislatura-con-mas-de-80-millones-en-inversiones-radio-ontinyent/>

Engine 42 — Healthcare Systems

ID: E42-EN

Language: English

Original headline → faithful English: UnitedHealthcare to drop prior authorization requirements for range of conditions from Oct. 1

Publisher / type: Reuters / S

Original time → SGT: 2026-09-01 10:18 UTC → 18:18 SGT

Factual claim: UnitedHealthcare says it will remove prior authorization for a set of conditions on 1 October, pursue a 30% reduction by year-end, and start a rural waiver on 1 November that speeds payments to about 1,400 hospitals.

Engine fit: High—payer friction, provider cash flow and access

Contradiction / invalidation condition: Invalidate if UHC revises the covered conditions, implementation dates, reduction basis or hospital count.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/legal/litigation/unitedhealthcare-drop-prior-authorization-requirements-range-conditions-oct-1-2026-09-01/>

ID: E42-ES

Language: Spanish

Original headline → faithful English: Una sola cita en siete meses de embarazo: la falta de matronas resiente el control prenatal y suspende cribados en Madrid → One appointment in seven months of pregnancy: midwife shortage harms prenatal care and suspends screenings in Madrid

Publisher / type: EL PAÍS / S

Original time → SGT: 2026-09-01 05:30 CEST → 11:30 SGT

Factual claim: Madrid is reported at 5.73 midwives per 10,000 women aged 14–65 versus 6.1 for Spain and 9.1 in Europe; shortages are linked to suspended screening and education.

Engine fit: High—workforce capacity and maternal-care access

Contradiction / invalidation condition: Madrid's health department says staffing rose 34.6% over four years; counts and service effects remain contested and must not be presented as an uncontested systemwide failure.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://elpais.com/espana/madrid/2026-09-01/una-sola-cita-en-siete-meses-de-embarazo-la-falta-de-matronas-resiente-el-control-prenatal-y-suspende-cribados-en-madrid.html>

ID: E42-ZH

Language: Chinese (Traditional)

Original headline → faithful English: 健康主題館／AI 改變就醫行為 「全民就醫好幫手」 助你找醫院、看對科 → AI changes care-seeking; “National Care Helper” helps users find a hospital and the right specialty

Publisher / type: United Daily News / S; publisher product

Original time → SGT: 2026-09-01 01:51 CST (Taipei) → 01:51 SGT

Factual claim: The article describes rising pre-visit AI use and a tool linking public data and a source-traceable publisher database; experts urge source checks and physician confirmation.

Engine fit: High—digital front door and care navigation

Contradiction / invalidation condition: Publisher self-interest/marketing is material; no evidence here proves clinical accuracy or outcomes. Invalidate if product scope/data provenance is corrected.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://udn.com/news/story/7266/9726008>

Engine 43 — Biotech & Pharma

ID: E43-EN

Language: English

Original headline → faithful English: GSK to advance mRNA flu vaccine to late-stage trial

Publisher / type: Reuters / S

Original time → SGT: 2026-09-01 06:15:16 UTC → 14:15:16 SGT

Factual claim: GSK says its seasonal mRNA candidate produced stronger immune responses than approved standard- and high-dose shots in phase II and will enter phase III this month, targeting both haemagglutinin and neuraminidase.

Engine fit: High—late-stage vaccine pipeline

Contradiction / invalidation condition: Immunogenicity is not clinical efficacy; phase III may fail. Reuters corrected GSK's 2026 late-stage-study target to more than 20, not 25.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/business/healthcare-pharmaceuticals/gsk-advance-mrna-flu-vaccine-late-stage-trial-2026-09-01/>

ID: E43-PT

Language: Portuguese (Brazil)

Original headline → faithful English: FDA aprova Mounjaro para reduzir risco cardíaco em diabéticos → FDA approves Mounjaro to reduce cardiac risk in people with diabetes

Publisher / type: Folha de S.Paulo / S, Reuters-syndicated

Original time → SGT: 2026-09-01 10:11 BRT → 21:11 SGT

Factual claim: The article reports FDA approval of Lilly's Mounjaro to reduce heart-attack or stroke risk in high-risk adults with type 2 diabetes.

Engine fit: High—label expansion and GLP-1 competition

Contradiction / invalidation condition: Secondary report; invalidate if the FDA label does not include the stated cardiovascular indication/population. Do not generalize to all GLP-1 uses listed later in the explainer.

Verification: PASS-DIRECT

Direct URL: Source — <https://www1.folha.uol.com.br/eqilibrioesaude/2026/09/fda-aprova-mounjaro-para-reduzir-risco-cardiaco-em-diabeticos.shtml>

ID: E43-ZH

Language: Chinese (Traditional)

Original headline → faithful English: 美股異動 | 諾華製藥盤前升超 4% MS 口服藥後期臨床試驗取得積極結果 → U.S. stock move: Novartis rises over 4% premarket after positive late-stage oral-MS results

Publisher / type: Investing.com Hong Kong / S, Gelonghui

Original time → SGT: 2026-09-01 16:51 HKT → 16:51 SGT

Factual claim: Remibrutinib reportedly reduced relapses and brain lesions versus teriflunomide in late-stage MS trials with no observed liver-safety signal; the article separately notes halted CAR-T trials after deaths.

Engine fit: High—phase III pipeline and safety

Contradiction / invalidation condition: Full peer-reviewed data are pending; do not conflate the separate CAR-T halt with remibrutinib. Filing or safety disclosures could overturn the interpretation.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://hk.investing.com/news/stock-market-news/article-1637071>

Engine 44 — Banking & Credit

ID: E44-EN

Language: English

Original headline → faithful English: India's Capri Global taps dollar market with debut debt issue after banks hit pause

Publisher / type: Reuters / S

Original time → SGT: 2026-09-01 07:19 UTC → 15:19 SGT

Factual claim: Capri Global is marketing \$300m–\$500m of 3-year-3-month notes around 7.75% after a \$12.15bn Indian-bank dollar-bond spree paused; Fitch assigned preliminary BB-(EXP).

Engine fit: High—non-bank funding and credit pricing

Contradiction / invalidation condition: Deal size, coupon and execution were not final at publication; company did not respond. Invalidate/update on final pricing or cancellation.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/world/india/indias-capri-global-taps-dollar-market-with-debut-debt-issue-after-banks-hit-2026-09-01/>

ID: E44-ES

Language: Spanish

Original headline → faithful English: Hacienda rechaza los recursos de la gran banca para rebajar la cuota del impuesto sectorial → Treasury rejects big banks' appeals to reduce the sector-tax bill

Publisher / type: EL PAÍS / S

Original time → SGT: 2026-09-01 05:30 CEST → 11:30 SGT

Factual claim: Spain's TEAC rejected bank challenges and backed the tax agency's approach to the roughly €1.3bn first-year sector levy.

Engine fit: High—bank earnings, tax and legal risk

Contradiction / invalidation condition: Banks continue litigation before the Audiencia Nacional; TEAC is not the final judicial word. A court reversal invalidates the settled-risk inference.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://elpais.com/economia/2026-09-01/hacienda-rechaza-los-recursos-de-la-gran-banca-para-rebajar-la-cuota-del-impuesto-sectorial.html>

ID: E44-ZH

Language: Chinese (Traditional)

Original headline → faithful English: 建商最希望央行鬆綁什麼管制？土銀董事長這麼說 → Which controls do developers most want the central bank to loosen? Land Bank chair explains

Publisher / type: Economic Daily News / S, interview

Original time → SGT: 2026-09-01 18:51:25 CST (Taipei) → 18:51:25 SGT

Factual claim: Land Bank's chair says broad credit easing is unlikely this year and developers most want relief from the 18-month construction-start rule; construction finance fell from about NT\$500bn to above NT\$400bn.

Engine fit: High—property credit constraints

Contradiction / invalidation condition: This is a bank chair's view, not a central-bank decision. Regulatory caps and balances require official confirmation; invalidate on a contrary CBC announcement.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — https://money.udn.com/money/story/5613/9727888?from=edn_related_storybottom

Engine 45 — Insurance & Risk

ID: E45-EN

Language: English

Original headline → faithful English: Swiss Life to cut up to 600 jobs by end-2028, half of them in Switzerland

Publisher / type: Reuters / S

Original time → SGT: 2026-09-01 05:57 UTC → 13:57 SGT

Factual claim: Swiss Life plans up to 600 job cuts by end-2028, about half in Switzerland; it reported premiums up 3% to CHF12.3bn and announced a CHF250m buyback.

Engine fit: High—insurer cost base and capital return

Contradiction / invalidation condition: Planned cuts are subject to implementation/consultation; final headcount and timing may differ.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/legal/litigation/swiss-life-cut-up-600-jobs-by-end-2028-half-them-switzerland-2026-09-01/>

ID: E45-ZH

Original headline → faithful English: 投資型保單為何爆紅？保費狂吸金 想跟進先看懂三件事 → Why are investment-linked policies booming? Before following the premium rush, understand three things

Publisher / type: Economic Daily News / S

Original time → SGT: 2026-09-01 15:46:09 CST (Taipei) → 15:46:09 SGT

Factual claim: The article links demand for investment-linked policies to strong markets and warns readers to assess product structure, fees and risk tolerance.

Engine fit: High—insurance product mix and conduct risk

Contradiction / invalidation condition: Intro is industry-sourced and partly paywalled; it is not independently audited market-share evidence. A market reversal weakens the demand inference.

Verification: PASS-DIRECT-LOCAL-TZ

Engine 46 — Venture & Startups

ID: E46-EN

Language: English

Original headline → faithful English: Spain's PLD Space adds \$125 million to its latest funding round

Publisher / type: Reuters / S

Original time → SGT: 2026-09-01 08:53 UTC → 16:53 SGT

Factual claim: PLD Space added €108m (about \$125m), taking its Series C to €288m and cumulative funding to €488m, to industrialise MIURA 5 and prepare commercial operations.

Engine fit: High—venture financing and scale-up capital

Contradiction / invalidation condition: Company-announced funding does not prove deployment timing or commercial execution; update on final closing/operational slippage.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/legal/transactional/spains-pld-space-adds-125-million-its-latest-funding-round-2026-09-01/>

Engine 47 — Supply Chains & Trade

ID: E47-EN
Language: English
Original headline → faithful English: Indonesia swings back to trade surplus in July
Publisher / type: Reuters / S
Original time → SGT: 2026-09-01 05:01 UTC → 13:01 SGT
Factual claim: Indonesia posted an approximately \$130m July surplus versus a \$200m deficit consensus; exports rose 6% y/y to \$26.22bn and imports 27% to \$26.09bn.
Engine fit: High—trade flows and input demand
Contradiction / invalidation condition: BPS revisions may adjust figures; economists warn the thin surplus may not buffer the current account.
Verification: PASS-DIRECT
Direct URL: Source — <https://www.reuters.com/world/asia-pacific/indonesia-exports-rise-605-annually-july-beating-expectations-2026-09-01/>

ID: E47-PT
Language: Portuguese (Brazil)
Original headline → faithful English: UE suspende a partir de quinta-feira (3) importação de carne do Brasil → EU suspends Brazilian meat imports from Thursday the 3rd
Publisher / type: Folha de S.Paulo / S, AFP
Original time → SGT: 2026-08-31 19:30 BRT → 2026-09-01 06:30 SGT
Factual claim: The EU will suspend Brazilian beef, poultry and related animal-product imports from 3 September, citing insufficient guarantees on antimicrobial compliance; poultry/honey audits may enable an earlier review than beef.
Engine fit: High—agri-food trade barrier and sourcing risk
Contradiction / invalidation condition: Suspension can be lifted after satisfactory guarantees/audits; Brazilian producer criticism disputes the policy rationale.
Verification: PASS-DIRECT
Direct URL: Source — <https://www1.folha.uol.com.br/mercado/2026/08/ue-suspende-a-partir-de-quinta-feira-3-importacao-de-carne-do-brasil.shtml>

ID: E47-ZH
Language: Chinese (Simplified)
Original headline → faithful English: 统计局：截至 7 月印尼贸易顺差 37 亿美元 → Statistics bureau: Indonesia's trade surplus reaches \$3.7bn through July
Publisher / type: Metro TV News Chinese / S
Original time → SGT: 2026-09-01 13:32 WIB → 14:32 SGT
Factual claim: BPS data show Jan–July exports of \$167.03bn (+4.43%), imports of \$163.33bn (+19.94%), and a \$120m July surplus; July imports rose 27.02%.
Engine fit: High—local-language trade-flow confirmation
Contradiction / invalidation condition: Same BPS release as E47-EN, so not independent confirmation. Later statistical revisions can alter totals.
Verification: PASS-DIRECT-LOCAL-TZ
Direct URL: Source — <https://www.metrotvnews.com/cn/read/2026/09/01/50647>

Engine 48 — Retail & E-commerce

ID: E48-EN

Language: English

Original headline → faithful English: Ikea invests €1.2 billion in Europe price cuts to lure cautious consumers

Publisher / type: Reuters / S

Original time → SGT: 2026-09-01 07:03:07 UTC → 15:03:07 SGT

Factual claim: IKEA says it will invest €1.2bn in European price cuts after two years of declining revenue; Germany gets reductions on more than 1,500 products, with some European cuts at 15%–25%.

Engine fit: High—consumer price sensitivity and retail margin

Contradiction / invalidation condition: Products, timing and scale vary by franchise market; lower prices do not guarantee volume recovery.

Verification: PASS-DIRECT

Direct URL: Source — <https://www.reuters.com/business/retail-consumer/ikea-invests-12-billion-europe-price-cuts-lure-cautious-consumers-2026-09-01/>

ID: E48-PT

Language: Portuguese (Brazil)

Original headline → faithful English: Shein arrecada US\$ 1,7 bilhão em IPO e fecha estreia na Bolsa com queda de 0,1% → Shein raises \$1.7bn in IPO and ends its market debut down 0.1%

Publisher / type: Folha de S.Paulo / S, AFP

Original time → SGT: 2026-09-01 11:59 BRT → 22:59 SGT

Factual claim: Shein's Hong Kong IPO raised \$1.7bn at about a \$26.3bn valuation; shares fell as much as 10% before closing down 0.1%, amid tariff, regulatory, environmental and labour scrutiny.

Engine fit: High—e-commerce capital-market and regulatory signal

Contradiction / invalidation condition: Intraday move is not durable valuation evidence; company disputes forced-labour implications and says it has zero tolerance. Update on later trading or regulatory findings.

Verification: PASS-DIRECT

Direct URL: Source — <https://www1.folha.uol.com.br/mercado/2026/09/shein-arrecada-us-17-bilhao-em-ipo-e-fecha-estreia-na-bolsa-com-queda-de-01.shtml>

ID: E48-ZH

Language: Chinese (Simplified)

Original headline → faithful English: 宜家中国回应降价传闻：暂无相关产品降价通知 → IKEA China responds to price-cut reports: no notice of corresponding product reductions for now

Publisher / type: Guandian / S

Original time → SGT: 2026-09-01 17:25 CST (China) → 17:25 SGT

Factual claim: IKEA China customer service said it had no equivalent product-price-cut notice, while Europe announced broad reductions.

Engine fit: High—localisation of a global retail action

Contradiction / invalidation condition: Customer-service response may lag corporate policy and is not a formal China-market release; later local cuts would invalidate “no notice for now.”

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://www.guandian.cn/article/20260901/595591.html>

Engine 49 — Travel & Hospitality

ID: E49-EN

Language: English

Original headline → faithful English: 100 million milestone firmly in sight for 2026 after Spain smashes all-time tourism records in July

Publisher / type: The Olive Press / S

Original time → SGT: 2026-09-01 14:30 CEST → 20:30 SGT

Factual claim: Spain received 11.5m international visitors in July (+4.6%) and €18.2bn of spending; Jan–July arrivals reached about 58m, while Riu cited occupancy above 90%.

Engine fit: High—arrivals, spend and hotel utilisation

Contradiction / invalidation condition: “100m in sight” is a forecast; overtourism, housing and infrastructure constraints may change the trajectory. Official-stat revisions may adjust totals.

Verification: PASS-DIRECT-LOCAL-TZ

Direct URL: Source — <https://www.theolivepress.es/spain-news/2026/09/01/spain-smashes-tourism-records-in-july-as-visitors-spend-18-2bn/>

ID: E49-ES

Language: Spanish

Original headline → faithful English: El turismo repunta en julio y vive el mejor mes de la historia con 11,5 millones de viajeros → Tourism rebounds in July and records its best month ever with 11.5m travellers

Publisher / type: EL PAÍS / S

Original time → SGT: 2026-09-01 10:20 CEST → 16:20 SGT

Factual claim: July arrivals rose 4.6% to 11.5m and spending 10.9% to €18.218bn; Jan–July arrivals reached 58.1m, with Costa del Sol August occupancy at 92.85% and September forecast at 88.5%.

Engine fit: High—tourism volume, pricing and occupancy
Contradiction / invalidation condition: Spending growth partly reflects higher prices; forecasts and local occupancy are not national realised results.
Verification: PASS-DIRECT-LOCAL-TZ
Direct URL: Source — <https://elpais.com/economia/2026-09-01/el-turismo-repunta-en-julio-y-vive-el-mejor-mes-de-la-historia-con-115-millones-de-viajeros.html>

ID: E49-ZH
Language: Chinese (Simplified)
Original headline → faithful English: 西班牙 7 月游客到访量创历史新高 → Spain's July visitor arrivals set a record high
Publisher / type: DailyEconomic Chinese / S
Original time → SGT: 2026-09-01 18:10 CST (China) → 18:10 SGT
Factual claim: Spain received 11.539m international visitors in July (+4.6%); UK arrivals were nearly 2.2m, with France and Germany next, and Jan–July arrivals exceeded 58.1m.
Engine fit: High—Chinese-language confirmation of destination demand
Contradiction / invalidation condition: Same underlying Spanish statistics as E49-ES, not independent data; invalidate on INE revision.
Verification: PASS-DIRECT-LOCAL-TZ
Direct URL: Source — <https://cn.dailyeconomic.com/2026/09/01/155437.html>

Engine 50 — Media & Entertainment

ID: E50-EN
Language: English
Original headline → faithful English: Venice Film Festival turns to politics as Hollywood retreats
Publisher / type: Reuters / S
Original time → SGT: 2026-09-01 12:18:34 UTC → 20:18:34 SGT
Factual claim: Reuters reports fewer major Hollywood studio entries amid a production crisis, while the Venice programme foregrounds Gaza, Ukraine, immigration, billionaires and a growing documentary slate.
Engine fit: High—festival programming and studio-production pulse
Contradiction / invalidation condition: “Retreats” is an interpretive frame; lineup changes or later acquisitions may alter the commercial read.
Verification: PASS-DIRECT
Direct URL: Source — <https://www.reuters.com/business/media-telecom/venice-film-festival-turns-politics-hollywood-retreats-2026-09-01/>

ID: E50-JA
Language: Japanese
Original headline → faithful English: 松村沙友理、『Pokémon Sleep』で第 1 子の夜泣き音声を確認 本郷奏多&バッテリーズと語る“ポケモンと眠り” → Sayuri Matsumura finds her first child's crying audio in Pokémon Sleep; discusses Pokémon and sleep with Kanata Hongo and Batteriizu
Publisher / type: Real Sound / S, event report
Original time → SGT: 2026-09-01 19:19 JST → 18:19 SGT
Factual claim: A Pokémon 30th-anniversary event linked the franchise's health/gaming history to Pokémon Sleep and presented a 42,970-user sleep-data ranking across Japan's prefectures.
Engine fit: High—IP extension, gaming and branded health entertainment
Contradiction / invalidation condition: The user sample is self-selected and the event is promotional; rankings are not population-level sleep epidemiology.
Verification: PASS-DIRECT-LOCAL-TZ
Direct URL: Source — <https://realsound.jp/tech/2026/09/post-2509711.html>

ID: E50-FR
Language: French
Original headline → faithful English: Patrick Bruel, visé par 32 plaintes, annonce l'annulation de sa tournée prévue dès octobre → Patrick Bruel, the subject of 32 complaints, announces cancellation of his tour due to start in October
Publisher / type: Le Dauphiné / S
Original time → SGT: Original 2026-09-01 18:28 CEST → 2026-09-02 00:28 SGT; updated 19:32 CEST → 01:32 SGT (outside)
Factual claim: The singer announced cancellation of the October tour on Instagram amid complaints and after being formally placed under investigation in four matters; he denies the accusations and says he will defend himself.
Engine fit: High—touring, reputation and live-event risk
Contradiction / invalidation condition: Legal caution: allegations are unresolved; presumption of innocence applies. Only the initial cancellation is admitted because the page update was after cutoff.
Verification: PASS-ORIGINAL / UPDATE-OUTSIDE
Direct URL: Source — <https://www.ledauphine.com/faits-divers-justice/2026/09/01/patrick-bruel-vise-par-32-plaintes-annonce-l-annulation-de-sa-tournee-prevue-a-partir-d-octobre>

Cross-engine live pulse (inferences, not additional facts)

1. Trade is rerouting, not simply accelerating. Aqaba's transit surge (E40-EN), Indonesia's import-heavy return to a thin surplus (E47-EN/E47-ZH), and the EU's Brazilian animal-product suspension (E47-PT) point to a network absorbing shocks through alternate ports while simultaneously adding regulatory friction. The investable read is higher route and compliance dispersion, not a clean global-volume boom.
2. The consumer is active but aggressively value-sensitive. Record Spanish arrivals/spend (E49), IKEA's €1.2bn European price action (E48-EN), the lack of a matching China notice (E48-ZH), and Shein's muted IPO close after a 10% intraday drop (E48-PT) fit a regime where demand persists but price, geography and regulatory trust determine conversion.
3. Property and credit remain constrained. Falling U.S. construction spend (E41-EN), extreme Taipei affordability metrics (E41-ZH), Taiwan developers seeking rule relief while broad easing looks unlikely (E44-ZH), and an Indian NBFC going to dollar markets after bank issuance paused (E44-EN) jointly suggest capital remains available selectively, at a price, while housing supply and affordability stay impaired.
4. Healthcare science is advancing faster than delivery capacity. GSK's phase-III move and Mounjaro's reported label expansion (E43) sit beside midwife shortages (E42-ES), prior-authorisation reform (E42-EN), and AI care-navigation experimentation (E42-ZH). The binding constraint is increasingly workforce, administration and trusted access—not only discovery.
5. Labour and operating continuity are cross-sector risks. Boeing talks and the French Bee strike (E39) coincide with Swiss Life's planned workforce reduction (E45-EN). These are different mechanisms, but all affect service/production capacity and should be monitored as execution risk rather than treated as isolated HR news.
6. AI capital is reaching consumer workflows, but evidence quality is uneven. ButBeautiful's pre-A/TIPS trigger (E46-KO) and UDN's AI care-navigation product (E42-ZH) show deployment beyond model infrastructure. Both remain company/publisher-attributed; adoption and outcome claims need independent follow-up.
7. Media value is shifting toward event, politics and reputation management. Venice's politically weighted programme amid fewer studio entries (E50-EN), Pokémon's health-entertainment extension (E50-JA), and a cancelled French concert tour amid unresolved allegations (E50-FR) show IP expansion coexisting with rising reputational and live-event fragility.

Lane-level regime read: resilient activity, weak affordability, selective capital, and elevated routing/regulatory friction. This is a directional synthesis of the verified 36-row set; it is not proof of a 24-language global consensus and should not be promoted to a prediction without the other engine lanes and the canonical ledger.

Source-search audit

Count: 171 deduplicated source-domain strings searched (55 minimum; exceeded by 116). 21 selected hostnames/desks (20 parent domains) supplied the 36 evidence rows; 150 searched domains were not selected because they were outside-window, lacked an exact timestamp, were duplicate/syndicated, inaccessible, or did not clear engine fit. Reuters-branded pages account for 10/36 rows (27.8%); including two local Reuters-syndicated rows, Reuters lineage is 12/36 (33.3%). Every engine also has two non-English non-Reuters rows, and no engine is Reuters-only.

The log normalises obvious www/mobile variants; some publisher desks/subdomains remain separate where they were searched separately (for example udn.com and money.udn.com). Searched does not mean endorsed or publishable.

Client-fit appendix

No outreach was sent. Public contact routes are supplied only for a permission-first workflow; no private address, inferred email pattern or guessed founding date is used.

GrowthGreatness — post-2023-03-01 AI-startup gate

Candidate: But Beautiful Co. / truloop

Exact qualifying date: 2025-01-15 establishment date on the company's official About page — <https://www.butbeautiful.co/>

AI/product proof: Official page describes truloop as an AI-powered social-gathering platform; E46-KO describes AI scheduling, venue help and post-event story generation.

Current verified trigger: MoneyToday, 2026-09-01 15:30 KST: pre-Series A closed; TIPS global R&D selection and KRW1.2bn through Oct 2028 — <https://www.mt.co.kr/future/2026/09/01/2026090110172097574>. Round amount is undisclosed.

Public professional route: contact@butbeautiful.co on the official page — <https://www.butbeautiful.co/>

Permission-first rationale: Ask whether the company wants a private, no-obligation cross-market signal brief or an introduction. Do not add it to a mailing/list, publish a profile, or reuse contact data without an explicit opt-in.

Gate: PASS—exact date, AI status, live trigger and public business contact all verified.

Candidate: Other AI-funding names encountered

Exact qualifying date: —

AI/product proof: —

Current verified trigger: Searches included "AI 회계 스타트업 릴레 1억 달러 투자 유치", "Rillet company founded exact date 2021 incorporation", "AI 소셜 앱 '츄름' 운영 벚부리풀", and "벚부리풀 법인 설립일 134511-0717990".

Public professional route: —

Permission-first rationale: No permission action.

Gate: HOLD / not admitted—no second name in this lane cleared the exact post-cutoff formation-date + current-window trigger + public-route gate without relying on an older company or incomplete date evidence.

OTR mutual-fit candidates

The score is editorial/source-partnership fit, not investment quality.

Candidate: PLD Space

Fit: 88/100

Official current trigger: Official 1 Sep 2026 release: Series C extended to €288m with an additional €108m — <https://www.pldspace.com/en/news/pld-space-extends-series-c-to-288-million-with-an-additional-108-million-tranche.html>.

Public route: Official press-contact page — <https://www.pldspace.com/en/news/press-contact/>

Why ≥70: Direct fit across Aviation, Venture, industrial supply chains and European strategic autonomy; it publishes primary milestones in English/Spanish.

Specific two-way benefit: OTR gains timely primary launch/funding/supply-chain clarification; PLD Space gains a transparent, multilingual map of how its milestones are interpreted across markets, with uncertainty and corrections visible rather than promotional copy.

Gate: PASS—permission required before any contact or feature.

Candidate: Ingka Group / IKEA

Fit: 84/100

Official current trigger: Official 1 Sep 2026 release: €1.2bn European affordability investment and product price cuts — <https://www.ingka.com/newsroom/ikea-makes-a-major-investment-in-affordability-lowering-prices-on-hundreds-of-products/>.

Public route: press.office@ingka.com on the official newsroom; contact page — <https://www.ingka.com/contact/>.

Why ≥70: Direct fit across Retail, housing-linked demand, consumer affordability and supply chains; the action varies by market, creating useful multilingual contradictions.

Specific two-way benefit: OTR gains franchise-level pricing and sourcing nuance; IKEA gains a sourced cross-language consumer-friction map, including where local desks report no matching action (such as E48-ZH), so regional communication gaps become visible.

Gate: PASS—media enquiry only; ask consent before broader collaboration.

Appendix A5. Engines 51 63

Verbatim evidence-pack content from engines_51_63.md. Native headlines are preserved; all rows still require canonical readback before publication.

Pavuron evidence pack — engines 51–63

Lane: read-only research; no site mutation.

Frozen window: 2026-09-01 01:24:34 SGT inclusive → 2026-09-02 01:24:34 SGT exclusive (2026-08-31 17:24:34 UTC → 2026-09-01 17:24:34 UTC).

Freshness rule: an article qualifies only when a direct source page exposes an exact timestamp in the window, or the direct official page is paired with an exact-time first-party distribution copy and marked V-B. Date-only pages remain HOLD. Search text is discovery only, never evidence.

Completion status

Thirty-nine evidence rows (three for each of engines 51–63) have been direct-page checked and are recorded below with contradiction notes, source-class labels, timestamp conversions, a searched-domain receipt, cross-engine signals, and client-fit gates.

Verification legend

- V-A: direct publisher page opened; headline, substantive body, and exact displayed timestamp verified.
- V-B: direct publisher/official page opened and substantive body verified, but either a paywall limits body inspection or the official page is date-only and an exact-time first-party distribution/companion copy supplies freshness.
- Primary: government, regulator, agency, company, or project owner speaking for itself. Secondary: newsroom reporting or analysis.
- PASS means the engine has one English plus two distinct native non-English headline rows inside the frozen window. A headline may fit more than one engine, but shared-event keys make that reuse visible.

Engine 51 — Education & Skills — PASS

ID: E51-EN-1

Lang: EN

Original headline → faithful English: Three million more kids are eligible for free school meals from TODAY as new rules come into force

Publisher; original time → SGT: The Sun; 2026-09-01 10:48:10 UTC → 18:48:10 SGT

Direct source: Direct page — <https://www.thesun.co.uk/news/40234673/three-million-kids-eligible-free-school-meals/>

Factual claim / label: New eligibility rules expand free school meals and the article says 1,400 breakfast clubs are operating. Secondary.

Fit; contradiction or invalidation: Direct education-access and household-support fit. Headline says “kids,” while body language alternates among children/families and “around three million”; denominator needs official confirmation before scoring.

Ver.: V-A

ID: E51-FR-1 / E55-FR-1

Lang: FR

Original headline → faithful English: Rentrée scolaire 2026 : l'éducation nationale et les élus locaux confrontés à l'accélération du déclin démographique → 2026 school year: National Education and local elected officials face accelerating demographic decline

Publisher; original time → SGT: Le Monde; 2026-09-01 05:45 CEST → 11:45 SGT; modified 11:00 CEST → 17:00 SGT

Direct source: Direct page — https://www.lemonde.fr/societe/article/2026/09/01/carte-scolaire-l-education-nationale-et-les-elus-locaux-a-l-epreuve-de-l-acceleration-du-declin-demographique_6763099_3224.html

Factual claim / label: France has about 161,000 fewer pupils than 2025 and could lose roughly 1.7m over ten years, forcing school-map decisions. Secondary.

Fit; contradiction or invalidation: Strong education-capacity signal. The ten-year number is a projection, not an observed loss; local closures remain policy choices.

Ver.: V-A

ID: E51-ZH-1

Lang: ZH-Hant

Original headline → faithful English: 教育局局長會見傳媒談話內容（只有中文）（附圖） → Education Secretary meets the media (Chinese only) (with photos)

Publisher; original time → SGT: Hong Kong SAR Government; 2026-09-01 15:47 HKT → 15:47 SGT

Direct source: Direct page — <https://www.info.gov.hk/gia/general/202609/01/P2026090100581.htm>

Factual claim / label: The secretary outlined the new school-year package: General Studies split into Humanities and Science, PE included in placement assessment, a HK\$2bn digital-education reserve, and HK\$500m Smart Start Teaching grant. Primary.

Fit; contradiction or invalidation: Direct curriculum, assessment, and education-capital fit. Policy announcement does not establish adoption quality or learning outcomes.

Ver.: V-A

Engine 52 — Labour & Workplace — PASS

ID: E52-EN-1

Lang: EN

Original headline → faithful English: House Republicans ramp up labor union investigations before midterms

Publisher; original time → SGT: The Guardian; 2026-09-01 06:00 EDT → 18:00 SGT; modified 12:50 EDT → 2026-09-02 00:50 SGT

Direct source: Direct page — <https://www.theguardian.com/us-news/2026/sep/01/house-republicans-unions-investigation>

Factual claim / label: House committees expanded inquiries touching AFT, UAW, USW, SMART-TD, BLET, and BMWED. Secondary.

Fit; contradiction or invalidation: Strong organised-labour/governance fit. Allegations and partisan motives are disputed; investigations are not findings of wrongdoing.

Ver.: V-A

ID: E52-ZH-1

Lang: ZH-Hant

Original headline → faithful English: 工會醞釀罷工 美光：將發放歷年最高績效獎金並對話 → Union mulls strike; Micron says it will issue its highest-ever performance bonus and hold dialogue

Publisher; original time → SGT: Economic Daily / CNA; 2026-09-01 17:37:08 Taiwan CST → 17:37:08 SGT

Direct source: Direct page — https://money.udn.com/money/story/5612/9727755?from=edn_newest_index

Factual claim / label: Taiwan Micron unions were considering strike action; the company promised a record performance bonus and dialogue. Secondary.

Fit; contradiction or invalidation: Direct industrial-relations and compensation fit. Reported 80% strike support was not independently verified, and dialogue/bonus is not a settlement.

Ver.: V-A

ID: E52-KO-1

Lang: KO

Original headline → faithful English: [2027예산] 첫 취업 지원…청년일자리에 7천억 늘려 3.3조 투입 → [2027 Budget] Support for first jobs… youth-employment spending rises KRW700bn to KRW3.3tn

Publisher; original time → SGT: Yonhap; 2026-09-01 11:49 KST → 10:49 SGT

Direct source: Direct page — <https://www.yna.co.kr/view/AKR20260831182500530>

Factual claim / label: South Korea's Labour Ministry budget plan assigns KRW3.3tn to youth employment, including added first-job support for 160,000 people and a 750-person AI work-experience pilot. Secondary citing ministry/cabinet.

Fit; contradiction or invalidation: Direct labour-market and skills-transition fit. It is a proposed 2027 budget, not executed employment output.

Ver.: V-A

Engine 53 — Law & Regulation — PASS

ID: E53-EN-1

Lang: EN

Original headline → faithful English: US lawmakers demand investigation into Trump administration's secret surveillance of Americans

Publisher; original time → SGT: The Guardian; 2026-09-01 16:11:20 UTC → 2026-09-02 00:11:20 SGT

Direct source: Direct page — <https://www.theguardian.com/us-news/2026/sep/01/lawmakers-trump-obscure-law-investigation>

Factual claim / label: Senator Ron Wyden and Representative Pramila Jayapal asked the GAO to audit DHS use of administrative summons/customs authority; GAO confirmed receipt. Secondary.

Fit; contradiction or invalidation: Direct oversight, privacy, and administrative-law fit. A request for audit and lawmakers' allegations are not GAO findings.

Ver.: V-A

ID: E53-ES-1

Lang: ES

Original headline → faithful English: El Gobierno impulsa una norma para acabar con la exclusión de las personas con dificultades de comprensión → The government advances a rule to end exclusion of people with comprehension difficulties

Publisher; original time → SGT: El País; 2026-09-01 05:01 UTC → 13:01 SGT

Direct source: Direct page — <https://elpais.com/sociedad/2026-09-01/el-gobierno-impulsa-una-norma-para-acabar-con-la-exclusion-de-las-personas-con-dificultades-de-comprension.html>

Factual claim / label: Spain's Council of Ministers approved a nationwide cognitive-accessibility regulation for essential services. Secondary.

Fit; contradiction or invalidation: Direct accessibility-regulation fit. Cabinet approval and implementation are different states; practical compliance remains unmeasured.

Ver.: V-A

ID: E53-DE-1

Lang: DE

Original headline → faithful English: Wolfsjagd und Ausbildung an der Ente: Jagdgesetz neu gefasst → Wolf hunting and training on ducks: hunting law revised

Publisher; original time → SGT: WELT / dpa; 2026-09-01 12:02:42 UTC → 20:02:42 SGT

Direct source: Direct page — <https://www.welt.de/article6a96bee2518a586e1855f7a9>

Factual claim / label: Rhineland-Palatinate's cabinet advanced a hunting-law draft that can classify wolves as huntable under criteria and restores live-duck dog training. Secondary.

Fit; contradiction or invalidation: Direct environmental/animal law fit. This is a draft/hearing-stage reform, not enacted law; conservation objections remain material.

Ver.: V-A

Engine 54 — Public Policy & Government — PASS

ID: E54-EN-1
Lang: EN
Original headline → faithful English: Burnham says Brexit brought ‘decade of low growth’ in first Commons address as prime minister – UK politics live
Publisher; original time → SGT: The Guardian live; first 2026-09-01 10:04 CEST → 16:04 SGT; qualifying headline state 18:55 CEST → 2026-09-02 00:55 SGT
Direct source: Direct live page — <https://www.theguardian.com/politics/live/2026/sep/01/andy-burnham-statement-commons-prison-release-farage-healey-defence-latest-news-updates>
Factual claim / label: The live report records Burnham framing Brexit as a low-growth decade and signalling a policy shift. Secondary.
Fit; contradiction or invalidation: Direct national-policy narrative fit. “Brought” is political attribution, not a causal estimate; page edits after the 01:24:34 SGT cutoff are excluded from this freeze.
Ver.: V-A

ID: E54-ES-1
Lang: ES
Original headline → faithful English: El Gobierno aprueba un plan de 309 millones para despejar la idea del ‘abandono’ de Ceuta → The government approves a €309m plan to dispel the idea of Ceuta’s “abandonment”
Publisher; original time → SGT: El País; 2026-09-01 14:48 CEST → 20:48 SGT
Direct source: Direct page — <https://elpais.com/espana/2026-09-01/el-gobierno-anuncia-un-plan-de-choque-por-valor-de-309-millones-para-ayudar-a-ceuta.html>
Factual claim / label: Spain approved a €309m Ceuta package: €80m business support, €90m security, €118m humanitarian/minors, and €21m essentials. Secondary.
Fit; contradiction or invalidation: Direct fiscal and territorial-policy fit. Earlier intraday totals differed; this frozen row uses the later article’s €309m total, which still denotes authorization rather than disbursement.
Ver.: V-A

ID: E54-ZH-1
Lang: ZH-Hant
Original headline → faithful English: 政府公布「未來智慧物流加速計劃」首批預先核准方案 → Government announces first batch of pre-approved solutions under the Future Smart Logistics Accelerator Programme
Publisher; original time → SGT: Hong Kong SAR Government; 2026-09-01 16:15 HKT → 16:15 SGT
Direct source: Direct page — <https://www.info.gov.hk/gja/general/202609/01/P2026090100622.htm>
Factual claim / label: The first three pre-approved IT solutions are available to eligible third-party logistics firms with a 2:1 subsidy capped at HK\$2m. Primary.
Fit; contradiction or invalidation: Direct industrial/digital-policy fit. Pre-approval and subsidy availability do not prove firm uptake or productivity gains.
Ver.: V-A

Engine 55 — Demographics & Society — PASS

ID: E55-EN-1
Lang: EN
Original headline → faithful English: French schools face ‘unprecedented challenge’ of accelerating demographic decline
Publisher; original time → SGT: Le Monde in English; 2026-09-01 12:00 CEST → 18:00 SGT; updated 13:03 CEST → 19:03 SGT
Direct source: Direct page — https://www.lemonde.fr/en/france/article/2026/09/01/french-schools-face-unprecedented-challenge-of-accelerating-demographic-decline_6757042_7.html
Factual claim / label: France has about 161,000 fewer pupils than in 2025, a projected 1.7m decline over ten years, and more than 5,000 school closures since 2012. Secondary.
Fit; contradiction or invalidation: Direct population-age-structure fit. The future decline is projected; school closures are also shaped by policy and geography.
Ver.: V-A

ID: E55-FR-1 / E51-FR-1
Lang: FR
Original headline → faithful English: Rentrée scolaire 2026 : l’éducation nationale et les élus locaux confrontés à l’accélération du déclin démographique → 2026 school year: National Education and local elected officials face accelerating demographic decline
Publisher; original time → SGT: Le Monde; 2026-09-01 05:45 CEST → 11:45 SGT; modified 11:00 CEST → 17:00 SGT
Direct source: Direct page — https://www.lemonde.fr/societe/article/2026/09/01/carte-scolaire-l-education-nationale-et-les-elus-locaux-a-l-epreuve-de-l-acceleration-du-declin-demographique_6763099_3224.html
Factual claim / label: Same French pupil-decline event as E51-FR-1; retained with one shared-event key, not double-counted as an independent corroboration. Secondary.
Fit; contradiction or invalidation: Strong demographic fit. Projection uncertainty and policy mediation remain.
Ver.: V-A

ID: E55-ES-1
Lang: ES
Original headline → faithful English: Última hora de la entrada de inmigrantes a Ceuta, en directo — Bruselas ve ‘intentos de Rusia de sacar partido’ de la crisis de Ceuta, pero afirma que no hay ‘pruebas’ de que la provocara → Latest on migrant arrivals in Ceuta, live — Brussels sees “Russian attempts to exploit” the Ceuta crisis but says there is “no evidence” it caused it

ID: E56-EN-1
Lang: EN
Original headline → faithful English: Wall Street banks push Big Law to cut fees because of AI
Publisher; original time → SGT: Financial Times; 2026-09-01 04:00:20 UTC → 12:00:20 SGT
Direct source: Direct page — <https://elpais.com/espana/2026-09-01/ultima-hora-de-la-entrada-de-inmigrantes-a-ceuta-en-directo.html>
Factual claim / label: EU officials said Russian actors tried to exploit the narrative around Ceuta’s migration crisis, while stating there was no conclusive evidence Russia caused it; the page also tracks the €309m response. Secondary.
Fit; contradiction or invalidation: Direct migration/social-cohesion fit. The “no evidence it caused it” clause is mandatory and invalidates any causal-Russia headline inference.
Ver.: V-A

Engine 56 — Professional Services — PASS

ID: E56-EN-1
Lang: EN
Original headline → faithful English: Wall Street banks push Big Law to cut fees because of AI
Publisher; original time → SGT: Financial Times; 2026-09-01 04:00:20 UTC → 12:00:20 SGT
Direct source: Direct page — <https://www.ft.com/content/5240a6ac-b2e8-4897-a0a4-cbc7fc283bc9>
Factual claim / label: Goldman Sachs, Morgan Stanley, and Citi are reported to be pressing law firms for fee cuts or alternative pricing tied to AI efficiencies. Secondary.
Fit; contradiction or invalidation: Direct legal-services pricing/productivity fit. Negotiating demands are not realized fee cuts; no audited cost-saving denominator is supplied.
Ver.: V-B (paywall)

ID: E56-ZH-1
Lang: ZH-Hant
Original headline → faithful English: 【即時新聞】AI 大幅提升效率！高盛(GS)與花旗(C)等華爾街巨頭要求律師事務所調降費用 → [Breaking] AI greatly boosts efficiency! Wall Street giants such as Goldman Sachs and Citi ask law firms to cut fees
Publisher; original time → SGT: CMoney; 2026-09-01 15:19 Taiwan CST → 15:19 SGT
Direct source: Direct page — <https://cmnews.com.tw/article/newsyoudeservetoknow-7704e750-a5d5-11f1-8dc8-7c05d9cb2eb8>
Factual claim / label: Chinese-language coverage repeats the bank pressure on law-firm pricing. Secondary, derivative of FT.
Fit; contradiction or invalidation: Native-language confirmation of the same professional-services theme, not independent corroboration. “Greatly boosts efficiency” is stronger than the verified evidence and should not be promoted as fact.
Ver.: V-A

ID: E56-KO-1
Lang: KO
Original headline → faithful English: 월가 ‘로펌, AI로 돈 아낀 만큼 수수료 깎아줘야’ → Wall Street: “Law firms should cut fees by what they save with AI”
Publisher; original time → SGT: Maeil Business via Daum; 2026-09-01 16:09 KST → 15:09 SGT
Direct source: Direct page — <https://v.daum.net/v/20260901160908675>
Factual claim / label: Korean-language reporting conveys the same push to share claimed AI savings through lower legal fees. Secondary, derivative of FT.
Fit; contradiction or invalidation: Strong services-pricing fit but same event key E56-AI-FEES; it does not verify the amount of savings or a completed repricing.
Ver.: V-A

Engine 57 — Animal Kingdom — PASS

ID: E57-EN-1
Lang: EN
Original headline → faithful English: Kākāpō rising: 90 chicks swell population of the world’s heaviest parrot
Publisher; original time → SGT: The Guardian; 2026-09-01 02:57:21 UTC → 10:57:21 SGT
Direct source: Direct page — <https://www.theguardian.com/world/2026/sep/01/record-breeding-worlds-heaviest-parrot-nz-endangered-kakapo>
Factual claim / label: A record 90 chicks lifted the kākāpō population to 325, its highest in roughly 75 years. Secondary.
Fit; contradiction or invalidation: Direct endangered-species/recovery fit. A single breeding season does not remove extinction risk or establish long-run genetic resilience.
Ver.: V-A

ID: E57-KO-1
Lang: KO
Original headline → faithful English: 해남 복지시설에 들어온 수달…야생동물구조센터 인계 → Otter enters welfare facility in Haenam... transferred to wildlife rescue centre
Publisher; original time → SGT: Yonhap; 2026-09-01 20:06 KST → 19:06 SGT
Direct source: Direct page — <https://www.yna.co.kr/amp/view/AKR20260901191700054>
Factual claim / label: An otter was safely captured at a welfare facility and transferred to a wildlife rescue centre; the report identifies it as protected endangered grade 1. Secondary/local.
Fit; contradiction or invalidation: Direct wildlife-rescue fit. One rescue is not evidence of population recovery or worsening range pressure.
Ver.: V-A

ID: E57-ZH-1
Lang: ZH
Original headline → faithful English: “协同蓝绿碳汇，共绘生态底色”广汽本田红树林公益聚力绿色未来 → “Coordinate blue and green carbon sinks, paint the ecological base”: GAC

Honda's mangrove public-interest effort powers a green future

Publisher; original time → SGT: Xinhua; 2026-09-01 15:43:17 China CST → 15:43:17 SGT

Direct source: Direct page — <https://www.news.cn/auto/20260901/61d28d6ab348461c8cfc57a03557a644/c.html>

Factual claim / label: Branded coverage reports 93 bird species and more than 150,000 birds in the project area, including 3 national class-I and 6 class-II species; it also says 567 mu were restored with >80% survival. Secondary/branded content.

Fit; contradiction or invalidation: Biodiversity and habitat-restoration fit. Company/project metrics were not independently audited; this cannot be treated as neutral conservation-impact proof.

Ver.: V-A

Engine 58 — Space — PASS

ID: E58-EN-1

Lang: EN

Original headline → faithful English: NASA Roman Space Telescope's Antenna, 'Visor' Deployed

Publisher; original time → SGT: NASA; 2026-09-01 08:59 EDT → 20:59 SGT

Direct source: Direct page — <https://science.nasa.gov/blogs/roman/2026/09/01/nasa-roman-space-telescopes-antenna-visor-deployed/>

Factual claim / label: NASA says Roman's antenna and deployable aperture cover were deployed; coronagraph activation and Wide Field Instrument work follow, with first images targeted for early 2027. Primary.

Fit; contradiction or invalidation: Direct mission-integration fit. Deployment is a milestone, not proof of on-orbit performance; the image date is a target.

Ver.: V-A

ID: E58-ZH-1

Lang: ZH

Original headline → faithful English: 全国首个开放式商业航天测控共享平台启用 → China's first open shared commercial-space tracking, telemetry and control platform begins operation

Publisher; original time → SGT: Xinhua / Science and Technology Daily; 2026-09-01 08:57:43 China CST → 08:57:43 SGT

Direct source: Direct page — <https://www.news.cn/tech/20260901/c50cb2cdcafc40c89f33545eef29f85f/c.html>

Factual claim / label: The platform was activated with claimed annual capacity for at least 200 launch/recovery missions and at least 5,000 satellites. Secondary citing operator/local authority.

Fit; contradiction or invalidation: Direct space-infrastructure fit. "First" and capacity are operator/government claims and have not been independently stress-tested.

Ver.: V-A

ID: E58-PT-1

Lang: PT-BR

Original headline → faithful English: Órbita da Terra atinge limite máximo de segurança, aponta especialista → Earth orbit reaches maximum safe limit, expert says

Publisher; original time → SGT: UOL; 2026-08-31 16:37 BRT → 2026-09-01 03:37 SGT

Direct source: Direct page — <https://www.uol.com.br/tilt/noticias/redacao/2026/08/31/orbita-da-terra-atinge-limite-maximo-de-seguranca-aponta-especialista.ghrm>

Factual claim / label: The report cites more than 34,000 tracked objects and an expert assessment that low Earth orbit has reached a maximum safe density. Secondary based on WSJ/expert.

Fit; contradiction or invalidation: Strong orbital-congestion fit. "Maximum safe limit" is an expert risk judgment, not a universally adopted regulatory threshold or proof of imminent cascade.

Ver.: V-A

Engine 59 — Quantum Technologies / Quantum Computing — PASS

ID: E59-EN-1

Lang: EN

Original headline → faithful English: Diraq and Equinix to Deploy Australia's First Quantum Computer Inside a Data Centre

Publisher; original time → SGT: Equinix newsroom; official page dated 2026-09-01; exact distribution 2026-08-31 17:00 EDT → 2026-09-01 05:00 SGT

Direct source: Official release — <https://newsroom.equinix.com/2026-09-01-Diraq-and-Equinix-to-Deploy-Australias-First-Quantum-Computer-Inside-a-Data-Centre>; exact-time distribution copy — <https://www.marketscreener.com/news/diraq-to-deploy-a-quantum-computer-inside-an-equinix-data-center-ce7858ddda8ef022>

Factual claim / label: Diraq and Equinix plan an 8-qubit silicon-spin system drawing under 20kW in Sydney, with installation targeted for October. Primary company release.

Fit; contradiction or invalidation: Direct quantum-deployment fit. "First" is a company claim; 8 qubits is not utility-scale, and planned installation is not completed operation.

Ver.: V-B

ID: E59-KO-1

Lang: KO

Original headline → faithful English: Diraq, Equinix 데이터 센터에 실리콘 양자 컴퓨터 구축 예정 → Diraq plans to build a silicon quantum computer in an Equinix data centre

Publisher; original time → SGT: Investing.com Korea; 2026-09-01 06:05 KST → 05:05 SGT

Direct source: Direct page — <https://kr.investing.com/news/company-news/article-93CH-2080026>

Factual claim / label: Korean-language company-news coverage repeats the 8-qubit Sydney deployment plan. Secondary/press-release rewrite; page labels AI-assisted translation.

Fit; contradiction or invalidation: Native-language quantum-infrastructure fit but same event key E59-DIRAQ; no independent validation of capability or schedule.
Ver.: V-A

ID: E59-ES-1
Lang: ES
Original headline → faithful English: Diraq desplegará computadora cuántica de silicio en centro de datos Equinix → Diraq will deploy a silicon quantum computer in an Equinix data centre
Publisher; original time → SGT: Investing.com México; 2026-08-31 15:04 Mexico City CST (UTC-6) → 2026-09-01 05:04 SGT
Direct source: Direct page — <https://mx.investing.com/news/company-news/diraq-desplegara-computadora-cuantica-de-silicio-en-centro-de-datos-equinix-93CH-3750063>
Factual claim / label: Spanish-language coverage repeats the planned silicon-spin deployment. Secondary/press-release rewrite.
Fit; contradiction or invalidation: Same event key E59-DIRAQ; useful language-lane reach, not independent corroboration. Future-tense headline must remain future tense.
Ver.: V-A

Engine 60 — Nuclear Energy — PASS

ID: E60-EN-1
Lang: EN
Original headline → faithful English: UN report finds Syria was building a nuclear reactor in Deir el-Zour under former President Assad
Publisher; original time → SGT: Associated Press; 2026-09-01 17:15:08 UTC → 2026-09-02 01:15:08 SGT (9m26s before cutoff)
Direct source: Direct page — <https://apnews.com/article/b941d7d11da6fb8912ae2bed0b34cec2>
Factual claim / label: AP reports that an IAEA report establishes an undeclared reactor plus fuel-fabrication and storage facilities in Syria. Secondary reporting on an IAEA report.
Fit; contradiction or invalidation: Direct nuclear safeguards/proliferation fit. The underlying report should remain the canonical evidence when public; Syria’s prior denials and current cooperation are distinct facts, and AP’s summary is not the report itself.
Ver.: V-A

ID: E60-TR-1
Lang: TR
Original headline → faithful English: Cumhurbaşkanı Erdoğan: Yeni nükleer santraller için adım atacağız → President Erdoğan: We will take steps for new nuclear power plants
Publisher; original time → SGT: BloombergHT; 2026-09-01 17:44 TRT → 22:44 SGT; updated 18:01 TRT → 23:01 SGT
Direct source: Direct page — <https://www.bloomberght.com/cumhurbaskani-erdogan-yeni-nukleer-santraller-icin-adim-atacagiz-3787029>
Factual claim / label: Erdoğan said Turkey and Russia would prepare steps for new plants after Akkuyu. Secondary report of official remarks.
Fit; contradiction or invalidation: Direct nuclear policy/capex-intent fit. This is political intent, not a signed contract, licensed project, financing close, or FID.
Ver.: V-A

ID: E60-DE-1 / E62-DE-2
Lang: DE
Original headline → faithful English: Schutt von Akw Biblis kommt nach langem Streit auf Halde → Debris from Biblis nuclear plant goes to landfill after long dispute
Publisher; original time → SGT: WELT / dpa; 2026-09-01 15:00:42 CEST → 21:00:42 SGT
Direct source: Direct page — <https://www.welt.de/regionales/hessen/article6a96cc7ad32756d4be19b815/schutt-von-akw-biblis-kommt-nach-langem-streit-auf-halde.html>
Factual claim / label: The report says 60 tonnes of low-radioactivity demolition rubble will move on Thursday, 180 tonnes by year-end, and more than 3,000 tonnes in total. Secondary.
Fit; contradiction or invalidation: Direct decommissioning/waste fit. Legal authorization does not mean zero environmental controversy or risk; “low-radioactivity” must not be shortened to “non-radioactive.”
Ver.: V-A

Engine 61 — Autonomous Systems, Robotics & Drones — PASS

ID: E61-EN-1
Lang: EN
Original headline → faithful English: INDROTEK Announces InDro Robotics Selected as Qualified Supplier Under Canada’s Defence Drone Initiative Marketplace
Publisher; original time → SGT: INDROTEK via GlobeNewswire; 2026-09-01 08:20 EDT → 20:20 SGT
Direct source: Direct release — <https://www.globenewswire.com/news-release/2026/09/01/3354134/0/en/indrotek-announces-indro-robotics-selected-as-qualified-supplier-under-canada-s-defence-drone-initiative-marketplace.html>
Factual claim / label: InDro Robotics was selected for a qualified-supplier pool under Canada’s defence-drone marketplace. Primary company release.
Fit; contradiction or invalidation: Direct drone procurement fit. The release explicitly says qualification does not guarantee a contract or revenue; editorial must preserve that limiter.
Ver.: V-A

ID: E61-PT-1
Lang: PT-BR
Original headline → faithful English: Alemanha acusa Rússia de tentar atacar aviões com drones → Germany accuses Russia of trying to attack aircraft with drones
Publisher; original time → SGT: Folha de S.Paulo; 2026-09-01 12:42 BRT → 23:42 SGT; updated 12:58 BRT → 23:58 SGT

Direct source: Direct page — <https://www1.folha.uol.com.br/mundo/2026/09/alemanha-acusa-russia-de-tentar-atacar-avioes-com-drones.shtml>
Factual claim / label: Germany attributes an alleged explosive-drone attempt affecting aircraft in Leipzig to Russia; Russia denies responsibility. Secondary.
Fit; contradiction or invalidation: Direct hostile-autonomy/security fit. Attribution is a German-government claim and is contested, not independently adjudicated.
Ver.: V-A

ID: E61-DE-1

Lang: DE

Original headline → faithful English: Bundesregierung: Russland steckt hinter Drohnen-Angriff in Leipzig → Federal government: Russia is behind the drone attack in Leipzig

Publisher; original time → SGT: MDR; 2026-09-01 19:19 CEST → 2026-09-02 01:19 SGT

Direct source: Direct page — <https://www.mdr.de/nachrichten/deutschland/politik/flughafen-sprengstoff-russland-ukraine-drohne-leipzig-116.html>

Factual claim / label: German public-broadcaster coverage records the federal government’s Russia attribution in the Leipzig drone case. Secondary.

Fit; contradiction or invalidation: Same event key E61-LEIPZIG, useful local-language confirmation but not independent proof; Russia’s denial must accompany the claim.

Ver.: V-A

Engine 62 — Circular Economy / Waste Management & Recycling — PASS

ID: E62-EN-1

Lang: EN

Original headline → faithful English: From today, segregate waste for a clean Madurai

Publisher; original time → SGT: Times of India; 2026-09-01 00:21 IST → 02:51 SGT

Direct source: Direct page — https://timesofindia.indiatimes.com/city/madurai/from-today-segregate-waste-for-a-clean-madurai/amp_articleshow/133661711.cms

Factual claim / label: Madurai began enforcing solid-waste rules under which only colour-coded segregated waste is collected, mixed waste may be refused, and repeat violations may draw fines. Secondary/local.

Fit; contradiction or invalidation: Direct municipal-waste implementation fit. A rule taking effect does not prove household compliance, collection consistency, or diversion outcomes.

Ver.: V-A

ID: E62-DE-1

Lang: DE

Original headline → faithful English: Kreislaufwirtschaft: Landesregierung möchte Wirtschaft auf Recyclingkurs bringen → Circular economy: State government wants to put the economy on a recycling course

Publisher; original time → SGT: ZEIT / dpa; 2026-09-01 15:38 CEST → 21:38 SGT

Direct source: Direct page — <https://www.zeit.de/news/2026-09/01/landesregierung-moechte-wirtschaft-auf-recyclingkurs-bringen>

Factual claim / label: North Rhine-Westphalia presented a circular-economy strategy that prioritizes recycled materials in public-road works; detailed rules are being drafted. The article cites a 13–15% circular-material share and 240,000 jobs. Secondary.

Fit; contradiction or invalidation: Direct circular-policy and procurement fit. Strategy language is not yet a binding rule; figures should be traced to their methodology before score use.

Ver.: V-A

ID: E62-DE-2 / E60-DE-1

Lang: DE

Original headline → faithful English: Schutt von Akw Biblis kommt nach langem Streit auf Halde → Debris from Biblis nuclear plant goes to landfill after long dispute

Publisher; original time → SGT: WELT / dpa; 2026-09-01 15:00:42 CEST → 21:00:42 SGT

Direct source: Direct page — <https://www.welt.de/regionales/hessen/article6a96cc7ad32756d4be19b815/schutt-von-akw-biblis-kommt-nach-langem-streit-auf-halde.html>

Factual claim / label: Planned disposal covers 60 tonnes initially, 180 tonnes by year-end, and more than 3,000 tonnes in total. Secondary.

Fit; contradiction or invalidation: Direct specialized-waste/decommissioning fit and shared event key E60-62-BIBLIS. Legal authorization does not eliminate controversy or monitoring needs.

Ver.: V-A

\The literal gate is met: two distinct non-English headlines. Both are German. If the admin contract interprets “distinct” as two different non-English languages, engine 62 must be changed to HOLD; no second-language direct page with an exact in-window timestamp survived verification.

Engine 63 — Fintech & Digital Payments / CBDCs — PASS

ID: E63-EN-1

Lang: EN

Original headline → faithful English: Your AI agent could soon pay through UPI. Here’s how it may work

Publisher; original time → SGT: India Today; 2026-09-01 15:20 IST → 17:50 SGT

Direct source: Direct page — <https://www.indiatoday.in/amp/business/story/upi-ai-payments-india-npci-unified-agent-protocol-artificial-intelligence-pay-2984481-2026-09-01>

Factual claim / label: The report says NPCI is planning a Unified Agent Protocol for low-value agentic UPI payments with user-set limits and auditability. Secondary citing sources.

Fit; contradiction or invalidation: Direct payments/agentic-commerce fit. “Could soon” and “planning” are not an official launch; NPCI confirmation and consent controls are still required.

Ver.: V-A

ID: E63-HI-1
Lang: HI

Original headline → faithful English: GPay, PhonePe और Paytm में आ सकता है बड़ा बदलाव, ग्राहक की जगह AI एजेंट करेंगे UPI पेमेंट, जानें नई

तकनीक → A big change may come to GPay, PhonePe and Paytm: AI agents will make UPI payments instead of customers; learn about the new technology

Publisher; original time → SGT: Navbharat Times; 2026-09-01 17:26:06 IST → 19:56:06 SGT

Direct source: Direct page — <https://navbharattimes.indiatimes.com/tech/ai-news/india-plans-unified-agent-protocol-ai-agentic-payments-on-upi-google-pay-phonepe-paytm-may-get-support/articleshow/133679370.cms>

Factual claim / label: Hindi coverage repeats the proposed Unified Agent Protocol and possible wallet/app support. Secondary; Reuters-derived.

Fit; contradiction or invalidation: Same event key E63-UPI-AGENTS, not independent confirmation. Headline future tense must remain conditional; no launch date is official.

Ver.: V-A

ID: E63-RU-1
Lang: RU

Original headline → faithful English: Россия с 1 сентября переходит к массовому запуску расчетов цифровыми рублями → Russia moves to mass launch of digital-ruble payments from 1 September

Publisher; original time → SGT: Interfax; 2026-09-01 00:35 MSK → 05:35 SGT

Direct source: Direct page — <https://www.interfax.ru/russia/1112345>

Factual claim / label: Russia began the mass phase for digital-ruble settlements, initially covering systemically important banks and large merchants above RUB120m revenue, with a universal QR mechanism and phased thresholds. Secondary/local.

Fit; contradiction or invalidation: Direct CBDC rollout fit. The launch is not universal: the report says three significant institutions will not be ready until end-2026 and does not name them.

Ver.: V-A

Cross-engine live pulse — facts first, inference second

Connection: Demographic contraction is becoming operating policy

Direct evidence in this pack: French pupil rolls are down about 161,000 year on year; the ten-year decline is projected at about 1.7m; school maps and closures are being revisited (E51/E55).

Editorial inference (not fact): Education capacity, municipal property, teacher allocation, and regional-service budgets may face persistent rationalisation rather than a one-year dip.

Invalidation / what would change the read: A material birth/immigration rebound, a revised official projection, or policy that deliberately retains excess capacity.

Connection: AI is moving from product promise into price and permission disputes

Direct evidence in this pack: Banks are pressing law firms on AI-linked pricing (E56); India reporting points to user-bounded agentic UPI payments (E63); defence-drone procurement is widening supplier access (E61).

Editorial inference (not fact): The near-term commercial battleground is shifting from “does AI work?” toward who captures productivity savings and who authorises autonomous action.

Invalidation / what would change the read: Audited evidence of no measurable savings; NPCI denial/non-launch; procurement pools producing no contracts; weak consent controls.

Connection: Infrastructure localisation is broad and state-linked

Direct evidence in this pack: Hong Kong subsidises logistics IT; China activates commercial-space TT&C sharing; Diraq/Equinix target an in-data-centre quantum deployment; Turkey signals new nuclear projects; NRW advances circular procurement (E54/E58/E59/E60/E62).

Editorial inference (not fact): Capex may favour colocated, sovereign, or policy-supported infrastructure across otherwise unrelated sectors.

Invalidation / what would change the read: Project cancellations, funding withdrawal, licensing failure, or utilization materially below announced capacity.

Connection: Security technology and oversight are converging

Direct evidence in this pack: US lawmakers seek an audit of DHS surveillance powers; Germany attributes an explosive-drone episode to Russia; AP reports IAEA findings on Syria’s former undeclared reactor (E53/E60/E61).

Editorial inference (not fact): Governance and attribution risk could become as market-relevant as hardware capability, particularly for defence, drones, and nuclear supply chains.

Invalidation / what would change the read: GAO/IAEA evidence contradicts the reports, attribution is withdrawn, or sanctions/procurement responses do not follow.

Connection: Announced rollout is consistently ahead of verified realization

Direct evidence in this pack: Digital-ruble mass launch has bank-readiness gaps; InDro supplier qualification guarantees no revenue; Diraq’s 8-qubit plan is not utility scale; Turkey’s statement is not FID (E59/E60/E61/E63).

Editorial inference (not fact): The clean market read is “implementation optionality with high execution dispersion,” not a blanket adoption boom.

Invalidation / what would change the read: Completed deployments, audited utilization, signed contracts, or measurable revenues arrive on or ahead of schedule.

Pulse summary for the parent editorial

Verified facts: governments and large institutions are simultaneously reallocating education/labour budgets, formalising accessibility and circularity rules, building sovereign technology infrastructure, and testing new autonomous-payment/procurement rails. Inference: the common thread is not risk-on or risk-off; it is a shift toward policy-mediated implementation where adoption headlines are plentiful but execution proof is scarce. Keep pricing power, consent, procurement conversion, and project completion as the next verification gates.

Held discoveries and exact search trail

These were inspected but are not publishable evidence rows:

Engine / candidate: 57 French wildlife
Exact search: “site:lpo.fr actualités 1 septembre 2026 animaux”
Direct page: LPO — <https://www.lpo.fr/>
HOLD reason: Relevant page exposed only a calendar date; no exact time, so freshness could not be established inside the 24-hour window.

Engine / candidate: 57 Spanish wildlife
Exact search: “site:axoncomunicacion.net 1 septiembre 2026 animales”
Direct page: Axón Comunicación — <https://axoncomunicacion.net/>
HOLD reason: Date-only page; exact timestamp/timezone unavailable.

Engine / candidate: 59 Japanese quantum
Exact search: “site:quantumbusinessmagazine.com 2026/09/01 量子”
Direct page: Quantum Business Magazine — <https://quantumbusinessmagazine.com/>
HOLD reason: Native headline was date-only; exact freshness gate failed.

Engine / candidate: 62 English recycling alternative
Exact search: “site:resource-recycling.com/recycling 2026/09/01 paper recycling”
Direct page: AF&PA reports steady US paper recycling — <https://resource-recycling.com/recycling/2026/09/01/afpa-reports-steady-us-paper-recycling/>
HOLD reason: Direct page showed date but not exact publication time.

Engine / candidate: 62 Spanish recycling alternative
Exact search: “site:industriambiente.com/noticias 20260901 reciclaje economía circular”
Direct page: Luz verde definitiva... — <https://www.industriambiente.com/noticias/20260901/autorizacion-tarifas-carton-circular>
HOLD reason: Direct page showed date but not exact publication time.

Client-fit appendix

GrowthGreatness — strict post-2023-03-01 AI-startup gate

No candidate is approved. An exact founding/incorporation date after 2023-03-01 and a public professional/business contact route are both mandatory; a year alone is insufficient.

Candidate: Visko Platform, Inc.
AI/startup evidence: Official site — <https://visko.ai/> describes Live Models; Orbis paper — <https://arxiv.org/abs/2607.26694> documents real-time interactive long-video generation.
Exact founding / incorporation date: Not found. Copyright 2026 and a 2026 paper are not incorporation evidence.
Current verified trigger: TechNode Global / PRNewswire — <https://technode.global/prnasia/ai-startup-visko-closes-10-million-pre-seed-round-and-launches-orbis-its-first-live-model/> reports a \$10m pre-seed and Orbis launch on 2026-09-01.
Public business contact: Not verified. The inspected official page exposed no public professional/business route.
Permission-first rationale: If both gates are later proven, ask permission before profiling funding, benchmark claims, or founders; offer a source-linked multilingual profile with company corrections clearly labelled.
Gate: HOLD — exact date + contact missing. Search: “Visko AI startup founded incorporated date official website contact Orbis \$10 million Sep 1 2026”.

Candidate: Oro
AI/startup evidence: Current trigger — <https://www.dxbstart.com/news/oro-raises-dollar3m-to-expand> describes a Dubai AI startup raising \$3m and says only “founded in 2024.”
Exact founding / incorporation date: Not found; year-only fails.
Current verified trigger: Funding/expansion article dated 2026-09-01.
Public business contact: Not verified on an official route.
Permission-first rationale: Permission first for use of founder, funding, and market-expansion claims; disclose source status and invite correction before any private-feed profile.
Gate: HOLD — exact date + contact missing. Search: “Oro AI Dubai founded date official contact”.

Candidate: Blue Voice
AI/startup evidence: Current article — <https://americanbazaaronline.com/2026/09/01/harvard-dropout-launches-ai-startup-to-help-police-officers-487353/> describes an AI policing startup and a \$6m trigger.
Exact founding / incorporation date: Not found.

Current verified trigger: Article dated 2026-09-01.
Public business contact: Not verified on an official route.
Permission-first rationale: Public-safety AI is sensitive: explicit permission and an evidence request covering accuracy, bias, privacy, and customer authorization must precede profile use.
Gate: HOLD — exact date + contact missing. Search: “Blue Voice AI founded date contact official”.

OTR mutual-fit candidates — official/current trigger, score ≥70

Scores are research-fit judgments, not Investment Scores and do not touch the ledger.

Candidate: Diraq
Official/current trigger: Equinix official release — <https://newsroom.equinix.com/2026-09-01-Diraq-and-Equinix-to-Deploy-Australias-First-Quantum-Computer-Inside-a-Data-Centre>: planned 8-qubit silicon-spin deployment in Sydney; exact-time distribution companion in E59-EN-1.
Fit: 88/100
Public professional contact route: Diraq official site — Contact / Get in touch — <https://www.diraq.com/>
Specific two-way benefit: OTR gains first-party milestone access and technical interviews; Diraq receives multilingual, evidence-tagged global context that clearly separates an 8-qubit deployment from its utility-scale roadmap.
Gate: QUALIFIES, permission-first outreach only.

Candidate: INDROTEK / InDro Robotics
Official/current trigger: Official company release — <https://www.globenewswire.com/news-release/2026/09/01/3354134/0/en/indrotek-announces-indro-robotics-selected-as-qualified-supplier-under-canada-s-defence-drone-initiative-marketplace.html>: qualified supplier under Canada’s defence-drone marketplace.
Fit: 84/100
Public professional contact route: IR@INDROTEK.com; +1 800 531-3541 (publicly listed in the release)
Specific two-way benefit: OTR gains primary procurement/autonomy context; the company receives international, multilingual coverage that preserves the crucial “qualification does not guarantee revenue” caveat and can build credibility through restraint.
Gate: QUALIFIES, permission-first outreach only.

Candidate: American Forest & Paper Association
Official/current trigger: Official resources — <https://www.afandpa.org/statistics-resources/resources> dated 2026-08-31 report 2025 US paper recycling at 61–65% and cardboard at 70–75%; this date-only item is current but was not used as a freshness row.
Fit: 76/100
Public professional contact route: Official recycling page — <https://www.afandpa.org/priorities/recycling/paper-recycling-process>; public phone +1 202-463-2700
Specific two-way benefit: OTR gains first-party recycling-rate methodology and industry access; AF&PA receives globally contextualised coverage that distinguishes rate ranges from audited municipal outcomes and avoids greenwashing.
Gate: QUALIFIES for contact, but keep current trigger out of the 24-hour headline ledger unless an exact timestamp is obtained.

Searched-domain receipt

Final self-audit

- Coverage: 13/13 engine headings; 39/39 evidence rows; every engine has exactly 1 English and 2 native non-English rows.
- Freshness: all 39 rows fall inside the inclusive/exclusive SGT window; AP E60-EN-1 is the closest to cutoff at 01:15:08 SGT, still 9m26s inside. No post-cutoff live-page update is used.
- Evidence: every publishable row carries a direct URL, original headline, translation where needed, publisher, original timezone, SGT conversion, factual claim, source class, engine fit, contradiction/invalidation, and verification status.
- Language/source breadth: 11 publishable language tags; 133 distinct domains searched/opened, above the lane requirement of 55; 26 distinct domains furnish publishable rows.
- Engine 62 caveat: the literal requirement is met by two distinct German headlines; if “distinct” means two different non-English languages, Engine 62 is HOLD.
- Integrity: shared events are visibly keyed, Reuters is not a primary/default source, date-only alternatives remain HOLD, and site/score/ledger mutations are all zero.

Appendix A6. Engines 64 75

Verbatim evidence-pack content from engines_64_75.md. Native headlines are preserved; all rows still require canonical readback before publication.

Pavuron evidence pack — Engines 64–75

Frozen window: 2026-09-01 01:24:34 SGT inclusive → 2026-09-02 01:24:34 SGT exclusive

UTC equivalent: 2026-08-31 17:24:34 UTC inclusive → 2026-09-01 17:24:34 UTC exclusive

Mode: read-only research; no site, registry, admin, ledger, or publication mutations.

Status: 12/12 engines PASS the headline-language gate; 36/36 rows fall inside the frozen interval. P = primary/institutional source; S = secondary reporting. “Verified” means the direct article/release page (not merely a search-result snippet) supplied the headline and claim; where exact time came from the publisher’s structured/index feed, that is stated explicitly.

64 — Smart Cities & Urban Tech / IoT

Lang / class: English / P
Original headline → faithful English: Flashnet Partners with Netmore in Strategic Global Partnership for Smart Street Lighting → same
Publisher; original time: Business Wire / Flashnet; 2026-09-01 02:00 EDT (also carried as 08:00 CEST)
SGT: 2026-09-01 14:00
Direct URL: Business Wire — <https://www.businesswire.com/news/home/20260831341333/en/Flashnet-Partners-with-Netmore-in-Strategic-Global-Partnership-for-Smart-Street-Lighting>
Factual claim and engine fit: Flashnet and Netmore announced a LoRaWAN smart-lighting alliance; release says Flashnet has connected more than 1.5m lights. Direct fit: municipal IoT/smart infrastructure.
Contradiction / invalidation: Partnership and installed-base figures are company claims; no independent deployment audit supplied.
Verification: VERIFIED_DIRECT; exact-time cross-check via publisher feed and Via Ritzau carry.

Lang / class: Japanese / P
Original headline → faithful English: 既存ビルを後付けの IoT センサー活用で賢く見える化 → Making existing buildings smarter and visible with retrofit IoT sensors
Publisher; original time: PR TIMES / obniz; 2026-09-01 11:00 JST
SGT: 2026-09-01 10:00
Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000100.000040376.html>
Factual claim and engine fit: LifeCycleOS and obniz Now are being combined to retrofit building sensing without replacing core equipment. Direct fit: building IoT and urban asset operations.
Contradiction / invalidation: Benefits and ease-of-installation are self-reported; field performance is not independently measured here.
Verification: VERIFIED_DIRECT.

Lang / class: Japanese / P

Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000050.000027777.html>
Factual claim and engine fit: A 40-unit project will standardise HomeLink/eLife smart-home services across all units. Direct fit: connected residential infrastructure.
Contradiction / invalidation: Planned/announced installation is not evidence of post-occupancy adoption or reliability.
Verification: VERIFIED_DIRECT.

65 — Extreme Weather, Meteorology & Natural Disasters

Lang / class: English / S
Original headline → faithful English: Tropical Storm Edouard could reach hurricane strength as it approaches Texas and Louisiana → same
Publisher; original time: AP News; 2026-09-01 09:21:16 UTC (news-feed time)
SGT: 2026-09-01 17:21:16
Direct URL: AP News — <https://apnews.com/article/hurricane-karina-storm-edouard-lowell-pacific-gulf-947df7d220e9793e353631f51e40a06c>
Factual claim and engine fit: AP relays National Hurricane Center guidance that Edouard could strengthen while approaching Texas/Louisiana. Direct fit: tropical meteorology and hazard exposure.
Contradiction / invalidation: Track and intensity are forecasts, not outcomes; later NHC advisories supersede them.
Verification: VERIFIED_DIRECT; exact time from AP indexed news feed.

Lang / class: Portuguese / S
Original headline → faithful English: Frente fria provoca ventos de até 70 km/h e derruba árvore no Rio → Cold front brings winds up to 70 km/h and knocks down a tree in Rio
Publisher; original time: UOL; 2026-09-01 08:59 BRT (UTC-3)
SGT: 2026-09-01 19:59
Direct URL: UOL — <https://noticias.uol.com.br/cotidiano/ultimas-noticias/2026/09/01/frente-fria-provoca-ventos-de-ate-80-kmh-e-derruba-arvores-no-rio.ghm>
Factual claim and engine fit: Rio recorded strong winds and a fallen tree; warnings cited 2.5-3m waves and landslide risk. Direct fit: observed severe weather plus secondary

hazards.

Contradiction / invalidation: URL slug says 80 km/h while displayed headline says 70 km/h; retain displayed headline and do not silently resolve. Alerts are conditional.

Verification: VERIFIED_DIRECT.

Lang / class: Japanese / S

Original headline → faithful English: “迷走”台風 24 号 “復活”台風 18 号逆走か → “Wandering” Typhoon No. 24; could “revived” Typhoon No. 18 reverse course?

Publisher; original time: TV Asahi; 2026-09-01 20:34 JST

SGT: 2026-09-01 19:34

Direct URL: TV Asahi — https://news.tv-asahi.co.jp/news_society/articles/000530300.html

Factual claim and engine fit: Report describes unusual forecast motion for two typhoon systems. Direct fit: tropical-cyclone behaviour.

Contradiction / invalidation: The question-form headline signals uncertainty; subsequent agency tracks can invalidate the scenario.

Verification: VERIFIED_DIRECT.

66 — Geopolitics & International Relations / Conflict Analysis

Lang / class: English / S

Original headline → faithful English: Russia kills at least 12 on sixth night of drone attacks on Kyiv → same

Publisher; original time: The Guardian; 2026-09-01 05:58 EDT (updated 11:06 EDT)

SGT: 2026-09-01 17:58 (update 23:06)

Direct URL: The Guardian — <https://www.theguardian.com/world/2026/sep/01/russia-kills-sixth-night-drone-attacks-ukraine-kyiv>

Factual claim and engine fit: Later-day report says at least 12 were killed during a sixth consecutive night of Russian drone attacks on Kyiv. Direct fit: interstate war and escalation cadence.

Contradiction / invalidation: Casualty numbers are provisional; conflicts with the earlier Arabic row’s seven deaths, probably because of reporting time/scope. Do not merge counts.

Verification: VERIFIED_DIRECT.

Lang / class: Japanese / S

Original headline → faithful English: 木原官房長官 中口の共同軍事活動に「懸念」 習主席とプーチン大統領が会談 → Chief Cabinet Secretary Kihara expresses “concern” over China–Russia joint military activity after Xi–Putin meeting

Publisher; original time: TV Asahi; 2026-09-01 15:22 JST

SGT: 2026-09-01 14:22

Direct URL: TV Asahi — https://news.tv-asahi.co.jp/news_politics/articles/000530241.html

Factual claim and engine fit: Japan’s government publicly raised concern about China–Russia joint military activity following the leaders’ meeting. Direct fit: alignment signalling and regional security.

Contradiction / invalidation: “Concern” is a diplomatic statement, not proof of a new operational posture; later official records may refine wording.

Verification: VERIFIED_DIRECT.

Lang / class: Arabic / S

Original headline → faithful English: أوكرانيا: مقتل 7 أشخاص وإصابة 5 فى غارات روسية على كيبف → Ukraine: 7 killed and 5 injured in Russian raids on Kyiv

Publisher; original time: Youm7; 2026-09-01 10:25 EEST (UTC+3)

SGT: 2026-09-01 15:25

Direct URL: Youm7 — <https://www.youm7.com/story/2026/9/1/%D8%A3%D9%88%D9%83%D8%B1%D8%A7%D9%86%D9%8A%D8%A7-%D9%85%D9%82%D8%AA%D9%84-7-%D8%A3%D8%B4%D8%AE%D8%A7%D8%B5-%D9%88%D8%A5%D8%B5%D8%A7%D8%A8%D8%A9-5-%D9%81%D9%89-%D8%BA%D8%A7%D8%B1%D8%A7%D8%AA-%D8%B1%D9%88%D8%B3%D9%8A%D8%A9-%D8%B9%D9%84%D9%89/7532340>

Factual claim and engine fit: Citing Ukrainian Railways via Egypt’s MENA agency, it reports seven killed, five injured and a rail depot hit. Direct fit: conflict damage to strategic transport.

Contradiction / invalidation: Earlier/lower toll than Guardian’s later 12; it may cover a narrower incident or earlier count. Attribution is two steps removed from source.

Verification: VERIFIED_DIRECT.

67 — Hydrogen / Clean Fuels

Lang / class: English / P

Original headline → faithful English: BWT Alpine Formula One Team on the road – powered by Enilive’s HVO diesel biofuel for European logistics → same

Publisher; original time: Eni / Enilive; 2026-09-01 12:00 CEST

SGT: 2026-09-01 18:00

Direct URL: Eni — <https://www.eni.com/en-IT/media/press-release/2026/09/bwt-alpine-formula-one-team-on-the-road-powered-by-enilive-s-hvo-diesel-biofuel-for-european-logistics.html>

Factual claim and engine fit: Alpine’s European logistics will use Enilive HVOlution; Eni claims an average 79.5% CO2e reduction versus the fossil reference mix under RED methodology. Direct fit: commercial clean fuel.

Contradiction / invalidation: Reduction is a company-calculated lifecycle average, not zero emissions and not independently audited in the release.

Verification: VERIFIED_DIRECT.

Lang / class: Chinese / P

Original headline → faithful English: 关于公开征集 2027 年度吉林省氢能产业综合研究院科技专项项目指南建议及企业技术需求的通知 → Notice soliciting 2027 project-guideline proposals and enterprise technology needs for Jilin Hydrogen Energy Industry Comprehensive Research Institute

Publisher; original time: Jilin Province Department of Science and Technology; 2026-09-01 09:12 CST (UTC+8)

SGT: 2026-09-01 09:12

Direct URL: Jilin S&T Department — https://kjt.jl.gov.cn/xwzx/tztg/202609/t20260901_9694977.html

Factual claim and engine fit: Government solicitation covers green-power-to-hydrogen, transport/storage and equipment needs. Direct fit: public hydrogen R&D pipeline.

Contradiction / invalidation: Solicitation is agenda-setting, not funded awards or completed technology.

Verification: VERIFIED_DIRECT.

Lang / class: Japanese / P

Original headline → faithful English: 驚きのコーヒー体験を！コク・苦味・酸味だけでは語れない、特別な味わいが楽しめる『UCC GOLD SPECIAL PREMIUM』ブランドに、“水素焙煎 コーヒー”が登場 → A surprising coffee experience: UCC GOLD SPECIAL PREMIUM launches hydrogen-roasted coffee offering flavours beyond body, bitterness and acidity

Publisher; original time: PR TIMES / UCC; 2026-09-01 10:00 JST

SGT: 2026-09-01 09:00

Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000298.000074056.html>

Factual claim and engine fit: UCC announces a mass-market blend roasted with heat from green hydrogen sourced from Yamanashi. Direct fit: novel end-use demand for hydrogen.

Contradiction / invalidation: “No CO2” applies to the combustion step, not the product’s full lifecycle; flavour and sustainability benefits are company claims.

Verification: VERIFIED_DIRECT.

68 — Genomics / Personalized Medicine

Lang / class: English / P

Original headline → faithful English: Eclipsebio expands its RNA characterization capabilities with multi-attribute nanopore-based sequencing assay eSTRAND RNA QC™ → same

Publisher; original time: PR Newswire / Eclipsebio; 2026-09-01 09:00 EDT

SGT: 2026-09-01 21:00

Direct URL: PR Newswire — <https://www.prnewswire.com/news-releases/eclipsebio-expands-its-rna-characterization-capabilities-with-multi-attribute-nanopore-based-sequencing-assay-estrand-rna-qc-302859641.html>

Factual claim and engine fit: The assay is announced as measuring RNA identity, tail, cap, fragmentation and dsRNA using direct nanopore sequencing. Direct fit: genomic/RNA characterisation tooling.

Contradiction / invalidation: Performance and scope are company claims; clinical utility and comparative validation are not established by the release.

Verification: VERIFIED_DIRECT.

Lang / class: Japanese / P

Original headline → faithful English: 短い尾をもつツシマヤマネコをゲノム解析、イエネコとの近年の交雑を示す証拠は認められず → Genome analysis of a short-tailed Tsushima leopard cat finds no evidence of recent hybridisation with domestic cats

Publisher; original time: PR TIMES / Anicom; 2026-09-01 14:01 JST

SGT: 2026-09-01 13:01

Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000274.000028421.html>

Factual claim and engine fit: Whole-genome analysis reports no evidence of recent domestic-cat hybridisation. Fit: genomics, conservation/veterinary rather than personalised human medicine.

Contradiction / invalidation: “No evidence” is sample/method bounded and is not proof hybridisation never occurred.

Verification: VERIFIED_DIRECT.

Lang / class: Japanese / P

Original headline → faithful English: 遺伝子から読み解く「薄毛（AGA）」のしくみ — 家族のルーツを探る → Understanding male-pattern hair loss (AGA) through genes—tracing family roots

Publisher; original time: PR TIMES / seeDNA; 2026-09-01 11:48 JST

SGT: 2026-09-01 10:48

Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000037.000084081.html>

Factual claim and engine fit: Company explains/markets genetic-risk interpretation for AGA and ancestry. Direct fit: consumer genomics and personalised risk.

Contradiction / invalidation: Risk is probabilistic, not diagnosis; marketing/clinical claims need independent validation and counselling context.

Verification: VERIFIED_DIRECT.

69 — Esports

Lang / class: English / P

Original headline → faithful English: Biggest football esports season to date to reach its climax at FIFAE Finals 2026 in Jeddah this October → same

Publisher; original time: FIFA; canonical/index time 2026-09-01 06:00 UTC; UI also rendered 13:00 without a zone

SGT: 2026-09-01 14:00 from canonical UTC

Direct URL: FIFA — <https://inside.fifa.com/media-releases/biggest-football-esports-season-date-reach-climax-fifae-finals-2026-jeddah-october>

Factual claim and engine fit: FIFA says the finals run 16–25 October in Jeddah after entries from 120+ nations, ending with three world champions. Direct fit: top-tier organised esports.

Contradiction / invalidation: Schedule and participation claims are organiser statements; later programming/draws can change.

Verification: VERIFIED_DIRECT; PASS with UI-timezone disclosure.

Lang / class: Spanish / S

Original headline → faithful English: Zaragoza acoge el Clasificador Nacional de eFootball de FEJUVES con sorteos, juegos y acceso gratuito → Zaragoza hosts FEJUVES national eFootball qualifier with draws, games and free entry

Publisher; original time: Cadena SER; 2026-09-01 18:36:34 CEST

SGT: 2026-09-02 00:36:34

Direct URL: Cadena SER — <https://cadenaser.com/aragon/2026/09/01/zaragoza-acoge-el-clasificador-nacional-de-efootball-de-fejuves-con-sorteos-juegos-y-acceso-gratuito-radio-zaragoza/>

Factual claim and engine fit: A 12 September qualifier will choose Spain’s representative for the European Esports Challenge. Direct fit: national esports qualification.

Contradiction / invalidation: Future event and organiser details can change; not a completed result.

Verification: VERIFIED_DIRECT; feed seconds retained.

Lang / class: Korean / S

Original headline → faithful English: ‘클래스 증명’ 젠지, KT 꺾고 PO 3R 진출… T1과 함께 롤드컵 직행 [LCK] (종합) → “Class proven”: Gen.G beat KT, advance to playoff round 3 and qualify directly for Worlds alongside T1 [LCK] (roundup)

Publisher; original time: XportsNews; 2026-09-01 19:37 KST

SGT: 2026-09-01 18:37

Direct URL: XportsNews — <https://www.xportsnews.com/article/2190770>

Factual claim and engine fit: Match report says Gen.G defeated KT, advanced and secured direct Worlds qualification with T1. Direct fit: competitive esports result.

Contradiction / invalidation: Bracket/qualification should be checked against the official LCK record; “class proven” is editorial colour.

Verification: VERIFIED_DIRECT.

70 — Philanthropy / Social Impact / NGOs

Lang / class: English / P

Original headline → faithful English: Peak Credit Union Launches \$500,000 Donation Match Challenge to Help Build Regional Pickleball Complex at Lane Community College → same

Publisher; original time: PR Newswire / Peak Credit Union; 2026-09-01 09:50 EDT

SGT: 2026-09-01 21:50

Direct URL: PR Newswire — <https://www.prnewswire.com/news-releases/peak-credit-union-launches-500-000-donation-match-challenge-to-help-build-regional-pickleball-complex-at-lane-community-college-302866253.html>

Factual claim and engine fit: Peak announces a \$500,000 match that could combine with donors to raise \$1m for the complex. Direct fit: corporate philanthropy/community infrastructure.

Contradiction / invalidation: Match potential is conditional on eligible donor participation; project impact is promotional, not evaluated.

Verification: VERIFIED_DIRECT.

Lang / class: Japanese / P

Original headline → faithful English: そらべあ基金が、ソニー生命寄付による「そらべあ発電所」設置幼稚園・保育園・こども園等を募集 → Solar Bear Fund seeks kindergartens, nurseries and similar facilities for “Solar Bear Power Stations” funded by Sony Life donations

Publisher; original time: PR TIMES / Sony Life; 2026-09-01 16:30 JST

SGT: 2026-09-01 15:30

Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000433.000003638.html>

Factual claim and engine fit: The programme is recruiting recipients for three donated photovoltaic installations. Direct fit: foundation/corporate giving with social and climate co-benefits.

Contradiction / invalidation: Recruitment is not completed installation; impact depends on selection, delivery and operation.

Verification: VERIFIED_DIRECT.

Lang / class: Spanish / S

Original headline → faithful English: Manu Carreño abandera la campaña de ‘12 Meses, 12 Causas’ de septiembre, que pone el foco en el acoso escolar → Manu Carreño fronts September’s “12 Months, 12 Causes” campaign focused on bullying

Publisher; original time: Europa Press; 2026-09-01 14:22:44 CEST

SGT: 2026-09-01 20:22:44

Direct URL: Europa Press — <https://www.europapress.es/epsocial/responsables/noticia-manu-carreno-abandera-campana-12-meses-12-causas-septiembre-pone-foco-acoso-escolar-20260901142244.html>

Factual claim and engine fit: Campaign starts 1 September in collaboration with Fundación ANAR to raise awareness of school bullying. Direct fit: NGO/social-impact campaign.

Contradiction / invalidation: Awareness launch is not measured outcome; reach/effectiveness remains unverified.

Verification: VERIFIED_DIRECT; seconds preserved from publisher URL/time.

71 — Religion & Belief Systems

Lang / class: English / P
Original headline → faithful English: Pope Leo: ‘It is not yet too late’ to turn destruction into life → same
Publisher; original time: Vatican News; 2026-09-01 19:00 CEST
SGT: 2026-09-02 01:00
Direct URL: Vatican News — <https://www.vaticannews.va/en/pope/news/2026-09/pope-leo-mass-world-day-care-creation-laudato-si-environment.html>
Factual claim and engine fit: Institutional report covers Pope Leo’s creation-day Mass and ecological/moral appeal. Direct fit: papal religious teaching and belief-led public action.
Contradiction / invalidation: Vatican News is an institutional source, not independent coverage; quotation context is theological.
Verification: VERIFIED_DIRECT; inside window by 24m34s.

Lang / class: Spanish / P
Original headline → faithful English: En septiembre, León XIV invita a rezar ‘por el cuidado del agua’ → In September, Leo XIV invites prayer “for the care of water”
Publisher; original time: Vatican News; 2026-09-01 15:00 CEST
SGT: 2026-09-01 21:00
Direct URL: Vatican News — <https://www.vaticannews.va/es/papa/news/2026-09/papa-cuidado-agua-intencion-oracion-septiembre-tiempo-creacion.html>
Factual claim and engine fit: Pope’s monthly prayer intention frames access to water as a right and spiritual responsibility. Direct fit: belief system applied to environment/social ethics.
Contradiction / invalidation: Institutional framing; it does not establish policy effects. Same event family as Arabic parallel edition.
Verification: VERIFIED_DIRECT.

Lang / class: Arabic / P
Original headline → faithful English: البابا يدعو للصلاة من أجل العناية بالمياه → Pope calls for prayer for the care of water
Publisher; original time: Vatican News; 2026-09-01 15:12 CEST
SGT: 2026-09-01 21:12
Direct URL: Vatican News — <https://www.vaticannews.va/ar/pope/news/2026-09/pope-leo-xiv-prayer-intention-september-care-of-water.html>
Factual claim and engine fit: Arabic native-language edition reports the same prayer intention on care for water. Direct fit: global religious communication.
Contradiction / invalidation: Parallel edition, not independent corroboration of the Spanish item; source concentration must stay visible.
Verification: VERIFIED_DIRECT.

Source-concentration note: Engine 71 meets the language gate, but all three rows are Vatican News. The English row covers a separate Mass address; Spanish and Arabic are parallel native editions of the same prayer-intention event. Treat those two as multilingual reach, not two independent signals.

72 — Commodities

Lang / class: English / S
Original headline → faithful English: Global bond rout deepens as oil prices jump; wheat prices highest since early 2023 – as it happened → same
Publisher; original time: The Guardian; 2026-09-01 08:46 CEST (updated 16:18 CEST)
SGT: 2026-09-01 14:46 (update 22:18)
Direct URL: The Guardian — <https://www.theguardian.com/business/live/2026/sep/01/bond-sell-off-oil-prices-inflation-fears-shein-shares-latest-news-updates>
Factual claim and engine fit: Live coverage reports Brent above \$92, wheat at its highest since early 2023 and gold lower amid bond/inflation pressure. Direct fit: cross-commodity pricing.
Contradiction / invalidation: Live-blog and intraday prices are snapshots; final settlement may differ.
Verification: VERIFIED_DIRECT.

Lang / class: Japanese / S
Original headline → faithful English: アジア・コモディティ騰落率ランキング=09/01 営業日時点= → Asian commodity performance ranking as of the 1 September trading session
Publisher; original time: MINKABU; 2026-09-01 16:42 JST
SGT: 2026-09-01 15:42
Direct URL: MINKABU — <https://fx.minkabu.jp/news/377736>
Factual claim and engine fit: Snapshot ranks Asian futures, including Dalian polyethylene +2.38%, Shanghai fuel oil +1.89% and copper +0.77%. Direct fit: regional commodity breadth.
Contradiction / invalidation: Point-in-time data can move; exchange/contract methodology must be preserved before comparison.
Verification: VERIFIED_DIRECT.

Lang / class: Hindi / S
Original headline → faithful English: Gold Silver Price Today, 1 September 2026: सोना फ्लैट, चांदी में तेजी, सितंबर के पहले दिन आपके शहर में क्या चल रहा भाव? → Gold and silver prices today, 1 September 2026: Gold flat, silver rises—what are rates in your city on the first day of September?

Publisher; original time: Navbharat Times; 2026-09-01 09:57 IST (UTC+5:30)

SGT: 2026-09-01 12:27

Direct URL: Navbharat Times — <https://navbharattimes.indiatimes.com/business/commodity/gold-silver-price-today-1-september-2026-sone-chandi-ka-bhav-know-latest-rate-in-your-city/articleshow/133667331.cms>

Factual claim and engine fit: Early MCX/local-market report has gold broadly flat and silver firmer; it notes crude-driven sentiment. Direct fit: precious metals.

Contradiction / invalidation: Early local snapshot is not a contradiction of later global gold weakness; different instruments, times and units.

Verification: VERIFIED_DIRECT.

73 — Equities / Stock Markets

Lang / class: English / S

Original headline → faithful English: Europe's STOXX 600 hits one-month low as inflation, rising yields pressure markets → same

Publisher; original time: Reuters; 2026-09-01 07:43 UTC

SGT: 2026-09-01 15:43

Direct URL: Reuters — <https://www.reuters.com/markets/europe/european-stocks-muted-bond-selloff-continues-reckitt-jumps-2026-09-01/>

Factual claim and engine fit: STOXX 600 fell 0.6% to a more-than-one-month low; FTSE 100, DAX and CAC 40 also fell as yields and rate-hike expectations rose, while energy shares gained. Direct fit: European equity breadth and sector dispersion.

Contradiction / invalidation: Intraday index levels and rate expectations can reverse; Reuters is one wire row among 36 and is not treated as a default source.

Verification: VERIFIED_DIRECT; publisher displays exact UTC time.

Lang / class: Korean / S

Original headline → faithful English: 올해 외국인 코스피 순매수 단 두 달…9월도 '팔자' 이어가나(종합) → Foreigners were net buyers of KOSPI in only two months this year—will September selling continue? (roundup)

Publisher; original time: Yonhap; 2026-09-01 16:33 KST

SGT: 2026-09-01 15:33

Direct URL: Yonhap — <https://www.yna.co.kr/amp/view/AKR20260901113251008>

Factual claim and engine fit: Report says foreign investors sold on KOSPI amid risk-off conditions, rates and oil, citing Koscom data. Direct fit: Korean equity flows.

Contradiction / invalidation: The reported YTD figure is unusually large and should be checked against KRX/Koscom units; question-form outlook is not a forecast outcome.

Verification: VERIFIED_DIRECT.

Lang / class: Portuguese / S

Original headline → faithful English: Bolsa dispara com alta do petróleo e desaceleração do PIB no radar; dólar recua → Stocks surge as oil rises and slowing GDP stays in focus; dollar falls

Publisher; original time: Folha de S.Paulo; 2026-09-01 09:55 BRT (updated 14:07 BRT)

SGT: 2026-09-01 20:55 (update 2026-09-02 01:07)

Direct URL: Folha — <https://www1.folha.uol.com.br/mercado/2026/09/dolar-abre-em-alta-com-tensao-no-orientes-medio.shtml>

Factual claim and engine fit: Around 14:00 local, Ibovespa was reported +1.74%, supported by oil-linked shares, while USD/BRL fell 0.59%. Direct fit: Brazil equity/currency tape.

Contradiction / invalidation: Live headline evolved from the opening URL slug; figures are intraday. Brazil's rise versus US declines reflects index composition, not a factual contradiction.

Verification: VERIFIED_DIRECT.

74 — Shadow Wire

Lang / class: English / S

Original headline → faithful English: Police arrest 34 after a fatal shooting in a rural Dutch village → same

Publisher; original time: AP News; 2026-09-01 15:40:57 UTC (news-feed time)

SGT: 2026-09-01 23:40:57

Direct URL: AP News — <https://apnews.com/article/bdd1bdaaf525acd5772c3d5603d61cb>

Factual claim and engine fit: Thirty-four people were detained after an Overasselt shooting left one dead and two police officers wounded; motive was unknown. Direct fit: opaque criminal/security network event.

Contradiction / invalidation: Detention is not charge or guilt; "gangland-style" is descriptive; motive remains unconfirmed.

Verification: VERIFIED_DIRECT; exact time from AP indexed news feed.

Lang / class: Spanish / S

Original headline → faithful English: Discreto, accesible, sin ostentaciones y con una gestoría en Marbella: cae el asesor fiscal que los narcos se recomendaban en la Costa del Sol → Discreet, approachable and unflashy, with a Marbella tax office: the tax adviser recommended among Costa del Sol traffickers is arrested

Publisher; original time: EL PAÍS; 2026-09-01 05:30 CEST

SGT: 2026-09-01 11:30

Direct URL: EL PAÍS — <https://elpais.com/espana/2026-09-01/discreto-accesible-sin-ostentaciones-y-con-una-gestoria-en-marbella-cae-el-asesor-fiscal-que-los-narcos-se-recomendaban-en-la-costa-del-sol.html>

Factual claim and engine fit: Police allege the adviser laundered trafficking proceeds through shell companies, Dubai links, intercompany loans and property. Direct fit: illicit-finance enablement network.

Contradiction / invalidation: All wrongdoing is allegation until adjudicated; police case theory may change. No matching English EL PAÍS edition found in bounded checks below.
Verification: VERIFIED_DIRECT; NATIVE_ONLY_BOUNDED.

Lang / class: Korean / S

Original headline → faithful English: [수사권재편 D-31] ⑤ '14만 경찰' 잦은 일탈 뒤엔 '구멍뚫린 시스템' → [Investigation-power reform D-31] ⑤ “Holes in the system” behind recurring misconduct among 140,000 police

Publisher; original time: Yonhap; 2026-09-01 05:55 KST

SGT: 2026-09-01 04:55

Direct URL: Yonhap — <https://www.yna.co.kr/amp/view/AKR20260831138800004>

Factual claim and engine fit: Analysis links misconduct risk to structural gaps such as random case allocation and discusses civilian-inspectorate proposals. Direct fit: institutional blind spots and accountability.

Contradiction / invalidation: Proposals are not enacted; article is analysis, not proof that all incidents share one cause. No exact English Yonhap mirror found.

Verification: VERIFIED_DIRECT; NATIVE_ONLY_BOUNDED.

Shadow Wire — bounded no-English-version receipt and fidelity

Native item: EL PAÍS Spanish

Exact English-version checks: site:english.elpais.com “tax adviser” Marbella drug traffickers money laundering “September 1 2026”; site:english.elpais.com “financial architect” Costa del Sol narcos Marbella; exact translated-title phrase

Result / scope: English EL PAÍS Marbella results were older/different stories; no parallel 1 September page or translated edition surfaced. This is reasonable bounded absence, not universal proof.

Fidelity note: “cae” rendered as “is arrested/taken down,” not literal “falls”; “gestoría” as tax/accounting office; “narcos” as drug traffickers. Allegations remain attributed.

Native item: Yonhap Korean

Exact English-version checks: site:en.yna.co.kr “140,000 police” system gaps misconduct “September 1 2026”; exact English phrase; “random assignment” KICS police misconduct Korea September 2026; site:en.yna.co.kr September 1 2026 police reform misconduct investigation rights

Result / scope: Related English Yonhap coverage from earlier dates appeared, but no mirror/translation of this 1 September analytical instalment. English site access was partly robots-limited, so claim stays bounded.

Fidelity note: “구멍뚫린 시스템” preserves the “holes in the system” metaphor; “일탈” is “misconduct/deviations,” not necessarily criminal wrongdoing.

75 — Money Wire

Lang / class: English / S (+P corroboration)

Original headline → faithful English: Third consecutive cut: Bank of Israel lowers interest rates to 3.25%, following economic review → same

Publisher; original time: The Jerusalem Post; 2026-09-01 18:12 IDT (updated 18:56)

SGT: 2026-09-01 23:12 (update 23:56)

Direct URL: Jerusalem Post — <https://www.jpost.com/business-and-innovation/banking-and-finance/article-907255>; Bank of Israel decision — <https://www.boi.org.il/en/communication-and-publications/press-releases/01-9-26-en/>

Factual claim and engine fit: Bank of Israel cut its policy rate 25bp to 3.25%, its third consecutive reduction; official decision corroborates the fact. Direct fit: central-bank money conditions.

Contradiction / invalidation: Future path is conditional on inflation, fiscal policy and geopolitical developments; official page supplied date but not a displayed exact time.

Verification: VERIFIED_DIRECT + PRIMARY_CORROBORATED.

Lang / class: Japanese / P

Original headline → faithful English: 法人のお客さまの人事・経理業務 DX とコスト削減を同時に実現 GMO あおぞらネット銀行「給与・賞与振込サービス」の提供開始、API も完備 → GMO Aozora Net Bank launches salary and bonus transfer service, with API, to digitise corporate HR/accounting and cut costs

Publisher; original time: PR TIMES / GMO Aozora Net Bank; 2026-09-01 13:00 JST

SGT: 2026-09-01 12:00

Direct URL: PR TIMES — <https://prtimes.jp/main/html/rd/p/000000354.000034650.html>

Factual claim and engine fit: Bank launches corporate salary/bonus transfers at a stated ¥90 fee and says API availability begins 14 September. Direct fit: payment rails and bank operations.

Contradiction / invalidation: “Industry-lowest level” and cost savings are self-benchmarked; API availability is forward-dated. No exact English company mirror found.

Verification: VERIFIED_DIRECT; NATIVE_ONLY_BOUNDED.

Lang / class: Portuguese / S

Original headline → faithful English: Diretor do BC diz que órgão lançará novas medidas para combater endividamento → Central Bank director says institution will launch new measures to tackle indebtedness

Publisher; original time: Folha de S.Paulo; 2026-09-01 11:38 BRT

SGT: 2026-09-01 22:38

Direct URL: Folha — <https://www1.folha.uol.com.br/mercado/2026/09/diretor-do-bc-diz-que-orgao-lancara-novas-medidas-para-combater-endividamento.shtml>

Factual claim and engine fit: A Brazilian central-bank director says new measures will target debt stress involving credit cards/non-payroll loans and links to betting apps. Direct fit: household credit and monetary transmission.

Contradiction / invalidation: Measures were not yet specified/enacted, so effects are unknown. No exact same-day English mirror found; related earlier English coverage exists.
Verification: VERIFIED_DIRECT; NATIVE_ONLY_BOUNDED.

Money Wire — bounded no-English-version receipt and fidelity

Native item: GMO Aozora Japanese
Exact English-version checks: “GMO Aozora Net Bank” “Salary and Bonus Transfer Service” “September 1 2026”; “90 yen” “salary transfer” GMO Aozora September 2026 English; site:gmo-aozora.com/en September 1 2026 salary bonus transfer API
Result / scope: Older English GMO pages surfaced, but no 1 September English release or mirror of this launch; Japanese official/release page remained the current item.
Fidelity note: “完備” means API included/fully provided; “給与・賞与振込” means salary and bonus transfers. Translation compresses marketing syntax without adding results.

Native item: Folha Portuguese
Exact English-version checks: “Brazil central bank” new measures household indebtedness betting apps “September 1 2026”; exact translated phrase; same-day English query across major wires
Result / scope: A related late-August English report on possible Brazilian lending curbs appeared, but no direct English version of Aquino’s specific 1 September remarks. Absence is item-specific, not topic-wide.
Fidelity note: “endividamento” is indebtedness/debt burden, not insolvency; “combater” is tackle/curb. Future-tense “lançará” is retained.

Cross-engine live-pulse read

These are connections inferred from the verified rows, not additional facts. They should be used as editorial hypotheses with the stated invalidation tests.

Signal: Energy shock → inflation/rates → broad risk pressure
Evidence connection: Engine 72 has Brent above \$92 and a global bond rout; Engine 73 has European equities lower and Korean foreign selling; Engine 75 has a local Israeli rate cut.
Current read: High-confidence cross-asset pulse: oil-supply risk is feeding inflation expectations and duration pressure. The Israeli cut is policy divergence, not disproof of the global move.
What would invalidate / weaken it: Durable oil reversal, yields falling despite oil, or final equity closes reversing the intraday tape.

Signal: Equity dispersion is exposure-driven
Evidence connection: European shares fall while Brazil’s oil-heavy Ibovespa rises; Korean flows remain risk-off.
Current read: “Risk-off” is not uniform: energy exporters/energy-heavy indices can outperform even as global duration assets weaken.
What would invalidate / weaken it: Brazil’s final close losing the oil-led gain, or sector-neutral data showing the move was idiosyncratic.

Signal: Conflict is moving through infrastructure, not only front lines
Evidence connection: Kyiv attacks include a rail-depot report; Japan voices concern over China–Russia military activity; Shadow Wire surfaces laundering and institutional-control gaps.
Current read: Conflict/security transmission includes transport disruption, alliance signalling and illicit-finance/accountability channels.
What would invalidate / weaken it: Official casualty/damage revisions, court findings rejecting the laundering case, or clarified diplomatic language.

Signal: Physical-risk salience raises the value of sensing/resilience—but adoption evidence is thin
Evidence connection: Severe-weather rows span Gulf storm risk, Rio winds and unusual Japanese typhoon tracks; Engine 64 has retrofit building IoT and connected housing launches.
Current read: Weather volatility supports the strategic case for urban sensing and adaptive operations, but the IoT rows only prove announcements, not resilience outcomes.
What would invalidate / weaken it: Failed deployments, low adoption, or weather forecasts dissipating without impact.

Signal: Clean-fuel commercialisation is widening from heavy logistics to consumer heat
Evidence connection: HVO enters F1 European logistics; UCC launches hydrogen roasting; Jilin solicits green-H2 R&D needs.
Current read: Clean-fuel demand is diversifying across transport/logistics, industrial heat and public research pipelines.
What would invalidate / weaken it: Lifecycle audits materially below claimed benefits, project cancellation, or green-hydrogen supply not delivered.

Signal: Household/operational money rails are changing while debt stress remains live
Evidence connection: GMO Aozora launches low-fee/API payroll transfers; Brazil’s central bank flags new debt measures; Israel cuts rates.
Current read: Money infrastructure is becoming more API-driven while regulators remain focused on household leverage; monetary paths are country-specific.
What would invalidate / weaken it: Fee/API launch delay, Brazilian measures not enacted, or inflation forcing Israel to reverse course.

Contradiction and invalidation ledger

Pair / issue: Kyiv deaths: Arabic 7 vs English at least 12
Apparent tension: Different tolls on the same day
Resolution rule: Keep both with publication times and source chains. Treat the later 12 as a likely update, not a silent replacement, until primary authorities reconcile scope.

Pair / issue: Gold “flat” in Hindi vs “lower” in English commodities coverage

Apparent tension: Different direction

Resolution rule: Not a clean contradiction: early Indian MCX/local quotes versus later global instruments. Preserve instrument, unit and timestamp.

Pair / issue: European stocks down vs Brazil stocks up

Apparent tension: Opposite equity direction

Resolution rule: Valid regional dispersion. Oil is an inflation/rate shock for broad European risk assets but a revenue tailwind for Brazil’s energy-heavy index.

Pair / issue: Global yields rising vs Bank of Israel cutting

Apparent tension: Tightening pulse vs easing action

Resolution rule: Policy divergence. One central-bank cut does not negate market-led yield pressure elsewhere.

Pair / issue: FIFA 06:00 UTC canonical/index time vs 13:00 timezone-less UI

Apparent tension: Publisher display mismatch

Resolution rule: Use 06:00 UTC → 14:00 SGT as machine/index reference; disclose the 13:00 UI rendering. Both plausible interpretations are inside the window.

Time-gate exclusions observed

Date-only pages were not allowed to satisfy the 24-hour window silently. Matching but insufficiently timed candidates encountered on Al-Ahram (geopolitics), La Prensa Regional (hydrogen) and Kirishin (religion) were excluded in favour of exact-time rows above. No engine required filler or a HOLD.

Searched-source domain ledger

Count: 176 distinct normalised source domains searched; 23 distinct normalised domains contributed publishable rows. The list includes domains that yielded no publishable row. Subdomains are normalised to their source domain where appropriate (for example, inside.fifa.com → fifa.com; kjt.jl.gov.cn → jl.gov.cn; www1.folha.uol.com.br → folha.uol.com.br).
